Rethinking School Spaces for Transgender, Non-binary, and Gender Diverse Youth Jennifer Ingrey 2023-06-21 Positioning the washroom as an onto-epistemological site which exemplifies the way in which school spaces govern how gender is experienced, normalized, and understood by youth, this text illustrates how current school policies and practices around bathrooms fail to dismantle cisnormativity and recognize trans lives. Drawing on media-policy analysis, empirical study, and arts-based methodologies, it demonstrates how school spaces must be re-thought via a trans-centred epistemology, to be reflected in teacher education, policy, and curricula. Beginning with a review of the theoretical constellation of the heterotopia and critical trans-ing informing the analysis of data, it moves to offer a critical media and policy analysis of how trans and gender-diverse students are delimited, erased, or harmed. This position is supported by analysis of empirical data from a school bathroom project, including student photographs of washrooms, and other visual expressions of gender-diverse and gender-complex individuals. These elements—the media-policy analysis, the empirical study, and the archival online material—ultimately combine to offer new justifications for critical trans-informed policies and practices in education that recognize and centre trans and gender-diverse knowledges, expressions, and experiences. Centring the specific and nuanced debates around trans phenomena via an innovative methodology, it makes a unique and extremely timely contribution to the debate on gender-inclusive bathrooms, as well as trans rights to self-identification. As such, it will appeal to scholars, postgraduates, educators, and faculty working in the area of gender and sexuality in education, with interests in trans phenomena.

Trans Representations in Contemporary, Popular Cinema Niall Richardson 2022-08-23 This book analyses how contemporary genre cinema represents trans-identified characters. Informed by key debates within transfeminism, queer theory, contemporary trans studies - and engaging with the concerns voiced by gender critical feminism - this culturally oriented book critiques the representation of trans characters in a range of cinematic genres, including the musical, period costume drama, the road movie, melodrama, coming-of-age stories, and romances. The case studies address the ways in which trans identifications have been coded within the narrative and stylistic expectations of the genres. Are genre films successful in affirming trans identifications or do they reinforce trans stereotypes and anti-trans discourses? This is a timely and accessible book, which addresses Anglophonic, European and Latin American cinemas, and is ideal for students studying courses in Film Studies, Media Studies, Cultural Studies or Gender Studies.

Critical Social Work Praxis Sobia Shaheen Shaikh 2022-03-31T00:00:00Z What we think must inform what we do, argue the editors and authors of this cutting-edge social work textbook. In this innovative, expansive and wide-ranging collection, leading social work thinkers engage with social work traditions to bridge social work theory and practice and arrive at social work praxis: a uniting of critical thought and ethical action. *Critical Social Work Praxis* is organized into sixteen sections, each reflecting a critical social work tradition or approach. Each section has a theory chapter, which succinctly outlines the tradition's main concepts or tenets, a praxis chapter, which shows how the theory informs social work practice, and a commentary chapter, which provides a critical analysis of the tensions and difficulties of the approach. The text helps students understand how to extend theory into praxis and gives instructors critical new tools and discussion ideas. This book is the

result of decades of experience teaching social work theory and praxis and is a comprehensive teaching and learning tool for the critical social work classroom.

LGBTQ People and Social Work Brian J. By focusing on intersectionality and its application to social work practice, organizational change, and the pursuit of social justice, this text gives voice to previously silenced members of the LGBTQ community. The contributors of this important collection deepen insight into the diversity of identities within LGBTQ communities and provide many thoughtful recommendations to inform future social work pedagogy, agency policy, and forms of practice in diverse contexts and fields of service. Diversity and Multiculturalism Shirley R. Steinberg 2009 This reader demands that we understand diversity and multiculturalism by identifying the ways in which curriculum has been written and taught, and by redefining the field with an equitable lens, freeing it from the dominant cultural curriculum. The book problematizes the issue of whiteness, for instance, as not being the opposite of blackness or «person-of-colorness», but rather a meta-description for our dominant culture. Issues are also addressed that are usually left out of the discussion about diversity and multiculturalism: this reader includes essays on physical diversity, geographic diversity, and difference in sexualities. This is the quintessential collection of work by critical scholars committed to redefining the conversation on multiculturalism and diversity.

The Oxford Handbook of Queer Cinema Ronald Gregg 2021 "Queer media is not one thing but an ensemble of at least four moving variables: history, gender and sexuality, geography, and medium. While many scholars would pinpoint the early 1990s as marking the emergence of a cinematic movement (dubbed by B. Ruby Rich, the "new queer cinema") in the United States, films and television programs that clearly spoke to LGBTQ themes and viewers existed at many different historical moments and in many different forms. Cross-dressing, same-sex attraction, comedic drag performance: at some points, for example in 1950s television, these were not undercurrents but very prominent aspects of mainstream cultural production. Addressing "history" not as dots on a progressive spectrum but as a uneven story of struggle, writers on queer cinema in this volume stress how that queer cinema did not appear miraculously at one moment but describes currents throughout the century-long history of the medium. Likewise, while queer is an Anglophone term that has been widely circulated, it by no means names a unified or complete spectrum of sexuality and gender identity, just as the LGBTQ+ alphabet soup struggles to contain the distinctive histories, politics, and cultural productions of trans artists and genderqueer practices. Across the globe, media makers have interrogated identity and desire through the medium of cinema through rubrics that sometimes vigorously oppose the Western embrace of the pejorative term queer, instead foregrounding indigenous genders and sexualities, or those forged in the global South, or those seeking alternative epistemologies. Finally, while "cinema" is in our title, many scholars in this collection see that term as an encompassing one, referencing cinema and media in a convergent digital environment. The lively and dynamic conversations introduced here aspire to sustain further reflection as "queer cinema" shifts into new configurations"--

Defiant Bodies Nikoli A. Attai 2023-07-14 In the Anglophone Caribbean, international queer human rights activists strategically located within and outside of the region have dominated interventions seeking to address issues affecting people across the region; a trend that is premised on an idea that the Caribbean is extremely homophobic and transphobic, resulting in violence and death for people who defy dominant sexual and gender boundaries. Human rights activists continue to utilize international financial and political resources to influence these interventions and the region's engagement on issues of homophobia, transphobia, discrimination, and the HIV/AIDS epidemic. This

focus, however, elides the deeply complex nature of queerness across different spaces and places, and fails to fully account for the nuances of queer sexual and gender politics and community making across the Caribbean. *Defiant Bodies: Making Queer Community in the Anglophone Caribbean* problematizes the neocolonial and homoimperial nature of queer human rights activism in four Anglophone Caribbean nations -- Barbados, Guyana, Jamaica, and Trinidad and Tobago -- and thinks critically about the limits of human rights as a tool for seeking queer liberation. It also offers critical insight into the ways that queer people negotiate, resist, and disrupt homophobia, transphobia, and discrimination by mobilizing "on the ground" and creating transgressive communities within the region.

Sport, Identity and Inclusion in Europe Ilse Hartmann-Tews 2022-05-30 This book explores and critically assesses the challenges and experiences of LGBTQ people within sport in Europe. It presents cutting-edge research data and insights from across the continent, with a focus on sport policy, sport systems, and issues around anti-discrimination and inclusion. The book introduces the theoretical and methodological foundations of research into LGBTQ people in sport and then presents in-depth comparative surveys of systems and experiences in Austria, Belgium, France, Germany, Hungary, Italy, the UK, and Spain. A final section considers the effectiveness of policy in this area and motives for participation, and looks ahead at future directions in research, policy, and practice. Tracing the frontiers of our understanding of the experiences of LGBTQ people in contemporary Europe, this is fascinating reading for anybody with an interest in the sociology of sport, sport policy, LGBTQI studies, gender and sexuality studies, or cultural studies. Thinking Differently about HIV/AIDS Eric Mykhalovskiy 2020-01-15 Almost four decades after the scientific discovery of HIV/AIDS, the world continues to grapple with this public health challenge. A successful response requires thinking differently about the epidemic, but what type of thinking can facilitate change? *Thinking Differently about HIV/AIDS* explores the limits of mainstream approaches to the HIV/AIDS epidemic and challenges us to develop alternate solutions, placing particular emphasis on the value of critical social science perspectives. The contributors investigate traditions of inquiry - governmentality studies, institutional ethnography, Indigenous knowledges, conversation analysis, actor-network theory, critical ethnography, and others - to determine what these perspectives can bring to HIV/AIDS research, policy, and prevention programming. Engaging with various knowledge frameworks, they examine the role of treatment in the public health response to HIV, the criminalization of HIV, epidemiological and media constructions of the epidemic, HIV non-disclosure, treatment adherence, and other topics. *Thinking Differently about HIV/AIDS* is the first Canadian anthology of critical social science perspectives on HIV/AIDS, demonstrating how and why critical social science is necessary for rethinking research and action required to address the epidemic.

Not Drowning But Waving Susan Brown 2011-08-15 "Not Drowning but Waving...gestures both at the difficulties faced by feminists in the humanities in Canada and at the possibilities of hope, of new 'waves' of feminism." Twenty-two essays explore topics such as feminism in the liberal arts disciplines; the relationship of the liberal arts to the larger university; the costs and rewards for women in administration; the corporatization of university campuses; intergenerational and transcultural tensions within feminist communities; balancing personal life with professional aspirations; the relationship of feminism to cultural studies; women, social justice, and the liberal arts. *Not Drowning But Waving* is a welcome progress report on the variety of feminisms at work in academe and beyond. It provides crucial insights for university administrators, faculty, and literate non-specialists interested in the Arts and Humanities.

Queer Mobilizations Scott Barclay 2009-09-01 Fighting for marriage and family rights; protection from discrimination in employment, education, and housing; criminal law reform; economic justice; and health care reform: the LGBT movement is engaged in some of the most important cultural and political battles of our times. Seeking to reshape many of our basic social institutions, the LGBT

movement's legal, political, and cultural campaigns reflect the complex visions, strategies, and rhetoric of the individuals and groups knocking at the law's door. The original essays in this volume bring social movement scholarship and legal analysis together, enriching our understanding of social movements, LGBT politics and organizing, legal studies, and public policy. Moreover, they highlight the struggle to make the law relevant and responsive to the LGBT community. Ultimately, *Queer Mobilizations* examines how the LGBT movement's engagement with the law shapes the very meanings of sexuality, sex, gender, privacy, discrimination, and family in law and society.

The Cambridge Companion to Twenty-First Century American Fiction Joshua Miller 2021-09-23 Reading lists, course syllabi, and prizes include the phrase '21st-century American literature,' but no critical consensus exists regarding when the period began, which works typify it, how to conceptualize its aesthetic priorities, and where its geographical boundaries lie. Considerable criticism has been published on this extraordinary era, but little programmatic analysis has assessed comprehensively the literary and critical/theoretical output to help readers navigate the labyrinth of critical pathways. In addition to ensuring broad coverage of many essential texts, *The Cambridge Companion to 21st Century American Fiction* offers state-of-the-field analyses of contemporary narrative studies that set the terms of current and future research and teaching. Individual chapters illuminate critical engagements with emergent genres and concepts, including flash fiction, speculative fiction, digital fiction, alternative temporalities, Afro-futurism, ecocriticism, transgender/queer studies, anti-carceral fiction, precarity, and post-9/11 fiction.

Nos/Otras Andrea J. Pitts 2021-08-01 In a refreshingly novel approach to the writings of Gloria E. Anzaldúa (1942-2004), Andrea J. Pitts addresses issues relevant to contemporary debates within feminist theory and critical race studies. Pitts explores how Anzaldúa addressed, directly and indirectly, a number of complicated problems regarding agency in her writings, including questions of disability justice, trans theorizing, Indigenous sovereignty, and indentarian politics. Anzaldúa's conception of what Pitts describes as multiplicitous agency serves as a key conceptual link between these questions in her work, including how discussions of agency surfaced in Anzaldúa's late writings of the 1990s and early 2000s. Not shying away from Anzaldúa's own complex and sometimes problematic framings of disability, mestizaje, and Indigeneity, Pitts draws from several strands of contemporary Chicana, Latinx, and African American philosophy to examine how Anzaldúa's work builds pathways toward networks of solidarity and communities of resistance.

Sex Change, Social Change Viviane Namaste 2011 *Sex Change, Social Change: Reflections on Identity, Institutions, and Imperialism* provides readers with an authoritative introduction to contemporary transsexual politics in Canadian and Québécois contexts. Through different case studies relating to the law, human rights, health care, and prostitution, Dr. Namaste exposes readers to the complex issues involved in how transsexual politics and feminism interrelate. Written in accessible language, and including interviews, essays, and political speeches, *Sex Change, Social Change* will appeal to academics and to activists in the community, as well as to the general reader. The second edition has been thoroughly updated with five new chapters and includes new commentary on the readings from the first edition. All royalties from the sale of this book go to PASAN (Prisoners' HIV/AIDS Support Action Network), in particular their emergency fund that provides modest amounts of money to prisoners upon their release. These funds enable people to secure housing, go to a job interview, and/or replace their identity documents.

Sexual Orientation and Transgender Issues in Organizations Thomas Köllen 2016-04-25 Over the last decade workforce diversity has attracted much scientific attention. Given the shortage of literature on issues related to homosexual, bisexual and transgender employees, compared to other facets of workforce diversity, this book opens up new perspectives on this issue. Emphasis is placed on the equal consideration of gay, lesbian, bisexual, and transgender issues. Thus the predominance of

lesbian and gay issues in LGBT research (and practice), will be contrasted by an explicit consideration of the unique experiences, stressors and related needs of bisexual and transgender employees. Contributions provide deeper insights into the differing experiences the whole spectrum of LGBT employees make in the workplace in different national and occupational contexts. Furthermore, the collection offers contextualized insights for evaluating and conceptualizing organizational initiatives aiming at a higher level of inclusion for LGBT employees.

You've Changed Lyn Merryfeather 2016-07-15 Lesbian women who partner with female-to-male transsexuals (FTMs) are all but invisible in the literature. They have been scarcely depicted in published work, very few research studies have considered them an interesting population, and there are few support organizations dedicated to their aid. My work is about these women. I conducted research and wrote an evocative novella as a way to convey my findings. The main theme is the challenge of invisibility and marginalization experienced by lesbian women who find themselves partnered with trans men and must decide how to navigate a new identity while living with a mate who is experiencing the biggest life change possible and often has little energy left to support her. A secondary theme is the depiction of the experience of conducting such research in a cautious academic climate. The outstanding difference, other than the rarity of the subject matter, is the readability of the work. I used autoethnography as a methodology and wrote in an engaging way, using poetry, narration, and imaginative fictionalized accounts of true experiences.

The History of Trans Representation in American Television and Film Genres Traci B. Abbott 2022-05-02 Due to the increase in transgender characters in scripted television and film in the 2010s, trans visibility has been presented as a relatively new phenomenon that has positively shifted the cis society's acceptance of the trans community. This book counters this claim to assert that such representations actually present limited and harmful characterizations, as they have for decades. To do so, this book analyzes transgender narratives in scripted visual media from the 1960s to 2010s across a variety of genres, including independent and mainstream films and television dramatic series and sitcoms, judging not the veracity of such representations per se but dissecting their transphobia as a constant despite relevant shifts that have improved their veracity and variety. Already ingrained with their own ideological expectations, genres shift the framing of the trans character, particularly the relevance of their gender difference for cisgender characters and society. The popularity of trans characters within certain genres also provides a historical lineage that is examined against the progression of transgender rights activism and corresponding transphobic falsehoods, concluding that this popular medium continues to offer a limited and narrow conception of gender, the variability of the transgender experience, and the range of transgender identities.

Policy Change, Courts, and the Canadian Constitution Emmett Macfarlane 2018-01-01 Policy Change, Courts, and the Canadian Constitution aims to further our understanding of judicial policy impact and the role of the courts in shaping policy change. Bringing together a group of political scientists and legal scholars, this volume delves into a diverse set of policy areas, including health care issues, the regulation of elections, criminal justice policy, minority language education, citizenship, refugee policy, human rights legislation, and Indigenous policy. While much of the public law and judicial politics literatures focus on the impact of the constitution and the judicial role, scholarship on courts that makes policy change its central lens of analysis is surprisingly rare. Multidisciplinary in its approach to examining policy issues, this book focuses on specific cases or policy issues through a wide-ranging set of approaches, including the use of interview data, policy analysis, historical and interpretive analysis, and jurisprudential analysis.

You've Changed Laurie J. Shrage 2009-08-18 Is sex identity a feature of one's mind or body, and is it a relational or intrinsic property? Who is in the best position to know a person's sex, do we each have a true sex, and is a person's sex an alterable characteristic? When a person's sex assignment changes, has the old self disappeared and a new one emerged; or, has only the public presentation of one's self changed? "You've Changed" examines the philosophical questions raised by the phenomenon of sex reassignment, and brings together the essays of scholars known for their work in gender, sexuality, queer, and disability studies, feminist epistemology and science studies, and philosophical accounts of personal identity. An interdisciplinary contribution to the emerging field of transgender studies, it will be of interest to students and scholars in a number of disciplines.

An Integrative Analysis Approach to Diversity in the College Classroom Matthew Ouellett 2011 "This volume provides an interdisciplinary forum for educational developers and college and university instructors to describe new frameworks and pedagogical strategies for understanding how a range of aspects of social identity (e.g., race, ethnicity, gender, class, sexual orientation, abilities, religion, etc.) interact in complex and important ways to shape student learning and instructor preparation for creating and sustaining multiculturally inclusive classrooms."--Catherine M. Wehlburg.

Trans Activism in Canada Dan Irving 2014-05-05 Centring the voices and experiences of trans identified people as experts on their own lives and agents of change, *Trans Activism in Canada* opens up a dialogue between scholars and community members in an effort to improve the lives of sex and gender variant people. The first of its kind, this anthology brings together activists and allies to examine the various strategies and forms of resistance needed to transform oppression into opportunity for change. Reflecting upon the challenges trans communities face and offering insight into achieving institutional reform, the themes addressed range from poverty and isolation to health care and best practices. Using personal narratives, archival material, and qualitative research, as well as case- and community-based research, this text demonstrates the leading role of trans and two-spirit activists in generating social change. By drawing on feminist, anti-racist, and social justice frameworks, the contributors approach oppression and activism as inseparable from hetero-patriarchal, colonialist, and capitalist power relations. Written for trans activists, scholars, and allies, *Trans Activism in Canada* is poised to enrich transgender theorizing by focusing on concrete experiences and practical knowledge gained from the everyday lives of trans people.

Keywords for Radicals Kelly Fritsch 2016-04-11 "An extraordinary volume that provides nothing less than a detailed cognitive mapping of the terrain for everyone who wants to engage in radical politics."—Slavoj Žižek, author of *Living in the End Times* "Keywords for Radicals recognizes that language is both a weapon and terrain of struggle, and that all of us committed to changing our social and material reality, to making a world justice-rich and oppression-free, cannot drop words such as 'democracy,' 'occupation,' 'colonialism,' 'race,' 'sovereignty,' or 'love' without a fight. —Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination* "From its thought-provoking Introduction through its energizing accounts of the tensions underlying our most prized concepts, *Keywords for Radicals* will be indispensable to any scholar or activist who is serious about critique and change."—Stephen Duncombe, editor of *Cultural Resistance Reader* "A primer for a new era of political protest." —Jack Halberstam, author of *Female Masculinity* "This keywords upgrade puts powerful weapons into revolutionaries' hands. Unexpected entries expand into new terrain.... Indispensable." —Jodi Dean, author of *The Communist Horizon* In *Keywords* (1976), Raymond Williams devised a "vocabulary" that reflected the vast social transformations of the post-war period. He revealed how these transformations could be grasped by investigating changes in word usage and meaning. *Keywords for Radicals*—part homage, part development—asks: What vocabulary might illuminate the social transformations marking our own contested present? How do these words define the imaginary of today's radical left? With insights from dozens of scholars and troublemakers, *Keywords for Radicals* explores the words that shape our political landscape. Each entry highlights a term's contested variations, traces its evolving usage, and speculates about what its historical mutations can tell us. More than a glossary, this is a crucial study of the power of language and the social contradictions hidden within it. Contributors include Patrick Bond, Silvia Federici, John Bellamy Foster, Joy James, Ilan Pappé, Justin Podur, Nina Power, Mab Segrest, and over forty others. Kelly Fritsch is a Banting Postdoctoral Fellow in Women's and Gender Studies at the University of Toronto. Identity/Difference Politics Rita Dhamoon 2010-01-01 Theories of liberal multiculturalism have come to dominate debates about identity and difference politics in contemporary western political theory. *Identity/Difference Politics* offers a nuanced critique of these debates by switching the focus from culture to power. Issues of power are examined through accounts of meaning-making - those processes through which meanings of difference are produced, organized, and regulated. Other forms of identity/difference such as whiteness, ableism, gender, and heteronormativity establish the analytic and normative value of Dhamoon's alternative theoretical framework, and reveal that an exclusive preoccupation with culture can dissolve into essentialism - which too often provides a rationale for state regulation of groups deemed to be too different.

The book covers a broad range of groups both with regard to time and place, covering Paganism, Hindu guru groups, Christian organizations, esoteric/mystical movements, African churches, and a Japanese NRM. The common focal point is the powerful, prophetic, charismatic women who have founded and/ or led New Religious Movements.

Transgender Migrations Trystan Cotten 2012-05-23 Transgender Migrations brings together a top-notch collection of emerging and established scholars to examine the way that the term "migration" can be used not only to look at the way trans bodies migrate from one gender to the (an?) other, but the way that trans people migrate in the larger geopolitical contexts of immigration reform, the war on terror, the war on drugs, and the increased policing of national borders. The book centers trans-ing experiences, identities, and politics, and treats these identities as inextricably intertwined with other social identities, institutions, and discourses of sexuality, nationality, race and ethnicity, globalization, colonialism, and terrorism. The chapter authors explore not only the movement of bodies in, through, and across spaces and borders, but also chart the metamorphoses of these bodies in relation to migration and mobility. Transgender Migrations takes the theory documented in The Transgender Studies Reader and blows it up to a global scale. It is the logical next step for scholarship in this dynamic, emerging field.

Debates in Transgender, Queer, and Feminist Theory Patricia Elliot 2016-05-13 Transgender studies is a heterogeneous site of debate that is marked by tensions, border wars, and rifts both within the field and among feminist and queer theorists. Intersecting the domains of women's studies, sexuality, gender and transgender studies, Debates in Transgender, Queer, and Feminist Theory provides a critical analysis of key texts and theories, engaging in a dialogue with prominent theorists of transgendered identity, embodiment and sexual politics, and intervening in various aspects of a conceptually and politically difficult terrain. A central concern is the question of whether the theories and practices needed to foster and secure the lives of transsexuals and transgendered persons will be promoted or undermined - a concern that raises broader social, political, and ethical questions surrounding assumptions about gender, sexuality, and sexual difference; perceptions of transgendered embodiments and identities; and conceptions of divergent desires, goals and visions.

The Man Who Invented Gender Professor Department of English Terry Goldie 2014-01-01 A controversial figure, innovative scholar, and ardent advocate for sexual liberation, sexologist John Money opened a new field of research in sexual science and gave currency to medical ideas about human sexuality. This book offers, for the first time, a balanced and probing textual analysis of this pioneering scholar's writing to assess Money's profound impact on the debates and research on sexuality and gender that dominated the last half of the twentieth century. The author recovers Money's brilliance and insight from simplistic dismissals of his work due to his involvement in the tragic David Reimer case, while never losing sight of his flaws.
