Madness in Twentieth-century French Women's Writing Suzanne Dow 2009 This book offers a discussion of the trope of madness in twentieth-century French women's writing, focusing on close readings of the following texts: Violette Leduc's *L'Asphyxie* (1946), Marguerite Duras's *Le Ravissement de Lol V. Stein* (1964), Simone de Beauvoir's *'La Femme rompue'* (1967), Marie Cardinal's *Les Mots pour le dire* (1975), Jeanne Hyvrard's *Les Prunes de Cythère* (1975) and *Mère la mort* (1976). The discussion traces the evolution in the way madness is taken up by women authors from the key period starting just prior to the emergence of second-wave feminism and culminating at the height of the *écriture féminine* project. This study argues that madness offers itself up to these authors as a powerful means to convey a certain ambivalence towards changing contemporary ideas on the authority of authorship. On the one hand a highly enabling means to figure transgression, the madwoman is equally the repository for a twentieth-century 'anxiety of authorship' on the part of the woman writer.

The Guyde Howie Reith 2016-11-19 *The Guyde* is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. *The Guyde* is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of *The Guyde* deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn

how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

Burn It Down Lilly Dancyger 2019-10-08 A rich, nuanced exploration of women's anger from a diverse group of writers Women are furious, and we're not keeping it to ourselves any longer. We're expected to be composed and compliant, but in a world that would strip us of our rights, disparage our contributions, and deny us a seat at the table of authority, we're no longer willing to quietly seethe behind tight smiles. We're ready to burn it all down. In this ferocious collection of essays, twenty-two writers explore how anger has shaped their lives: author of the New York Times bestseller *The Empathy Exams* Leslie Jamison confesses that she used to insist she wasn't angry -- until she learned that she was; Melissa Febos, author of the Lambda Literary Award-winning memoir *Abandon Me*, writes about how she discovered that anger can be an instrument of power; editor-in-chief of *Bitch Media* Evette Dionne dismantles the "angry Black woman" stereotype; and more. Broad-ranging and cathartic, *Burn It Down* is essential reading for any woman who has scorched with rage -- and is ready to claim her right to express it.

Good and Mad Rebecca Traister 2019-09-03 Journalist Rebecca Traister's New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is "a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively" (*Vanity Fair*). Long before *Pantsuit Nation*, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women's slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men. "Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals" (*The Washington Post*). In *Good and Mad*, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women's anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who's expressing it; and the way women's collective fury has become transformative political fuel. She deconstructs society's (and the media's) condemnation of female emotion (especially rage) and the impact of their resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, *Good and Mad* is "perfectly timed and inspiring" (*People*, *Book of the Week*). This "admirably rousing narrative" (*The Atlantic*) offers a glimpse into the galvanizing force of women's collective anger, which, when harnessed, can change history.

Attached Amir Levine 2012-01-05 "Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

Ten Days in a Mad-House (EasyRead Super Large 18pt Edition) Nellie Bly 2007

Making Love Modern Nina Miller 1999-01-21 In the teens and twenties, New York was home to a rich variety of literary subcultures. Within these intermingled worlds, gender lines and other boundaries were crossed in ways that were hardly imaginable in previous decades. Among the bohemians of Greenwich Village, the sophisticates of the Algonquin Round Table, and the literati of the Harlem Renaissance, certain women found fresh, powerful voices through which to speak and write. Enda St. Vincent Millay and Dorothy Parker are now best remembered for their colorful lives; Genevieve Taggard, Gwendolyn Bennett, and Helene Johnson are hardly remembered at all. Yet each made a serious literary contribution to the meaning of modern femininity, relationship, and selfhood. *Making Love Modern* uncovers the deep historical sensitivity and interest in these women's love poetry. Placing their work in the context of subcultures nested within national culture, Nina Miller explores the tensions that make this literature so rewarding for contemporary readers. A poetry of intimate expression, it also functioned powerfully as public assertion. The writers themselves were high-profile embodiments of femininity, the local representatives of New Womanhood within their male-centered subcultural worlds. This book captures the literary lives of these woman as well as the complex subcultures they inhabited--Harlem, the Village, and glamorous midtown Manhattan.

Women Editing/Editing Women Chanita Goodblatt 2009-01-14 This collection of essays links current research in the writings and editing of early modern women and in those women who were themselves early editors with a new methodology of editing currently titled "the new textualism." As such, the collection seeks to solve two problems. The first concerns the difficulty of editing the works of early modern women writers for whom there is little biographical data, a challenging task when the standard "life and works" format is thus inhibited. Second, related but slightly different, occurs because, although we know that there were women who edited in the early modern and even later periods, we know little about them as well. The new textualism approach to editing, which focuses on the material properties of the manuscript or book, its print or performance history and records of its dissemination, and the sociology of texts, provides a fruitful solution to both problems by broadening the concept of agency and hence provides a richer context for the production of a given text. The collection includes two sets of essays. One set has been reprinted from seminal works in the field of new textualism. These include writings by recognized figures like Jerome McGann, Leah Marcus, and Wendy Wall, among others. As such, that set provides background for the reading of the second, a group of six original essays by scholars now working in the field of early modern women writers who directly apply aspects of the new textualism in their research. The fusion of the research field of retrieving early modern women writers with the practices of new textualist editing is thus the core of this collection of essays and is illustrative of what can be achieved in the field of editing when this new approach to texts is put into practice.

Still Mad: American Women Writers and the Feminist Imagination Sandra M. Gilbert 2021-08-17 A brilliant, sweeping history of the contemporary women's movement told through the lives and works of the literary women who shaped it. Forty years after their first groundbreaking work of feminist literary theory, *The Madwoman in the Attic*, award-winning collaborators Sandra M. Gilbert and Susan Gubar map the literary history of feminism's second wave. From its stirrings in the midcentury—when Sylvia Plath, Betty Friedan, and Joan Didion found their voices and

Diane di Prima, Lorraine Hansberry, and Audre Lorde discovered community in rebellion—to a resurgence in the new millennium in the writings of Alison Bechdel, Claudia Rankine, and N. K. Jemisin, Gilbert and Gubar trace the evolution of feminist literature. They offer lucid, compassionate, and piercing readings of major works by these writers and others, including Adrienne Rich, Ursula K. Le Guin, Maxine Hong Kingston, Susan Sontag, Gloria Anzaldúa, and Toni Morrison. Activists and theorists like Nina Simone, Gloria Steinem, Andrea Dworkin, Eve Kosofsky Sedgwick, and Judith Butler also populate these pages as Gilbert and Gubar examine the overlapping terrain of literature and politics in a comprehensive portrait of an expanding movement. As Gilbert and Gubar chart feminist gains—including creative new forms of protests and changing attitudes toward gender and sexuality—they show how the legacies of second wave feminists, and the misogynistic culture they fought, extend to the present. In doing so, they celebrate the diversity and urgency of women who have turned passionate rage into powerful writing.

However, this is the least of her problems. As she struggles to find her place in hip West Asheville, E. finds herself obsessed with two things: poetry and electrocution. So much obsessed, in fact, that E. stumbles into Doctor Id's Center for Poetic Dislocation and Disentanglement, where a sexy-but-elusive psychiatrist attempts to rid E. of her Poetry Problem and usher her into the Prosaic Priority, an electroconvulsive-based program designed to help writers benefit monetarily and emotionally from their progress. Central to E.'s journey is Alexx, Doctor Id's assistant who loves the 1990s and often disappears into clouds of fairy glitter, leaving E. and the reader to wonder just what—if anything—happened at all.

How many discover that anger turned inward is depression? Soraya Chemaly's *Rage Becomes Her* will be good for women. After all, women have a lot to be angry about.' GLORIA STEINEM Women are angry, and it isn't hard to figure out why. We are underpaid, overworked, thwarted and diminished. The assertive among us are labelled bitches, while the expressive among us are considered shrill. We are told to stand down when we have an opinion and to calm down when we are fired up. And when we somehow manage to put one high heel-battered foot in front of the other despite all of this, we're asked if it would kill us to smile. We are mad as hell, and that's completely okay. Because contrary to the endless barrage of self-help rhetoric about anger management and letting go, the reality is that our rage is the most important resource we have as women, a force for creation rather than destruction, our sharpest tool against both personal and political oppression. Anger is not what gets in our way, it is our way. All we need to do is own it. This is a pitch perfect, engaging, and accessible credo written by one of today's most influential feminists. Analysing female anger as it relates to topics like self-worth, objectification, pain, care, fear, silence, and denial, Soraya illuminates how and why we repress our anger, revealing the harm that this causes, and helping us recognise the liberating power of owning our anger and marshalling it as a vital tool for positive change. Just as Quiet brought about a new embrace of introversion, *Rage Becomes Her* will bring about an embrace of feminine anger that will leave women feeling liberated, inspired and connected to an entire universe of women who are no longer interested in making nice.

LEARN THE SECRETS OF THE MALE MIND TO FIND THE MAN YOU WANT AND THE LOVE YOU DESERVE...

What Women Want When They Test Men Bruce Bryans 2015-08-13 Discover What Women Want in a Man and How They Secretly Test You For it if you pay close enough attention to what really attracts women, you'll find that what women want is a man with a backbone. Women want to be with a man who knows how to take the lead and make decisions; one who has strong personal boundaries and knows how to love her like...a man. Unfortunately, a lot of men have difficulty accepting the truth that many women prefer to be with a man who isn't afraid to stand up to them, who challenges them, and who refuses to be pushed around by women (or anything else for that matter). This is especially true of women who seek a more traditional male-female gender role dynamic in their romantic relationships. Even if a man knows how to attract women, cultivating a mind-blowing relationship with one requires a different set of skills entirely. Women want men who can make them feel secure - men with strong boundaries and unwavering commitment. Sadly, most dating and relationship books rarely show men how to keep a woman happy without them having to sacrifice their manhood in the process. How to Understand Women and Pass Their Tests With Unshakeable Confidence Men around the world have no idea that the women they know and love are testing them. These men go about their lives interacting with the opposite sex in absolute

darkness, ignorant to the fact that they're being judged, appraised, approved, and rejected based on their subconscious reactions to female testing. If you had no idea that women test men and why they have to, you're about to take a journey onto a road less traveled - the more mysterious side of female psychology and how women think. Attract Women Through Authenticity and Be the Strong Man a Woman Wants For a Relationship It's important for a man to learn how to walk that thin line between caring, thoughtful lover and firm, assertive leader. The man who masters the art of being the perfect gentleman and a strong alpha male is the ideal specimen to a high-quality woman. This is what you're going to learn in this book. So if you're dating or in a relationship and women constantly create drama, lose interest in you, or manipulate you, it's time you finally got some advice from one of the only relationship books for men that won't turn you into a doormat. Here's what you're going to learn inside: How to be radically honest with a woman and why this makes her MORE attracted to you. The reason why women test men CONSISTENTLY and how to use this knowledge to deepen a woman's desire. (Hint: This is the key to female psychology and how women think.) How to be confident with difficult women. What women want in a man and how to give it to them. How to make a woman happy without becoming a complete doormat of a man. How to seduce your wife and get her in the mood by responding like a MAN whenever she "pokes the bear." How to be firm and say "No" to the woman you love without destroying intimacy. How to keep a woman interested in you by doing the ONE thing MOST men are deathly afraid of doing. How to avoid unnecessary arguments, fights, and drama with a woman by using a simple communication technique. The best way to secretly test a woman's level of romantic interest in you (as well as her emotional maturity) before making a long-term commitment. How to stop living in fear of what a woman might think, say, or do if she disagrees with or disapproves of you in any way. And much, much more... Would You Like to Know More? Get started right away and learn how to become the attractive man that has zero difficulty keeping a woman's respect, desire, and unwavering support. How to Text a Girl Chase Amante 2016 "One of the world's most vaunted dating experts shows you what to text, when to text it, and why... So you can get the dates and girlfriends you deserve..." --

Metamorphosis and Place Mohamed Bakari 2009-05-27 If personal and national identity is often constructed in terms of place, how do our identities and values change as places themselves are transformed? What happens to the spaces in which we live as societal values and identities change? These questions can be asked of almost any discipline, whether one is taking a photograph or mapping a literary topography, tracing linguistic change in a geographic region or language's importance to our conception of a political territory, building a house or place of worship on a physical plot of land, or constructing them from words on a page or computer software. Few places are ever uniquely our own. We share them, knowing that the geographic points stabilizing our own identities serve, on their reverse side, to support an entirely different set of meanings. We project our cultural (or disciplinary) markers onto landscapes which are already hardly blank, but full of others' meanings. This collection brings together scholars from a range of disciplines including literary and cultural studies, history, political science, architecture, anthropology, photography and art history, communications, sociology, lexicography, linguistics, tourism management and theoretical psychoanalysis, each shedding light on how place is both a transforming subject and a transformed object.
