How to Find and Sustain Love Gilad James, PhD Finding and sustaining love can be challenging, but it's also one of the most rewarding experiences in life. The first step in finding love is to focus on yourself and your own happiness. This means taking care of your physical and emotional well-being, pursuing your passions and interests, and developing strong friendships and connections with others. It's important to remember that you don't have to change yourself to find love - being authentic and true to yourself is the key to attracting a compatible partner. Once you've found love, sustaining it requires ongoing effort and communication. This means being open and honest with your partner, making time for each other, and actively listening and understanding each other's needs and feelings. It's also important to maintain a sense of independence and individuality, and to continue to invest in your own growth and development. By nurturing your relationship with care and commitment, you can build a lasting and fulfilling partnership.

How to Start and Make a Conversation Christopher Gottschalk 2010 Whenever you talk to someone, you have less than ten seconds to capture their attention and another twenty to hold it to you. This window, or opening to getting to know someone is incredibly vital for every salesman, marketing exec, or manager out there who has ever had an important phone call or meeting. But, it is equally as important for the scores of individuals who feel nervous or uncomfortable talking to strangers a figure estimated by many psychological studies to be upwards of 70% of individuals. Being able to have a quick and comfortable conversation can be helpful in almost every aspect of your life, in your career, your family, and your love life. This book was written for those in the vast majority who feel nervous or unhinged the second they step into an unfamiliar conversation. In 30 seconds or less, with this book, you will be able to start and hold a conversation with nearly anyone. You will learn how to start making small talk and what is so important about being able to hold a conversation to start with. From the basic tenets of how you feel about yourself to how you assume other people see you, you will learn what conversation entails and what you can expect in one when you let down your guard and simply start talking. You will learn how to start a conversation and what people do to keep a conversation going. You will learn some basic concepts of what people are interested in talking about and how to avoid those awkward pauses through preparation. Social interaction and discussion has been discussed with leaders in business, education, and psychology and their insights have been included to help even the shyest of individuals understand what they need to know to effectively start and hold conversations with anyone regardless of their current situation. Learn how to carry the clout in a conversation and which crimes and misdemeanors you can avoid to keep from feeling embarrassed. Learn how to gracefully exit a casual conversation and finally learn how to meet new people and find conversations to start by attending or holding networking events, holiday parties, or attending the much dreaded singles scene. For anyone who has ever felt shy and uncomfortable, this book is a necessary tool for understanding and initiating conversation. The Heart Has Its Reasons Beata Toth 2016-05-26 The Heart Has Its Reasons explores a hitherto neglected area of theological anthropology: the unity of human emotion and reason embodied in the Biblical concept of the heart. While the theological contours of human rationality have long been clearly drawn and presented as the exclusive seat of the image of God, affectivity has been relegated to a secondary position. With the reintegration of the body into recent philosophical and theological discourses, a number of questions have arisen: if the image (also) resides in the body, how does this change one's view of the theological significance of human affect? In what way is our likeness to God realised in the whole of what we are? Can one overcome the traditional dissociation between intellect and affect by a renewed theory of love? In conversation with patristic and medieval authors like Irenaeus, Tertullian, Gregory of Nyssa, Maximus, and Thomas Aquinas, and in dialogue with more recent interlocutors such as Blaise Pascal, Ricoeur, Marion, Milbank, and John Paul II, Beata Toth pursues a novel theological vision of the essential unity of our humanity.

Dual-Process Theories of the Social Mind Jeffrey W. Sherman 2014-05-01 "This volume provides an authoritative synthesis of a dynamic, influential area of psychological research. Leading investigators address all aspects of dual-process theories: their core assumptions, conceptual foundations, and applications to a wide range of social phenomena. In 38 chapters, the volume addresses the pivotal role of automatic and controlled processes in attitudes and evaluation; social perception; thinking and reasoning; self-regulation; and the interplay of affect, cognition, and motivation. Current empirical and methodological developments are described. Critiques of the duality approach are explored and important questions for future research identified"--

Friendship And Love (ROMANTIC FRIENDSHIP) Abdul Rasheed Sajid 2021-03-03 Romance or Romantic love is an emotional feeling of love for, or a strong attraction towards another person, and the courtship behaviors undertaken by an individual to express those overall feelings and resultant emotions. Although the emotions and sensations of romantic love are widely associated with sexual attraction, romantic feelings can exist without expectation of physical consummation and be subsequently expressed. In certain cases, romance could even be just passed down as a normal friendship. Historically, the term romance originates with the medieval ideal of chivalry as set out in the literature of Chivalric romance.

Foundations of Interpersonal Attraction Ted L. Huston 2013-10-22 Foundations of Interpersonal Attraction is intended to provide students of interpersonal relationships with a source book that reviews, integrates, and elaborates basic material concerned with interpersonal attraction—the affectional component of social relationships. All interpersonal relationships can be characterized, in part, by the strength and nature of the affectional tie between the persons involved. The ubiquity of attraction phenomena, and the extensive data that have begun to emerge concerning its nature, antecedents, and interpersonal correlates, provided the original rationale and impetus behind the development of the book. The book contains 16 chapters organized into five parts. Part I briefly highlights the history of attraction research and lays out some central themes related to conceptualizing and researching attraction. All persons develop attachments through social interaction, but the nature and antecedents of such feelings differ depending on the age and cognitive-developmental level of the persons involved as well as on the sociocultural context in which the interaction takes place. Part II is devoted to detailing these issues. Parts III and IV consist of a series of contributions that provide conceptual frameworks for studying attraction. Part V is devoted to romantic attraction.

Sexual Identity: The Harmony of Philosophy, Science, and Revelation John D. Finley, PhD 2022-07-01 Have “man” and “woman” become meaningless categories? Public promotion of transgender identities, same-sex marriage, and surrogate parenthood indicate that we no longer view male and female as central to human flourishing. Perhaps man and woman amount to nothing more than one's own self-expression. Many intuitively resist such a view, but feel unable to respond in light of “woke” rhetoric from media-driven voices carrying the apparent blessings of science. We need to recall who and what we are. *Sexual Identity: The Harmony of Philosophy, Science, and Revelation* takes up anew the questions “What is a man?” and “What is a woman?” Taking a holistic approach, the book is co-authored by experts from different fields: philosophy, obstetrics and gynecology, endocrinology, psychology, plastic surgery, and theology. For the sake of accessibility, the style is thoughtful but not academic. Each chapter includes review points along with suggestions for further reading. The authors include recognized practitioners in their fields who have spoken nationally and internationally to audiences concerned with today's crisis over the meaning of sexuality. *Sexual Identity* assembles these voices into a coherent whole. Written by experts for non-specialists, it offers a comprehensive vision of the human sexual identity, male and female. It offers much-needed wisdom to see through the deceptions that afflict our time. Contributors: Cara Buskmiller, MD John D. Finley, PhD Paul W. Hruz, MD, PhD Patrick W. Lappert, MD Andrew Sodergren, PsyD Lawrence J. Welch, PhD
