Marriages and Families in the 21st Century Tasha R. Howe 2011-09-15 *Marriages and Families in the 21st Century* provides an in-depth exploration of a traditional field of study using a new and engaging approach. The text covers all the important issues—including parenting, divorce, aging families, balancing work and family, family violence, and gender issues—using a bioecological framework that takes into account our status as both biological and social beings. Using this lens, which emphasizes the individual's interactions with a series of larger systemic influences—from family, peers, neighbors and teachers, to schools, media, institutions and culture—the book creates a cohesive overview of modern family life and helps students visualize the complex influences affecting all people in families. It also examines the state of modern families using a strengths-based approach, which allows students to evaluate the health and functioning of a family considering the biological and cultural milieu in which it exists, rather than on its observable structure or appearance alone. Individual chapters cover historical and cultural trends and also explore the biological, personal, and social forces that shape individuals and families. Each chapter investigates the wide diversity of human relationships and integrates discussions of ethnicity, culture, sexual orientation, and gender seamlessly into the main narrative. In addition, the book explores recent research in neuroscience, medicine, and biopsychology to examine how family relationships are shaped by and also influence individuals' biological functioning. An accessible writing style coupled with numerous student-friendly pedagogical features help readers come to a multi-layered understanding of "what makes families tick," while also challenging them to reevaluate their own assumptions and experiences. Key features: Uses a bioecological model that takes into account our status as both biological and social beings Employs a strengths-based approach that focuses on family processes rather than structure in evaluating families' optimal health and happiness Incorporates discussion of neuroscience, medicine, and biopsychological research throughout Explores a wide diversity of family relationships, integrating issues of ethnicity, culture, sexual orientation, and gender Focus on my Family boxes profile real families who wrote essays in their own words about their diverse experiences How Would You Measure That? sections emphasize students' critical thinking and analysis of research design and conclusions Helps students analyze their own families' strengths and attempt to build on those through psychometrically sound self-assessments and Building Your Strengths exercises Engaging and accessible writing style incorporates contemporary, real-world examples with important theory and research Instructor's manual, test bank, PowerPoint lecture slides, and useful web links, as well as Student flash cards and self-test questions, available upon publication at www.wiley.com/go/howe

Ethics and Technology Herman T. Tavani 2016-01-11 *Ethics and Technology*, 5th Edition, by Herman Tavani introduces students to issues and controversies that comprise the relatively new field of cyberethics. This text examines a wide range of cyberethics issues--from specific issues of moral responsibility that directly affect computer and information technology (IT) professionals to broader social and ethical concerns that affect each of us in our day-to-day lives. The 5th edition shows how modern day controversies created by emerging technologies can be analyzed from the perspective of standard ethical concepts and theories.

Relationships Les and Leslie Parrott 2009-05-18 Today more than ever, people long for connection. In an age marked by isolation and loneliness, they measure riches in terms of belonging, acceptance, vulnerability, honesty, closeness, and commitment. And what they most want to know is how to make bad relationships better and good relationships great. Drs. Les and Leslie Parrott understand firsthand our deep need for relationships; and as relationship experts, they know what it takes to build strong, lasting bonds. In *Relationships*, the Parrotts take us below the surface to the depths of human interactions--to the nitty-gritty realities, the ups-and-downs of building vital, satisfying connections. They provide the tools needed to handle tough times and to really succeed at forging strong, rewarding relationships with friends, with the opposite sex, with family, and with God. This cutting-edge book is full of the latest findings and contemporary relationship-building strategies. In a high-tech world, it offers a high-touch solution to a better life. The Parrotts share not just from their knowledge, but from their hearts and lives to help us all understand: who we are and what we bring to our relationships how our families of origin shape the way we relate to others tips for building friendships that last secrets to finding the love we long for and handling sexual issues how to handle failed friendships and breakups without falling apart how to relate to God without feeling phony Filled with insightful, true-life stories and thought-provoking questions, *Relationships* is an honest and timely guide to forming the rich relationships that are life's greatest treasure.

International Handbook of Women and Small Business Entrepreneurship Sandra L. Fielden 2005 Sandra Fielden and Marilyn Davidson, already well known for their contributions to gender issues in management, have brought together an absorbing collection of articles that serve to enhance our understanding of a complex area within organisation studies. . . this particular Handbook is not a mere glossary. The editors provide a forum for scholarly works in a specialised area of small business and entrepreneurship research. And the International Handbook of Women and Small Business Entrepreneurship provides a rich resource collectively, the papers serve to summarise and re-examine much of the relevant research to date. . . an accessible book that follows a logical and coherent pattern. . . the range of this book is significant, and the accomplishment considerable. . . the International Handbook of Women and Small Business Entrepreneurship is a serious contribution to a niche area of entrepreneurship scholarship. The editors and authors have established a place for women in the literature, confirming that gender issues cannot be dismissed as a mere adjunct to the broader field of entrepreneurship study. This collection offers the reader intelligent engagement with the range of research and ways of knowing about women and entrepreneurship. Established scholars will find much of interest, and we would also confidently recommend the Handbook to interested newcomers. Robyn Walker and Kate Lewis, *Women in Management Review* Sandra L. Fielden and Marilyn J. Davidson have put a great deal of work into producing this compilation of scientific studies on women and small business entrepreneurship. In this book, the editors have managed to put together an excellent compilation of studies that look at topics that have aroused the highest interest in this field in recent years. . . It offers a good balance between theory and practice-oriented studies and presents an academic viewpoint that comes extremely close to the real, current situation of this phenomenon. This book therefore provides a useful tool both for the academic community in general and for students, particularly at a postgraduate or doctorate level, who wish to gain a state-of-the-art overview of this business phenomenon. It may also be put to good use by women in management and entrepreneurship as well as policymakers and small service providers, given its high empirical content, supported by a sound empirical framework, which deals with real-life issues for women who wish to start up and manage their own businesses. María Ángeles Escribá Moreno, *Entrepreneurship Management* . . . a truly international, unique and impressive contribution to our knowledge and understanding of issues for females starting, running and growing businesses. . . an important read for anyone with an interest in female entrepreneurship, including researchers, support agents and policymakers. Moreover, this book may be of interest to those concerned with

the theoretical development of the study of entrepreneurship. Laura Galloway, *International Journal of Entrepreneurship and Innovation* . . . this book can be recommended as an insightful and interesting work on women's entrepreneurship from a broad perspective. Wing Lam, *International Small Business Journal* This truly international Handbook makes a significant contribution to the field of women's entrepreneurship by broadening the scope of the conversation, hearing voices that are often unheard, and providing a framework that organizes the current body of knowledge but also presents pathways for future research and practice. Patricia G. Greene, Babson College, US This Handbook is a breakthrough collection. Women worldwide are now starting small businesses and entrepreneurial ventures at a faster rate than men. Though small in size, these initiatives represent a significant factor in economic growth, highlighting their importance. This collection sheds light on the motivations, personality and behaviors of women entrepreneurs, the constrai

The Best Kept Secret Roberta L. Coles 2009-03-16 The Best Kept Secret studies the often-overlooked group of single, African American custodial fathers. While the media focuses on the increase of single mothers and the decline in marriage in the black community, Roberta Coles paints a nuanced picture of single black dads. Based on qualitative research, the author looks at the parenting experience of these fathers, who may have become single parents through nonmarital births, divorce, widowhood and adoption. The fathers, ranging in age from 20 to 76, discuss their motivations for taking custody of their children, what roles they enact as parents, what they hope for their children, how they socialize their children in a diverse society, how parenting daughters differs from sons, and what parenting has done for them personally. Coles then recommends policy changes to improve the situations for children and single parents-particularly often-unseen fathers. Filled with dynamic interviews and intriguing case studies, The Best Kept Secret shows that single black custodial fathers do exist and looks at the ways raising children has shaped their lives.

Taking Sides Eileen L. Daniel 1993 Taking Sides: Clashing Views on Controversial Issues in Health and Society, 6th edition, is a debate-style reader designed to introduce students to controversies in health science and personal health. The readings, which represent the arguments of leading health

care professionals, policymakers, and social commentators, reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. For each issue, the editor provides a concise introduction and postscript summary. The introduction sets the stage for the debate as it is argued in the "yes" and "no" readings, and the postscript briefly reviews the opposing views and suggests additional readings on the controversial issue under discussion. By requiring students to analyze opposing viewpoints and reach considered judgments, Taking Sides actively develops students' critical thinking skills. It is this development of critical thinking skills that is the ultimate purpose of each of the volumes in the widely acclaimed Taking Sides program. Book jacket.
