The Ingenious Mr. Pyke Henry Hemming 2015-05-05 The untold story of an enigmatic genius who changed warfare forever In the World War II era, Geoffrey Pyke was described as one of the world's great minds -- to rank alongside Einstein. Pyke was an inventor, adventurer, polymath, and unlikely hero of both world wars. He earned a fortune on the stock market, founded an influential pre-school, wrote a bestseller, and came up with the idea for the US and Canadian Special Forces. In 1942, he convinced Winston Churchill to build an aircraft carrier out of reinforced ice. Pyke escaped from a German WWI prison camp, devised an ingenious plan to help the Republicans in the Spanish Civil War, and launched a private attempt to avert the outbreak of the Second World War by sending into Nazi Germany a group of pollsters disguised as golfers. And he may have been a Russian spy. In 2009, long after Pyke's death, MI5 released a mass of material suggesting that Pyke was in fact a senior official in the Soviet Comintern. In 1951, papers relating to Pyke were found in the flat of "Cambridge Spy" Guy Burgess after his defection to Moscow. MI5 had "watchers" follow Pyke through the bombed-out streets of London, his letters were opened, and listening devices picked up clues to his real identity. Convinced he was a Soviet agent codenamed Professor P, MI5 helped to bring his career to an end. Henry Hemming is the first reporter to sift through this extraordinary new information and finally tell Pyke's astonishing story in full: his brilliance, his flaws, and his life of adventures, ideas, and secrets.

The Digital Doctor: Hope, Hype, and Harm at the Dawn of Medicine's Computer Age Robert Wachter 2017-03-31 The New York Times Science Bestseller from Robert Wachter, Modern Healthcare's #1 Most Influential Physician-Executive in the US While modern medicine produces miracles, it also delivers care that is too often unsafe, unreliable, unsatisfying, and impossibly expensive. For the past few decades, technology has been touted as the cure for all of healthcare's ills. But medicine stubbornly resisted computerization - until now. Over the past five years, thanks largely to billions of dollars in federal incentives, healthcare has finally gone digital. Yet once clinicians started using computers to actually deliver care, it dawned on them that something was deeply wrong. Why were doctors no longer making eye contact with their patients? How could one of America's leading hospitals give a teenager a 39-fold overdose of a common antibiotic, despite a state-of-the-art computerized prescribing system? How could a recruiting ad for physicians tout the absence of an electronic medical record as a major selling point? Logically enough, we've pinned the problems on clunky software, flawed implementations, absurd regulations, and bad karma. It was all of those things, but it was also something far more complicated. And far more interesting . . . Written with a rare combination of compelling stories and hard-hitting analysis by one of the nation's most thoughtful physicians, The Digital Doctor examines healthcare at the dawn of its computer age. It tackles the hard questions, from how technology is changing care at the bedside to whether government intervention has been useful or destructive. And it does so with clarity, insight, humor, and compassion. Ultimately, it is a hopeful story. "We need to recognize that computers in healthcare don't simply replace my doctor's scrawl with Helvetica 12," writes the author Dr. Robert Wachter. "Instead, they transform the work, the people who do it, and their relationships with each other and with patients. . . . Sure, we should have thought of this sooner. But it's not too late to get it right." This riveting book offers the prescription for getting it right, making it essential reading for everyone - patient and provider alike - who cares about our healthcare system.

Picture Perfect Alessandra Thomas 2013-03-21 Fashion design major Cat Mitchell has a closet full of gorgeous clothes - and not a single thing fits. After two years of runway modeling for easy cash, an accident shattered her lower leg bone and her self-esteem in just one swift fall. Ten months of no exercise, prescription steroids, comfort eating and yoga pants meant returning to campus as a size twelve instead of her former size two. When her gorgeous long-time friend with benefits sees her for the first time after her accident and snubs her in front of all her friends, Cat's self-image hits rock bottom. Her sorority sisters all insist that she looks gorgeous, but all Cat sees is the roll of her stomach when she sits down, or the dimpling at the back of her thighs that wasn't there last year. Cat's therapist prescribes something radical to stop the downward spiral - nude modeling for a nearby college's human form drawing classes. When Cat faces her fears and bares it all for the class, she realizes that she's posing naked in front the most gorgeous, buffest guy she's ever seen in her life. He asks her out after the class, and after one steamy night and six weeks of perfect dates together, Cat's absolutely smitten. But when Cat goes home with Nate for Thanksgiving, she discovers something shocking from his recent past that proves that he hasn't always been so encouraging of women of all shapes and sizes. Cat has no idea what to think, but she does know one thing - this might destroy their relationship before it's even had a chance to get off the ground. Before Cat can figure out whether the real Nate is the sensitive, adoring guy she fell in love with, or an undercover asshole, she'll have to finally feel comfortable in her own skin - even if it means leaving him forever. Murder in Samarkand Craig Murray 2013-05-24 When Craig Murray arrived in Uzbekistan to take up his post in 2002, he was a young ambassador with a brilliant career and a taste for whisky and women. But after hearing accounts of dissident prisoners being boiled to death and innocent people being raped and murdered by agents of the state, he started to question both his role and that of his country in so-called 'democratising' states. Following his discovery that the British government was accepting information obtained under torture, Murray could no longer maintain a diplomatic silence. When he voiced his outrage, Washington and 10 Downing Street decided he had to go. But Uzbekistan had changed the high-living diplomat and there was no way he was going to go quietly. In this candid and at times shocking memoir, Murray lays bare the dark and dirty underside of the War on Terror.

Walls of Indifference Nicole I Torres 2015-11-17 This ethnography documents and explores the social, political, and material consequences of militarization in the borderlands of Arizona. Based on two years of fieldwork in Phoenix, Tucson, and other communities along the US-Mexico border, the author identifies militarization as a social and political phenomenon that gradually reconfigures both individuals and communities. Through ethnographic instances, she explores how the vocabularies of race, nationalism, and patriotism decrease political engagement and simultaneously increase conflict within the borderland communities.

Female Masculinity Judith Halberstam 1998 Masculinity without men. In Female Masculinity Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian

practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among "transgender dykes"--lesbians who pass as men--and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. *Female Masculinity* signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs, including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.

The Life and Death of Sophie Stark Anna North 2015-05-19 Winner of the 2016 Lambda Literary Award for Bisexual Fiction "I read *The Life and Death of Sophie Stark* with my heart in my mouth. Not only a dissection of genius and the havoc it can wreak, but also a thunderously good story."—Emma Donoghue, New York Times bestselling author of *Room* "This novel is perceptive, subtle, funny and lingers in unexpected ways. The analysis of a woman who puts her art above all else is equal parts inspiration and warning story. Anna North makes prose look easy."—Lena Dunham Gripping and provocative, *The Life and Death of Sophie Stark* is a haunting story of fame, love, and legacy told through the propulsive rise of an iconoclastic artist. Sophie Stark begins her filmmaking career by creating a documentary about her obsession, Daniel, a college basketball star. But when she becomes too invasive, she finds herself the victim of a cruel retribution. The humiliation doesn't stop her. Visionary and unapologetic, Sophie begins to use stories from the lives of those around her to create movies, and as she gains critical recognition and acclaim, she risks betraying the one she loves most. Told in a chorus of voices belonging to those who knew Sophie best, *The Life and Death of Sophie Stark* is an intimate portrait of an elusive woman whose monumental talent and relentless pursuit of truth reveal the cost of producing great art. It is "not only a dissection of genius and the havoc it can wreak, but also a thunderously good story" (Emma Donoghue).

Clash of Eagles Martin Bowman 2006 This is the story of the air war over Western Europe, told first hand by the American and German pilots and aircrew who took part. It spans the period between 1942 and 1945 and covers the encounters between the audacious Luftwaffe fighter pilots and the Fortress and Liberator bomber crews of the American 8th Air Forces flying from East Anglia. Many unique experiences are recounted from both the night and day bombing raids that were hurled against Hitler's war machine. What was it like to fly through the dense flak over the Ruhr and against the German Experten and to be hit by machine gun and cannon fire from Focke Wulf 190s and Bf 109s? How did so many badly damaged bombers manage to struggle back, against all odds, to their East Anglian bases? The author has sought the experiences of German fighter pilots, who explain how they stalked their prey in the sky over the Reich and how they pounced on their four engine victims from 12 o'clock high. This book contains vivid accounts of some of the most heroic actions in the history of air warfare and contains many previously unpublished action photographs.

South Pacific Diary, 1942-1943 Mack Morriss 2021-12-14 A unique chronicle of the war from the perspective of a sensitive twenty-four-year-old sergeant who wrote for the Army's in-house paper, *Yank*, the *Army Weekly* and a tale of the South Pacific that will not soon be forgotten. Correspondent Mack Morriss reluctantly left his diary in the Honolulu *Yank* office in July 1943. "Here is contained an account of the past eight and one-half months," he wrote in his last entry, "a period which I shall never forget." The next morning he was on a plane headed back to the South Pacific and the New Georgia battleground. Morriss was working out of the press camp at Spa, Belgium, in January 1945, when he learned that the diary he had kept in the South Pacific had arrived in a plain brown wrapper at the New York office. He was so happy "to know that this impossible thing had happened," he wrote to his wife, that he helped two friends "murder a quart of scotch." What was preserved and appears in print here for the first time is a unique chronicle of the war in the South Pacific from the perspective of a sensitive twenty-four-year-old sergeant. This is an intensely personal account, reporting the war from the ridge known as the Sea Horse on Guadalcanal, from the bars and dance halls of Auckland to a B-17 flying through the moonlit night to bomb Japanese installations on Bougainville. Morriss thought deeply and wrote movingly about everything connected with the war: the sordiness and heroism, the competence and ineptitude of leaders, the strange mixture of constant complaint and steady

courage of ordinary GIs, friendships formed under combat stress, and, above all, what he perceived to be his own indecisiveness and weaknesses. Ronnie Day introduces Morriss's diary and illuminates the work with extensive notes based on private papers, government documents, travel in the Solomon Islands, and the recollections of men mentioned in the diary.

Death Comes for the Fat Man Reginald Hill 2009-12-15 There was no sign of life. But not for a second did Pascoe admit the possibility of death. Dalziel was indestructible. Dalziel is, and was, and forever shall be, world without end, amen. Chief constables might come and chief constables might go, but Fat Andy went on forever. His colleague, Detective Chief Inspector Peter Pascoe, is determined to bring those responsible to justice. Marshfield Dreams Ralph Fletcher 2005-09-01 The colorful boyhood of a popular author comes to life in this personal account Imagine learning from a nosy classmate that your mother is having yet another baby. To Ralph's classmates, news of one more Fletcher baby is just "scuttlebutt." But for Ralph, the oldest of nine, being part of a large family means more kids to join in the fun—from making tripods in the woods and "snicking" up the rug, to raising chicks and even discovering a meteor (well, maybe). It doesn't feel like there's life beyond Marshfield, Massachusetts. Then one day Dad's new job moves the family to Chicago, and there's so much Ralph has to leave behind. In this humorous and captivating memoir, Ralph Fletcher traces the roots of his storytelling.

The Prize and the Price Melissa E. Steyn 2009 "What is the prize, and who pays the price? The desired and the desirable are often constellated through our ideas of what is undesired and undesirable, deeply knotted into our sense of self, our sense of where and how we fit into the world. These notions of desire form the backdrop to this powerful volume which examines the historical continuities and interruptions of heteronormativity in South African society. Leading and emerging scholars disentangle the strands of particular sexual identities, and deepen the reader's understanding of the multiple workings of heteronormativity in South African society in particular, and sexuality in general. Through analyzing where and how heteronormativity intersects with other axes of power and social identity, contributors to this volume reveal that it is not monolithic, and heterosexuality as the South African norm is effectively 'outed' from within heteronormativity. The chapters extend beyond the well researched areas of sexuality - same sexualities, HIV/AIDS and gender-based violence - to less discussed areas, such as childhood sexuality and disability. The multiplicity of issues raised have relevance for a range of readers interested in the fledgling field of Sexualities Studies, and in its significance the scholarship extends well beyond the borders of South Africa"--Cover.
