Relationships 101 - Rone John Bulaong 2015-05-30

This book is a radically different re-approach to love and relationships, providing irrefutable socio-biological, cultural, and psychological reasoning. The book centers on emancipating men and especially women as they recognize how relationship styles has come to be the way it is and how they can reframe certain ways of viewing relationships to have happy, harmonious, and loving relationships. The book goes over the "double bind" society has put on women that has prevented them to act as free, independent individuals. It goes over concepts that dilute unconditional pure love such as obligation, ownership and jealousy. It goes over the cultural history of the honeymoon, marriage, cultural mysogyny, harems, and other things that has made us view relationships the way it is today. Finally, this book goes over how you can emancipate you from feeling guilt and shame over things that you don't have to ever feel those things, how you can handle your communication of this, and other things such as attraction, infatuation, commitment, one-night stands, and Hobson's Choice.

Dynamic Sex Variations - Lance Seymour 1971

Dynamic Risk Factors for Sexual Offending - Roxanne Heffernan 2020-10-31

Dynamic risk factors add a key element to the activities of practitioners seeking to reduce recidivism in criminal populations. This book focuses on the usefulness of dynamic risk factors and their ability to provide reliable information about the likelihood of reoffending. Practitioners increasingly depend on such assessments for more accurate prediction of recidivism as well as for improving the design of intervention programs.

Problems in Dynamic Psychology - John T. MacCurdy 2016-09-15

Originally published in 1923, this book provides a discussion of aspects of psychoanalysis and puts forward solutions for various problems in the field. It is divided into four main parts: 'Freudian Formulations'; 'The Relationship of Psychoanalysis and Suggestion'; 'The Preconscious Phase'; 'Instincts and their Manifestations'.

Advances in Dynamic and Mean Field Games - Joseph Apaloo 2018-01-03

This contributed volume considers recent advances in dynamic games and their applications, based on presentations given at the 17th Symposium of the International Society of Dynamic Games, held July 12-15, 2016, in Urbino, Italy. Written by experts in their respective disciplines, these papers cover various aspects of dynamic game theory including mean-field games, stochastic and pursuit-evasion games, and computational methods for dynamic games. Topics covered include Pedestrian flow in crowded environments Models for climate change negotiations Nash Equilibria for dynamic games involving Volterra integral equations Differential games in healthcare markets Linear-quadratic Gaussian dynamic games Aircraft control in wind shear conditions Advances in Dynamic and Mean-Field Games presents state-of-the-art research in a wide spectrum of areas. As such, it serves as a testament to the continued vitality and

growth of the field of dynamic games and their applications. It will be of interest to an interdisciplinary audience of researchers, practitioners, and graduate students.

Human Rights and Dynamic Humanism - Winston P. Nagan 2016-11-25

Dynamic humanism in the defense and promotion of human rights. Activism is driven by positive sentiment; deprivations are driven by negative sentiment. The book explores these issues in the context of theory as well as specific chapters which focus on the multiple dimensions of the human rights problem.

Dynamic Psychotherapy with Adult Survivors - Lori Bennett 2012-04-26

Dynamic Psychotherapy with Adult Survivors: Living Past Neglect by Lori Bennett examines the aftereffects of emotional neglect in order to help clinicians to better serve survivors. Bennett creates a more profound understanding of the effects of childhood neglect on adult survivors by contributing new theory and expanding on practice information for graduate students and mental health clinicians who are serving these survivors.

Affirmative Dynamic Psychotherapy With Gay Men - Carlton Cornett 1993-11-01

Drawing on concepts from Freud to Kohut, the authors of this volume remove the pathological stigma of homosexuality per se, a theoretical bias that may have long prevented dynamic therapists from working more effectively with gay clients. The authors manage to weave sophisticated theory with specific, pragmatic advice that is readily applicable in the first session of therapeutic work.

This Dynamic World - Charles W. Morgan 2010

This Dynamic World is visually beautiful and full of useful knowledge. The book makes plain what has been obscure. Long before our "New Age" of Aquarius or even the environmental evangelism of "an inconvenient truth," Charles Morgan, 91 year old "Hindu preacher" and "farmer philosopher," revealed the secrets of the last days. For instance, we learn that Levi Dowling brought forth the Akashic Record and Aquarian Gospel of Jesus Christ not in the 1960s, but in the 1860s. Long before the "planned community," "open space," or "green space," Charles Morgan postulated the "city in a building." From the dust bowl to today's "drying of the west," this farmer said we farm too much and honor nature too little. This Dynamic World leads us to prophets from Moses to Edgar Cayce, thinkers from Plato to Confucius, scientists from Einstein to Hawking, and also spiritual masters like Paramahansa Yogananda, the first Hindu yogi in America and his disciple. In this book, we learn from saints like Paul and John on his isle of Patmos as well as from heavenly messengers (called by some angels, by others astral beings). We find God With Us (called by some Messiah, by others avatar). The book is a key to enlightenment on a spiritual level of existence in a planetary community for individual and worldwide salvation where we are all related and must relate to each other. This is the concept of "biorelativity." This Dynamic World calls us on a Worldwide Crusade for Biorelativity. This Dynamic World uses the "fabric of time" as a scientific basis for prophecy and the astral cycle of George King, Jeanne Dixon, and Ruth Montgomery. We embrace "good vibrations," "energy," meditation, and "yoga" but also the Word of God and the philosophies of men in a determination to take blessed action.

Dynamic Assessment in Couple Therapy - William J. Hiebert 1993

More and more, therapists are intervening in marital conflicts without waiting to complete the formal assessment process. While most texts begin with theoretical roadmaps for the process of therapy, Dynamic Assessment in Couple Therapy shows therapists how to begin interventions during the process of assessment. By detailing the procedures and techniques for using their innovative Structured Initial Interview (SII), the authors have designed a practical form of intervention to handle both the complexity of the marital journey and the subtle realities of marital roadblocks. As outlined in this innvative book, SII is a creative source of interaction that will stimulate new insights and helpful new directions for therapists and their clients.

Dynamic Models of Infectious Diseases - V. Sree Hari Rao 2013-11-30

Though great advances in public health are witnessed world over in recent years, infectious diseases, besides insect vector-borne infectious diseases remain a leading cause of morbidity and mortality. Control of the epidemics caused by the non-vector borne diseases such as tuberculosis, avian influenza (H5N1) and cryptococcus gattii, have left a very little hope in the past. The advancement of research in science and technology has paved way for the development of new tools and methodologies to fight against these diseases. In particular, intelligent technology and machine-learning based methodologies have rendered useful in developing more accurate predictive tools for the early diagnosis of these diseases. In all these endeavors the main focus is the understanding that the process of transmission of an infectious disease is nonlinear (not necessarily linear) and dynamical in character. This concept compels the appropriate quantification of the vital parameters that govern these dynamics. This book is ideal for a general science and engineering audience requiring an in-depth exposure to current issues, ideas, methods, and models. The topics discussed serve as a useful reference to clinical experts, health scientists, public health administrators, medical practitioners, and senior undergraduate and graduate students in applied mathematics, biology, bioinformatics, and epidemiology, medicine and health sciences.

Intrusive Partners - Elusive Mates: The Pursuer-Distancer Dynamic in Couples - Stephen J. Betchen 2013-08-21

When two people form a relationship or marry, they begin to move towards one another with the expectation of closeness. The emotionality or intensity that accompanies this process, however, may result in fusion followed by a desperate need for space or distance. *Intrusive Partners - Elusive Mates* is the first book to deal exclusively with the pursuer-distancer interaction, and to focus significant attention on the emerging male pursuer-female distancer dynamic. This book revisits Fogarty's work, traces the concept over time and across different professional fields, and discusses in detail the concepts correlation with gender issues and social change. A detailed, step-by-step model of treatment to aid in de-escalating this potentially problematic style is also offered. The model in and of itself is unique because it integrates psychoanalytic conflict theory and psychodynamic systems theory into one treatment approach. This book is intended to offer the therapist a model for understanding and effectively discussing this dynamic, while at the same time allowing couples to read and explore it on their own.

Policing the Sex Industry - Teela Sanders 2017-12-12

The exponential growth of sexual commerce, migration and movement of people into the sex industry, as well as localised concerns about transactional sex, are key areas of interest across the urban west. Given the complex regulatory frameworks under-which the sex industry manifests, the role of the police is significant. *Policing the Sex Industry* draws on the research and expertise of academics and practitioners, presenting advanced scholarship across a range of countries and spaces. Unpicking the relationship between police practice and commercial sex whilst speaking to the current policy agendas, *Policing the Sex Industry* explores key issues including: trafficking, decriminalisation, localised impacts of punitive policing

approaches, uneven policing approaches, hate-crime approaches and the impact of policing on trans sex workers. A dynamic and incisive contribution to existing research, *Policing the Sex Industry* will appeal to undergraduate and postgraduate students, as well as researchers at all levels, interested in fields including Criminology, Sociology, Gender Politics and Women's Studies

Dynamic Security - Michael Parker 2007

Dynamic Security describes the theory, practice and management of democratic therapeutic communities (TCs) in prisons using clinical examples and case studies. The contributors explore the complexities of working in TCs and the powerful emotional impact generated in the process of therapy in the forensic setting.

Compensated Dating - Cassini Sai Kwan Chu 2018-01-16

This book considers a burgeoning social phenomenon, compensated dating in Hong Kong, that facilitates direct commercial sex exchange between consenting females from their mid-teens through the late 20s and males from their early 20s to mid-adulthood. Informed by the transformation of intimacy, the breakdown of institutional constraints, the emergence of a new female sexual autonomy and the advancement of information technology, this book moves beyond stereotypes of sex work to look at the complexities of compensated dating. The phenomenon of compensated dating is distinctive from most other sex trades in that it involves intense emotional interactions and often extends beyond the commercial boundary. Given the dynamic, flexible and ambiguous nature of compensated dating, it has become more of a space for sexual explorations and less of a rigid model of commercial sex, at least in the eye of the participants. This book walks through how men become involved in compensated dating and also sheds lights on how gender relations are negotiated, with important implications on what it means to be a man and a woman in contemporary Hong Kong society. It also speaks to the broader transformations of some of the key social structures and elements, particularly gender and sexualities, in the era of late modernity.

Demanding Sex: Critical Reflections on the Regulation of Prostitution - Marina Della Giusta 2016-05-13

Interrogating supply/demand from an inter- and multi-disciplinary perspective, this collection broadens engagement beyond the routine analysis of the locus of violence in prostitution and the validity of the prostitute's consent. A focus on the supply/demand dynamic brings into play a range of other societal, economic and psychological factors such as the social construction of sexuality, the viability of alternative choices for prostitutes and clients, and the impact of regulatory regimes on the provision of sexual services. The factors which underlie each component of the supply/demand dyad are also studied and an examination is made of their dynamic interrelation. The collection emphasizes the importance of rendering policy makers alert to the evidence emerging from empirical studies conducted in different fields of enquiry, in the hope of moving beyond polarity and politics at the local, national and international level.
