*The Dairy-Herd-Improvement Association Program (Classic Reprint)* James Frank Kendrick 2017-11-08 Excerpt from The Dairy-Herd-Improvement Association Program The supervisor visits each farm one day each month. Usually he arrives in the, afternoon. That evening he weighs the feed Of each cow, weighs the milk, and takes a sample Of the milk for testing. He records all figures in the barn book, from which he transfers them to the herd-record book. The barn book is the supervisor's record of the work, and the herd-record book remains in the possession Of the farmer as his record Of the work. The next morning the supervisor again weighs the feed, weighs the milk, and takes a sample Of the milk for testing. He mixes the two samples Of each cow's milk thor oughly and then tests the composite sample for percentage Of butter fat. The day the test is made is considered as the middle day of the testing period, and the record Of that day is multiplied by the number of days in the testing period. From the herd-record book the farmer can at any time get the record Of his herd and Of each cow for every month from the beginning of the testing year. He can also get totals for each cow. The herd records include feed cost and production Of milk and butterfat. The individual-cow records include all this and the number Of pounds Of each kind Of feed consumed. At the end of the testing year the farmer can get from the herd record book the yearly summary Of his herd and Of each cow. AS the years pass he can compare the yearly records and determine what progress his herd is making and what progress each cow is making. If the herd-record books are filled out completely and carefully, the farmer can get all this information quickly, and from this knowledge of the records Of his cows he can go forward, without guesswork, in the improvement of his herd. With a well-kept herd-record book, the farmer is able to build up his herd. Rapidly through careful selection, planned breeding, and proper feeding. *The Welfare of Pigs* Jeremy N. Marchant-Forde 2008-11-26 The domestic pig is perceived as an animal with intelligence and character and yet, in the industrialized world, the majority of people have had little or no contact with them. Pigs are subject to a wide range of environments from the tropics to the sub-arctic, ranging from small-scale, extensive systems to large-scale intensive systems. They may spend their whole life on one farm or may be subject to long-distance transport multiple times. Not surprisingly, many aspects of their life experiences can impact their welfare. This book brings together a team of leading pig welfare research scientists to review the natural history of the pig, the welfare of pigs at different stages of life and to indicate what the future holds in terms of pig welfare. The text is aimed at researchers and teachers working in veterinary and animal science together with those working in the pig industry and for governmental and non-governmental animal welfare organizations.

Aa Is For Alpacas Sue Carolane 2018-10-01 Why THIS alphabet book? Because reading is only 'as simple as ABC' when the alphabet is taught and learnt correctly. Would it surprise you to know that many ABC books get it wrong? Troubled by the increasing number of children struggling with reading, writing and spelling, Sue Carolane (B.App.Sc. Speech Pathology), a professional with over thirty years of practice in early childhood literacy, tackles the problem at its core: the sounds made by each letter of the alphabet. With an easy-to-follow guide for the adult coach and full colour pictures of a cheeky alpaca family to engage your child, this book ensures education AND enjoyment when learning the names and sounds of the letters of the alphabet. 'Aa is for Alpacas' gives you and your child everything you need to lay the foundations of good literacy correctly - strong from the start - allowing your child to move on with confidence to the building blocks that come next: reading and writing.

The Goat Record Keeping Log Book Jake Duncan 2021-02-25 I have been the owner of goats for many years and I want to share my breed experience with others, so I decided to design The Goat Record Keeping Log Book which is helpful especially for goat owners. This book allows you to keep important vital information about your goats, you can also record your observations, take medical notes, make breeding and kidding notes, and much more just in that one simple functional easy to use journal. This log book is a true "must-have" thing for those who love and breed goats. Features of this log book: The book allows you to easily record the most important details for up to 30 goats. There is a Goat Index page, where you can write the Goat's Name and next to it the number of the page where the information about that goat is stored. On the Goat Information page, you will be able to record the Goat's Full Name, Nickname, Date of Birth, Sex, Breed, Registration Information, Color, Markings, Horn Info, Ear Info, Tattoo, Electronic ID, the Goat's Purpose in your herd, Information on when and how the goat was acquired, Breeder and Owner information. There is a chart to record a 4 generation Pedigree. A place holder to paste a Photo or Drawing of the goat. And space for Notes. On the Medical Information page, you can record information about Injuries or Illnesses, Parasite Control, Testing, Vaccinations, and Supplements the goat has taken. The Breeding & Kidding pages have enough space to record 6 different breeding and kidding seasons for each goat. You will be able to record the buck and whether the breeding was a live cover or AI, the Date of Bred, the Due Date, the Number of the Freshening, the Actual Kidding Date, information about the Delivery, and information on each kid born. There is also a lot of space to record Comments, Notes, and Other Information for each goat. In the book, you will also find 20 pages for Notes and Observations about your goat herd. In the last pages of the book, you will find information about the basic Vital Signs for Goats, and Interesting Facts About Goats, information about Goat Weight Measurement and the Gestation of Goats, including handy tables for Calculating a Goat's Weight based on a heart circumference measurement and a table for Calculating the Kidding Due Date. There are pages in the book to write down Emergency and Supplier Contact details. At the end of the book, you will find a Bonus that was prepared especially for you, thanks to it you will learn even more interesting things about goats and Information from the Author. Note from the Author: I have been working with goats since 2004. The number of goats in my herd began with a modest few heads, with time my herd grew to a dozen, a few dozen, and even over a hundred goats. Over the years I have used and tested several record keeping methods for my herd. With the knowledge and experience I have gained, I decided to create useful record keeping sheets, which I have included in this Goat Record Keeping Log Book. I hope it meets all your expectations and proves extremely useful to you. I wish you all the best in further breeding those beloved animals that are goats! Click buy now to get your copy and start recording important information about your goats. The Goat Record Keeping Log Book fits perfectly in with 4-H and FFA projects and is also great as a unique gift for your family members and friends that will make them love goats.

**Herd on the Street** Ken Wells 2007-11-01 For more than sixty years, The Wall Street Journal has prided itself not just on its serious journalism, but also on the whimsical and arcane stories that amuse and delight its readers. In that regard, animal stories have proven to be the most beloved of all. Now, veteran Journal reporter and Page One editor Ken Wells gathers the finest, funniest, and most fascinating of these animal tales in one exceptional book. Here are lighthearted, witty stories of breakthroughs in goldfish surgery, the untiring efforts of British animal lovers who guide lovesick toads across dangerous motorways, and the quest to tame doggy anxieties by prescribing the human pacifier Prozac. Other pieces reflect on mankind's impact on the animal kingdom: a close-up look at the nascent fish-rights movement, the retirement of U.S. Air Force chimpanzees that once soared through space, and ongoing scientific efforts to defeat that most hardy enemy -- the cockroach. Each of these fifty-odd stories -- from the outlandish to the poignant -- exemplifies the superb feature writing that makes The Wall Street Journal one of America's best-written newspapers. This charming and utterly captivating collection will be a joy not only to animal lovers, but to all those who appreciate artful storytelling by writers who are obviously having a wonderful time spinning the tales.

Stalking the Herd Christopher O'Brien 2014-02-01 Who or What is Behind the Cattle Mutilations? The cattle mutilation phenomenon is an ongoing mystery that has endured for almost 50 years. What have we learned, if anything, from the countless reports filed? Who or what is behind the death and disfigurement of livestock reported as mutilated around the globe? Are these deaths simply attributable to natural predators and scavengers? Or is the military/government somehow involved; perhaps monitoring "mad cow disease"? Are the deaths the action of ritual "cultists" as police say the evidence would suggest? Is it possible that alien predators are involved, as some researchers and the media have suggested? Are black helicopters or UFOs related to the cattle mutilation phenomenon as many witnesses have claimed? Regardless of who or what is responsible, what are the motivations behind perpetrating what may be the greatest unsolved serial crime spree of all time? Stalking the Herd addresses these questions in depth and also offers an objective look at the history of our venerated relationship with cattle, the first domesticated livestock. Is there a connection between these ritualistic cattle deaths and humankind's ancient practice of animal sacrifice? Why are there no Brahman cattle mutilations in India where cattle are revered to this day? Are aliens gathering genetic material for unknown purposes? What about the thousands of pounds of scientific forensic evidence? Are some hidden sections of the military conducting secret projects that—for some reason known only to them—involve the mutilation of hundreds of cattle in an area that includes Colorado Springs, the NORAD command base inside Cheyenne Mountain and the strange little town called Dulce on a small Apache Reservation?

**Air Emissions from Animal Feeding Operations** National Research Council 2003-04-07 Air Emissions from Animal Feeding Operations: Current Knowledge, Future Needs discusses the need for the U.S. Environmental Protection Agency to implement a new method for estimating the amount of ammonia, nitrous oxide, methane, and other pollutants emitted from livestock and poultry farms, and for determining how these emissions are dispersed in the atmosphere. The committee calls for the EPA and the U.S. Department of Agriculture to establish a joint council to coordinate and oversee short - and long-term research to estimate emissions from animal feeding operations accurately and to develop mitigation strategies. Their recommendation was for the joint council to focus its efforts first on those pollutants that pose the greatest risk to the environment and public health.

**Temple Grandin's Guide to Working with Farm Animals** Temple Grandin 2017-05-02 Award-winning author Temple Grandin is famous for her groundbreaking approach to decoding animal behavior. Now she extends her expert guidance to small-scale farming operations. Grandin's fascinating explanations of how herd animals think — describing their senses, fears, instincts, and memories — and how to analyze their behavior, will help you handle your livestock more safely and effectively. You'll learn to become a skilled observer of animal movement and behavior, and detailed illustrations will help you set up simple and efficient facilities for managing a small herd of 3 to 25 cattle or pigs, or 5 to 100 goats or sheep.

**The Use of Drugs in Food Animals** National Research Council 1999-01-12 The use of drugs in food animal production has resulted in benefits throughout the food industry; however, their use has also raised public health safety concerns. The Use of Drugs in Food Animals provides an overview of why and how drugs are used in the major food-producing animal industries—poultry, dairy, beef, swine, and aquaculture. The volume discusses the prevalence of human pathogens in foods of animal origin. It also addresses the transfer of resistance in animal microbes to human pathogens and the resulting risk of human disease. The committee offers analysis and insight into these areas: Monitoring of drug residues. The book provides a brief overview of how the FDA and USDA monitor drug residues in foods of animal origin and describes quality assurance programs initiated by the poultry, dairy, beef, and swine industries. Antibiotic resistance. The committee reports what is known about this controversial problem and its potential effect on human health. The volume also looks at how drug use may be minimized with new approaches in genetics, nutrition, and animal management.

**The Illustrated Herdwick Shepherd** James Rebanks 2019-02-07 I am the luckiest man alive, because I get to live and work in the most beautiful place on earth: Matteredale in the English Lake District. When I was a child we didn't really go anywhere, except a week in the Isle of Man when I was about ten years old, and I never left Britain until I was twenty. Even now, years later, the best bit of any travelling is coming home. Bringing us into the world of shepherd's baking competitions, sheep shows and moments out on the fell watching the sheep run away home, James Rebanks interweaves thoughts and reflections on the art of shepherding with his photographs of the valley, people and animals that make up the daily life of the fells. A life lived by the three hundred surviving fell farming families, this is a book of photos and words filled with reverence and love.

*The Herd* Andrea Bartz 2020-03-24 Why did the founder of a glamorous coworking space for women disappear? Her best friends will risk everything to uncover the truth in this “propulsive thriller” (Marie Claire) from the New York Times bestselling author of the Reese's Book Club pick *We Were Never Here*. “Perfect for fans of *Big Little Lies*.”—The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Real Simple • Marie Claire • Good Housekeeping • CrimeReads As CEO of the Herd, an elite women-only coworking space, Eleanor Walsh seems to have it all: close friends, a sweet husband, and the most glamorous and successful female-empowerment-based company in New York City. *Rethinking Food and Agriculture* Amir Kassam 2020-10-18 Given the central role of the food and agriculture system in driving so many of the connected ecological, social and economic threats and challenges we currently face, *Rethinking Food and Agriculture* reviews, reassesses and reimagines the current food and agriculture system and the narrow paradigm in which it operates. *Rethinking Food and Agriculture* explores and uncovers some of the key historical, ethical, economic, social, cultural, political, and structural drivers and root causes of unsustainability, degradation of the agricultural environment, destruction of nature, short-comings in science and knowledge systems, inequality, hunger and food insecurity, and disharmony. It reviews efforts towards ‘sustainable development’, and reassesses whether these efforts have been implemented with adequate responsibility, acceptable societal and environmental costs and optimal engagement to secure sustainability, equity and justice. The book highlights the many ways that farmers and their communities, civil society groups, social movements, development experts, scientists and others have been raising awareness of these issues, implementing solutions and forging ‘new ways forward’, for example towards paradigms of agriculture, natural resource management and human nutrition which are more sustainable and just. *Rethinking Food and Agriculture* proposes ways to move beyond the current limited view of agro-ecological sustainability towards overall sustainability of the food and agriculture system based on the principle of ‘inclusive responsibility’. Inclusive responsibility encourages ecosystem sustainability based on agro-ecological and planetary limits to sustainable resource use for production and livelihoods. Inclusive responsibility also places importance on quality of life, pluralism, equity and justice for all and emphasises the health, well-being, sovereignty, dignity and rights of producers, consumers and other stakeholders, as well as of nonhuman animals and the natural world. Explores some of the key drivers and root causes of unsustainability, degradation of the agricultural environment and destruction of nature Highlights the many ways that different stakeholders have been forging 'new ways forward' towards alternative paradigms of agriculture, human nutrition and political economy, which are more sustainable and just Proposes ways to move beyond the current unsustainable exploitation of natural resources towards agroecological sustainability and overall sustainability of the food and agriculture system based on 'inclusive responsibility'

**LIVESTOCK-RELATED INTERVENTIONS DURING EMERGENCIES** Food and Agriculture Organization of the United Nations 2018-09-27 This FAO manual provides technical advice and guidelines for each of the livestock interventions most common during emergency response to natural and human-induced disasters. *Herd* Mark Earls 2009-08-07 "...fascinating. Like Malcolm Gladwell on speed." —THE GUARDIAN "HERD is a rare thing: a book that transforms the reader's perception of how the world works". —Matthew D'Ancona, THE SPECTATOR "This book is a must. Once you have read it you will understand why Mark Earls is regarded as a marketing guru." —Daniel Finkelstein, THE TIMES This paperback version of Mark Earls'

groundbreaking and award winning book comes updated with new stats and figures and provides two completely revised chapters that deal with the rise of social networking. Since the Enlightenment there has been a very simple but widely held assumption that we are a species of thinking individuals and human behaviour is best understood by examining the psychology of individuals. It appears, however, that this insight is plain wrong. The evidence from a number of leading behavioural and neuroscientists suggests that our species is designed as a herd or group animal. Mark Earls applies this evidence to the traditional mechanisms of marketing and consumer behaviour, with a result that necessitates a complete rethink about these subjects. HERD provides a host of unusual examples and anecdotes to open the mind of the business reader, from Peter Kay to Desmond Tutu, Apple to UK Sexual Health programmes, George Bush to Castle Lager, from autism to depression to the real explanation for the placebo effect in pharmaceutical testing.

The Cow Book John Connell 2018-03-01 Farming has been in John Connell's family for generations, but he never intended to follow in his father's footsteps. Until, one winter, he finds himself back on the farm and begins to learn the ways of the farmer and the way of the cows. Connell records the hypnotic rhythm of the farming day - cleaning the outhouses, milking the herd, tending to sickly lambs, helping the cows give birth. But alongside the routine events, there are the unforeseen moments when things go wrong: when a calf fails to thrive, when a sheep goes missing, when illness breaks out, when depression takes hold, when an argument erupts and things are said that cannot be unsaid. The Cow Book is the story of a calving season. It is also the story of the cow itself, from its domestication and worship as a God by the Ancient Egyptians to the modern practice of mechanized herds, via the figure of the cowboy, the destruction of the American buffalo, the demise of the aboriginal jackaroos and the consequences of BSE. And, above all, it is the story of Connell's life as a farmer, of his relationship with his birthplace of County Longford, with the community around the family farm, with the animals he tends, and with his father.

**Cattle Inspection** Institute of Medicine 1990-02-01 The result of a federally-mandated study to evaluate the streamlined inspection systems now in place at cattle slaughter plants throughout the US, this volume compares the streamlined system to the traditional cattle inspection system; recounts on-site reviews of two high-volume plants; surveys procedures for monitoring chemicals and pathogens in carcasses; and evaluates the overall efficacy of the streamlined system in protecting the public's health. **The Dairy Herd Improvement Association Program** James Frank Kendrick 1953 "Nearly 50 years ago a few progressive dairy farmers in Michigan organized the first cow-testing association in the United States. They wanted to improve the profitableness of their herds. They hired a tester to weigh and test the milk of each cow and keep a record of her food cost and income. They wanted that information so they could cull the low producers from their herds and feed the rest more economically. In the first 4 years of their pioneer effort these Michigan dairy farmers doubled the average profit per cow. Since then thousands of other dairy farmers have followed their example with equally striking results. The cow-testing movement grew and eventually expanded into the present-day dairy-herd-improvement-association program. Members of these associations now use their records not only to test the cows but to prove the bulls. The improvement they have brought about in their herds is one of the outstanding 'success' stories in agriculture. No herd is so good that it cannot be made better by effective culling, good feeding, and the use of production-tested breeding stock. Breeding records and records of production, feed cost, and income are essential for carrying on such an improvement program. Membership in a dairy-herd improvement association is one of the best and most economical ways for any dairy farmer to obtain the necessary records."--Page ii.
