Designer Relationships - Mark Michaels 2015-09-08
Contemporary relationships are in a state of rapid evolution. These changes can and should empower people with the opportunity to develop partnerships based on their own sexualities, understandings, and agreements. This makes it possible to create what

Kenneth Haslam, founder of the Kinsey Institute's Polyamory Archive, has called "designer relationships." Designer relationships may encompass: people who bond emotionally but not sexually; people who agree to be non-exclusive; single people who have occasional lovers or friends with benefits; multiple partner configurations where

long-term bonds exist among all or some; partnerships in which people are kinky and that make room to explore kink. The possibilities are limitless, and thinking about a partnership as something people can craft allows for flexibility and change.

Relationships can open and close or have varying degrees and kinds of openness as circumstances demand. In the context of a designer relationship, decisions are made mutually, consciously, and deliberately. Best-selling authors and nationally known relationship experts Patricia Johnson and Mark A. Michaels are exemplars of this life choice, and have studied polyamory for over 20 years. This book explains exactly how you and your loved ones can design your own life and love.

Dual Attraction - Martin S. Weinberg 1995-06-01

For the past two generations, extensive research has been conducted on the determinants of homosexuality. But, until now, scant attention has been paid to what is perhaps the

most mysterious--and potentially illuminating--variation of human sexual expression, bisexuality. Today, as ignorance and fear of AIDS makes greater awareness of all forms of sexual behavior an urgent matter of private and public consequence, leading sex researchers Martin Weinberg, Colin Williams, and Douglas Pryor provide us with the first major study of bisexuality. Weinberg, Williams, and Pryor explore the riddle of dual attraction in their study of 800 residents of San Francisco. Fieldwork, intensive interviews, and surveys provided a wealth of data about the nature of bisexual attraction, the steps that lead people to become bisexual, and how sexual preference can change over time. They found that heterosexuals, more often than homosexuals, become bisexual; that bisexual men and women differ markedly in their sexual behavior and romantic feelings; that most bisexuals ultimately settle into long-term relationships while continuing sexual activity outside those

*Downloaded from
legacy.opendemocracy.net
on 2020-01-30 by guest*

relationships; and they also explain why transsexuals often become bisexual. Moreover, the authors discovered that as the AIDS crisis unfolded, many bisexual men entered into monogamous relationships with women, and bisexual women into more lesbian relationships. Recent media accounts attest that a growing number of researchers and writers are narrowing the fundamental cause of sexual preference to a single factor, biology. But if, as this study shows, learning plays a significant part in helping people traverse the boundaries of gender, if past and present intimate relationships influence their changing preferences, and if bisexual activity is inseparable from a social environment which provides distinctive sexual opportunities, then a mosaic of factors far more complex than those previously considered must be entertained in explaining the fuller spectrum of sexual preferences. Dual Attraction is one of the most significant contributions to our

understanding of sexuality since the original Kinsey reports and Bell and Weinberg's 1978 international bestseller, *Homosexualities*. It is must reading for all those interested in the study of sexual behavior--especially now, since the onset of AIDS. [Treating Couples](#) - Gerald R. Weeks 2013-05-24
Published in the year, 1989
Treating Couples is a valuable contribution to the field of Family Therapy.

[Sexuality in Close Relationships](#) - Kathleen McKinney 2014-05-22
This is one of the first volumes to examine the interface between research undertaken in sexuality and that in close relationships from a social psychological perspective. Experts from several different disciplines offer chapters that contain theory, extant literature, and their own original research on such topics as jealousy, extradyadic sexuality, communication, love, and sexual coercion. Aimed at a fairly wide audience, this book will be of interest to

students, faculty, and other professionals in social psychology, sociology, communication, and family and women's studies. It is also a valuable source of information for teachers, researchers, and clinicians working in the areas of human sexuality and/or close relationships.

Redefining Our Relationships -

Wendy-O Matik 2020-03

Don't let the title fool you. this IS a serious, thoughtful (and thought-provoking) comprehensive introduction to, and examination of, a much misunderstood and misused practice. But more than that, it is a witty, provocative, damn fine read, with as much to offer to the faithfully monogamous as to those looking for a bit more out of life, love and relationships. Go on. Dive in. "Wendy-O tackles a touchy subject with clarity and creativity. She is wise beyond her years. This guide teaches you how you can have it all. I gave the jealousy tips to my lover immediately." [Annie Sprinkle]

Open Marriage - Nena O'Neill

1984

The classic that revolutionized the way Americans see marriage. Sold more than 35 million copies and translated into 14 languages.

The Polyamory Workbook -

Sara Youngblood Gregory

2022-11-15

Successfully navigate nonmonogamous relationships with this practical workbook filled with activities, journal prompts, interviews, and more activities designed to make polyamory work for you and your loved ones. What makes nonmonogamy feel good? Where do we draw the line between loving, freedom-based relationships and a free-for-all? How can you make the joyful, secure polyamorous relationships you want a reality? The Polyamory Workbook not only answers these questions, but also helps you determine what you really want when it comes to your life, your relationships, and the community you build-and how to get it. Packed with helpful journal prompts, activities, and advice designed to make

polyamory work for you and your loved ones, The Polyamory Workbook draws key information from real polyamorous people and relationship experts to help you expand your emotional and relational toolbox, better preparing you for the dive into nonmonogamy. This workbook focuses on the foundational knowledge everyone interested in or already practicing polyamory should know, including: Types of nonmonogamy Communication styles Boundary setting Consent Metamours and jealousy Pitfalls and red flags Breakups And more! Whether you're new to nonmonogamy or have been practicing polyamory for a while, The Polyamory Workbook will help you identify and break away from fear-based relationships and journey toward freer, more joyful connections.

Love Voltaire Us Apart - Julia Edelman 2016-10-06

What would Kant's sexts look like? How would Jean-Paul Sartre and Simone de Beauvoir break up? What would

Confucius think of Tinder? Love Voltaire Us Apart is a hilarious spoof relationship guide with a philosophical edge, made up of philosophers' love letters, advice columns and breakup letters. From Confucius learning the Golden Rules of dating to Simone de Beauvoir considering bangs after breaking up with Jean-Paul Sartre, comedy writer Julia Edelman views the love lives of prominent philosophers through a clever and contemporary lens. She points out that Margaret Fuller is the "Carrie" of transcendentalism, and Nietzsche will always find a way to make a bad breakup infinitely worse. "Getting Meta(Physical)—Who is Your Philosopher Crush?" is the only quiz you'll need to find your soul mate, and "How To Know if Your Man is Writing a Manifesto" will show you how to avoid losing your relationship to imminent revolution. Based on Edelman's New Yorker article, "Excerpts from Philosophers' Breakup Letters Throughout History", Love Voltaire Us Apart is

Handbook of Marriage and the Family - Suzanne K.

Steinmetz 2013-11-11

The lucid, straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add. It is therefore limited to two relevant but not intrinsically related points vis-a-vis research on marriage and the family in the interval since the first Handbook (Christensen, 1964) appeared, namely: the impact on this research of the politicization of the New Right! and of the Feminist Enlightenment beginning in the mid-sixties, about the time of the first Handbook. In the late 1930s Willard Waller noted: "Fifty years or more ago about 1890, most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it. . . . Everything that

concerned the life of men and women and their children was shrouded from the light. Today much of that has been changed. Gone is the concealment of the way in which life begins, gone the irrational sanctity of the home. The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible, for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting. We are engaged in the process of reconstructing our family institutions through criticism and discussion" (1938, pp. 3-4).

A World Beyond Monogamy -

Jonathan Kent 2021-08

Skills to make every relationship better. We're living through a relationship revolution. Millions around the world are moving beyond coupledness to explore multiple consensual romantic and/or sexual connections. One in five Americans are thought to have

experimented with 'monogamish,' open relationships, swinging, polyamory, or relationship anarchy and more with the knowledge and consent of all those involved. But to make these relationships work consensually, non monogamous people have to supercharge relating skills like communication and negotiation, skills that can benefit us all, whether we love many or just one. In this ground-breaking book former BBC and Reuters journalist Jonathan Kent takes a comprehensive look at the frontiers of love and sex; the triumphs, the pitfalls, the tools one needs, the lessons we can all learn. *A World Beyond Monogamy* draws on the firsthand experience of scores of people from six continents who are writing their own relationship rules, as well as on the expertise of biologists, sociologists, psychologists, and philosophers.

The Theory of True Love -

Yaping Chen 2022-05-16

True love not only does exist

but is also found in most romantic relationships. By nature, we all need to love and to be loved during childhood and adult life. Unfortunately, key personality conflicts do not allow many people in relationships to sustain their true love toward each other. Recognizing the red- and green-light scenarios described in this book will help people identify possible (and impossible) situations caused by personality differences. Establishing the proper boundaries is also key for a romantic relationship to succeed. Defining and maintaining the proper boundaries is often a difficult process because of opposite personality differences. This book provides you with a 4-Step Method to help you develop the proper boundaries, with two sets of rules for each party to follow. This book aims to help you improve your relationships of any kind: romantic relationships, parent-child relationships, working relationships, friendships, and so on. This theory should help

Downloaded from
legacy.opendemocracy.net
on 2020-01-30 by guest

you more efficiently find the right long-term romantic partner. If you have been married for years but are not very happy with each other, applying Yaping's theory of true love might just change your life. Understanding the theory of true love can enhance your belief in true love and bring more happiness to the people in the world!

Faculty Success through Mentoring - Carole J. Bland
2009-02-16

Faculty Success through Mentoring provides practical tools for higher education leaders to implement a formal mentoring program that will lead to a vital and diverse faculty across all stages of an academic career. The authors not only describe the tangible benefits of formal mentoring programs, but they also outline the characteristics of effective mentors and mentees, and they cover other models such as group and peer mentoring.

The Handbook of Sexuality in Close Relationships - John H. Harvey 2004-04-26
Although sexuality is an

integral part of close romantic relationships, research linking these two constructs is to some extent under developed. The editors' goal is to integrate this research into one volume with the hope that the book will serve as a forum for enhancement of dialogue about the centrality of sexual issues in close relationships.

The Ethical Slut - Dossie Easton 2009

"A practical guide to practicing polyamory and open relationships in ways that are ethically and emotionally sustainable"--Provided by publisher.

Touchstones for a New Millennium - Peggy Morrison (Ph. D.) 1998

More Than Two - Franklin Veaux 2014-09-02

Can you love more than one person? Have multiple romantic partners, without jealousy or cheating?

Absolutely! Polyamorous people have been paving the way, through trial and painful error. Now there's the new book *More Than Two*: A

practical guide to ethical polyamory to help you find your own way.

Current Research on Bisexuality - Ronald Fox
2013-04-03

Current Research on Bisexuality is an important resource on recent psychological and sociological findings in bisexual studies. The authors provide research findings and case studies that add to our understanding of bisexual identity, bisexuality and relationships, bisexuality and ethnicity, and attitudes toward bisexual people. This book examines research findings, literature reviews, and a wealth of resources that currently exist on bisexuality and bisexual issues. This book will bring you up to date on: bisexual identity development bisexual in college students cross-orientation friendships of bisexual women bisexual married women and men—and their spouses bisexuality and heterosexually married couples monogamous as well as open bisexual relationships the interrelationship of bisexuality,

race, and ethnicity attitudes toward bisexual women and bisexual men Current Research on Bisexuality also contains a comprehensive reader's guide to the current social science literature about bisexuality. This bibliography brings together a wide range of nonfiction books, journal articles, book chapters, theses, and dissertations on bisexuality with a focus in the theoretical, research clinical, and community perspectives that have that have developed in the last twenty years. This reading list is essential for students, educators, researchers, and practitioners in psychology, counseling, social work, psychiatry, education, sociology, and anthropology. Current Research on Bisexuality provides new knowledge of the life experiences of bisexual people. With this book, you'll find a basis for further research and education about bisexuality in the greater context of ongoing research, education, and advocacy regarding lesbian, gay,

bisexual, and transgender issues.

The Advocate - 2005-03-29

The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine.

Established in 1967, it is the oldest continuing LGBT publication in the United States.

The Oxford Handbook of Infidelity - Tara DeLecce 2022

Psychological research has produced a rich body of empirical data documenting humanity's propensity to commit infidelity in the context of long-term relationships, but comparatively little work has been dedicated to synthesizing these data into an integrated framework that encompasses the full range of its processes, from why it occurs in the first place to how it affects the long-term relationship thereafter.

This edited handbook integrates a broad range of topics such as characteristics related to the propensity to commit infidelity, sex differences in reactions to infidelity, our inclination to dissolve relationships after

infidelity, and other responses to infidelity. It showcases contributions from experts in social psychology, evolutionary psychology, and others who specialize in research on romantic relationships. The handbook discusses the processes of infidelity alongside sources of variation, such as sexual orientation, developmental life history, individual differences, and culture. This volume captures the interdisciplinary quality of research on the predictors, nature, and consequences of infidelity for the broader social scientific community interested in trust in romantic relationships.

Fifty Years of Polyamory in America - Glen W. Olson
2022-11-11

Fifty Years of Polyamory in America is a history of multiply committed relationships, group marriage, and group living in American over the last fifty years. It is based on the personal experiences of the authors, on extensive research of the movement, and on interviews with leaders in this
