[Empowerment of Women for Promoting Global Health and Quality of Life - Snehen B. Kar 2018](#)

Empowerment of Women for Promoting Health and Quality of Life reviews the evolution of modern Public Health and Global Public Health and the role of women's empowerment for promoting global health. It critically reviews the evolution of global health since the 1990s when the UN initiated the Human Development Approach and adopted the millennial development goals through global consensus. It analyses the paradigm shifts from disease-based prevention using the Public Health model to a new paradigm focusing on the root causes of health problems globally (e.g. inequalities, powerlessness). It reviews the philosophical, theoretical and empirical foundations of these paradigms. The second section presents our meta-analysis of 86 successful women's empowerment case-studies around the world that address threats to health and well-being of their families and communities. These movements represent four domains: human-rights, equal-rights, health, and income. Using an EMPOWER (acronym) framework designed for the meta-analysis, it answers six questions: can ordinary women organize empowerment movements that enhance the well-being of their families and communities; if so, what are their characteristics; what problems motivate them; which empowerment methods are used and do they vary by domains; who support and oppose them and how; and what are the social contexts that affect their movements. Success consists of: accomplishing the original goal/s, external recognition and/or replication by others, and subjective and objective empowerment outcomes. A summary of each case allows readers to learn directly from that movement. The final chapter critically reviews the key findings, issues and their implications for policy, actions, and research in human service professions.

[Evidence-based Approaches to Sexuality Education - James J. Ponzetti, Jr. 2015-09-16](#)

This is the first book to provide a multidisciplinary and global overview of

evidence-based sexuality education (SE) programs and practices. Readers are introduced to the fundamentals of creating effective programs to prepare them to design new or implement existing programs that promote healthy sexual attitudes and relationships. Noted contributors from various disciplines critically evaluate evidence-based programs from around the globe and through the lifespan. Examples and discussion questions encourage application of the material. Guidance for those who wish to design, implement, and evaluate SE programs in various social contexts is provided. Each chapter follows a consistent structure so readers can easily compare programs: Learning Goals; Introduction; Conclusion; Key Points; Discussion Questions; and Additional Resources. The editor taught human sexuality and family life education courses for years. This book reviews the key information that his students needed to become competent professionals. Highlights of the book's coverage include: Interdisciplinary, comprehensive summary of evidence-based SE programs in one volume. Prepares readers for professional practice as a Certified Family Life Educator (CFLE) or sex educator by highlighting the fundamentals of developing and implementing SE programs. Exposes readers to evidence-based SE programs from various social contexts including families, schools, communities, and religious institutions. Considers the developmental context of SE across the lifespan along with programs for LGBT individuals and persons with disabilities. Critically reviews SE programs from around the world including the US, Europe, Asia, Africa, Latin America, and other developing countries. The book opens with an historical overview. Part I focus on general frameworks of sexuality education including UNESCO's International Technical Guidelines. How to develop, deliver, and implement evidence based SE programs, including ethical concerns, are explored in Part II. Part III exposes readers to evidence-based programs in various social contexts--families, schools, communities, and religious institutions. Part IV considers the developmental context of SE from early childhood through adolescence and adulthood along with programs for LGBT individuals and persons with disabilities. Part V examines diverse global contexts from the US, Latin America, Europe, Asia, Africa, and other developing countries. The book concludes with future trends and directions. Ideal for graduate or advanced undergraduate courses in sex education, sexual health, human sexuality, sex or marriage counseling, intimate relationships, family life education, or home, school, and community services taught in human development and family studies, psychology, social work, health education, nursing, education, and religion, and in seminaries and family clinics, the book also serves as a resource for practitioners, counselors, researchers, clergy members, and policy makers interested in evidence based SE programs, or those seeking to become CFLEs or sexuality educators.

[Global Perspectives on Family Life Education - Mihaela Robila 2018-07-20](#)

This expansive reference examines the many types of Family Life Education (FLE) programs being offered around the world, reflecting a

myriad of cultures and contexts. Coverage identifies core FLE content areas including parenting education, human sexuality, and interpersonal relationships, and details their programming in various countries over six continents, the Caribbean, and the Middle East. Contributors discuss complex challenges of program design, implementation, and evaluation, as well as connections between FLE and family prevention and intervention services. This knowledge is of great theoretical and practical utility across various fields, and is of particular interest to those developing programs for diverse populations. This unique volume: Presents in-depth information on Family Life Education programs from different countries around the world. Discusses how the socio-historic, political, and economic context of a country impacts its families and family services and programs. Covers current topics including poverty, domestic violence, and immigration. Encourages best practices and thorough understanding of the country/region. Offers recommendations for family service providers. Global Perspectives on Family Life Education is a trove of vital knowledge benefitting scholars and researchers as well as professors, postgraduates, graduate and undergraduate students, and practitioners in the family sciences, family life education, family therapy, social work, child and family studies, psychology, sociology, social work, cultural studies, and urban studies. [Too Hot to Handle](#) - Jonathan Zimmerman 2016-09-13

The first comprehensive history of sex education around the world Too Hot to Handle is the first truly international history of sex education. As Jonathan Zimmerman shows, the controversial subject began in the West and spread steadily around the world over the past century. As people crossed borders, however, they joined hands to block sex education from most of their classrooms. Examining key players who supported and opposed the sex education movement, Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling. In the early 1900s, the United States pioneered sex education to protect citizens from venereal disease. But the American approach came under fire after World War II from European countries, which valued individual rights and pleasures over social goals and outcomes. In the so-called Third World, sex education developed in response to the deadly crisis of HIV/AIDS. By the early 2000s, nearly every country in the world addressed sex in its official school curriculum. Still, Zimmerman demonstrates that sex education never won a sustained foothold: parents and religious leaders rejected the subject as an intrusion on their authority, while teachers and principals worried that it would undermine their own tenuous powers. Despite the overall liberalization of sexual attitudes, opposition to sex education increased as the century unfolded. Into the present, it remains a subject without a home. Too Hot to Handle presents the stormy development and dilemmas of school-based sex education in the modern world.

Family Life Education - Carol A. Darling 2022-06-29

Contemporary family life educators operate within a wide range of settings and with increasingly varied populations and families. In the fourth edition of Family Life Education, Carol Darling and Dawn Cassidy are pleased to have Sharon Ballard join in the process of exposing readers to the diverse landscape of the field while laying a comprehensive, research-based, and practical foundation for current and future family life educators. The authors, who are CFLE Certified, consider the Certified Family Life Educator credential requirements of the National Council on Family Relations throughout the text. Their broad overview of the field includes a brief history and discussion of family life education as an established profession. New to this edition is the inclusion of several models that provide insight into the discipline and practice. There is expanded information about working with diverse audiences and the skills needed to be a culturally competent family life educator. The addition of the personal experiences and reflections of 17 family life educators working in a variety of settings provides a meaningful context to the continuing evolution and importance of family life education in society. The authors incorporate theory, research, and practice while also providing guidelines for planning, implementing, and

evaluating family life education programs. Content on sexuality education, relationship and marriage education, and parenting education highlights some of the more prevalent trends and visible forms of family life education. Comments from 35 international colleagues representing 27 countries and 6 continents facilitate understanding the role of family life education in various international settings. The provision of interactive classroom exercises focuses on building awareness, appreciation of diversity, and global trends. Discussion questions and activities encourage readers to examine issues and apply what they have learned.

[Growing Up Global](#) - Institute of Medicine 2005-06-25

The challenges for young people making the transition to adulthood are greater today than ever before. Globalization, with its power to reach across national boundaries and into the smallest communities, carries with it the transformative power of new markets and new technology. At the same time, globalization brings with it new ideas and lifestyles that can conflict with traditional norms and values. And while the economic benefits are potentially enormous, the actual course of globalization has not been without its critics who charge that, to date, the gains have been very unevenly distributed, generating a new set of problems associated with rising inequality and social polarization. Regardless of how the globalization debate is resolved, it is clear that as broad global forces transform the world in which the next generation will live and work, the choices that today's young people make or others make on their behalf will facilitate or constrain their success as adults. Traditional expectations regarding future employment prospects and life experiences are no longer valid. Growing Up Global examines how the transition to adulthood is changing in developing countries, and what the implications of these changes might be for those responsible for designing youth policies and programs, in particular, those affecting adolescent reproductive health. The report sets forth a framework that identifies criteria for successful transitions in the context of contemporary global changes for five key adult roles: adult worker, citizen and community participant, spouse, parent, and household manager.

Family Life Education - Lane H. Powell 2006-08-15

Contemporary family life educators must operate in a wide range of settings and with increasingly varied populations and families. In the second edition of their successful Family Life Education, Powell and Cassidy expertly expose readers to the diverse landscape of the field while laying a comprehensive, practical foundation for future family life educators. The authors, both CFLE-certified, consider the Certified Family Life Educator certification requirements of the National Council on Family Relations throughout the text. Their broad overview of the field features a blend of theory and practice, with full chapters on sexuality education, marriage education, and parent education areas that have received evaluation and certification attention. A new chapter on global trends builds awareness and appreciation of diversity through interactive classroom exercises. Each chapter in the book concludes with discussion questions, research problems, independent-study activities, and case-study suggestions, all designed to challenge readers to think for themselves.
