Subliminally Exposed - Steven Dayan 2013-06-04

The New York Times bestseller that explores the primitive world of human programming as it pertains to beauty, culture, and evolution. Beauty is raw, powerful, and often dangerous, but when refined, harnessed, and mastered, it can be incredibly influential. Just as there is a good reason why all humans find sugar to be sweet and a growling beast intimidating, there is an evolutionary logic to why our appearances allow us to communicate and manipulate each other at a subconscious level. Who you choose to mate, befriend, or work with often pivots on a few critical yet subliminal decisions made within a fraction of a second. The human brain has been evolving over 3.5 million years, and our thoughts, behaviors, and actions are rooted in a system that is evolutionary, adaptive, and unencumbered by political, social, or religious constraints. Evolution only cares about one thing: survival of our genes. *Subliminally Exposed* will reveal the how and why behind your actions and empower you to decode and translate others' subconscious behaviors. Whether it is for political, employment, or relationship purposes, the knowledge and tools gained from the words in this book can be used for betterment or deceit. It is your choice. Regardless, be forewarned. The information you are about to read will affect every one of your relationships for better or worse in one way or another.

How Should a Christian Date? - Eric Demeter 2021-09-07

Pitch the Christian dating rulebook out the window. There's a better way! No matter what you might have heard, God didn't mandate a divine way to date. What He did do, in the Bible, is lay out principles for wise and healthy relational living among believers. His boundaries for us are wise and good. But exactly how you apply God's principles to your dating life is up to you to figure out. All you need is guidance, not micromanagement. *How Should a Christian Date?* doesn't try to boss you around. It just offers wisdom about the relevant principles in God's Word. Eric Demeter—a single guy who has given this subject a lot of thought—separates the truths of Scripture from the baggage of Christian dating subculture. He talks to you like a big brother or favorite uncle, not your mother. You'll cover topics such as: Busting 12 Myths of Christian Dating How to Meet People & Have a Good First Date Clearing the Fog in Sex and Physical Affection Getting the Best from a Breakup Take Dating One Stage at a Time There isn't one "Christian" way to date. But there are ways that Christians should handle themselves while dating . . . and those are the

truths to live by.

The Truths about Dating and Mating - Jaycee DeLorenzo 2012

Spunky Italian coed Ivy Rossini likes to talk and push the boundaries. She gets to do both as she co-hosts Riordan College's radio program, *The Truths about Dating and Mating*, alongside her lifelong best friend, Ian Hollister. Being the only girl who cares to see beyond Ian's bad boy reputation has its advantages, especially when he's scaring off the jerks who just want to nail the campus sex-guru. It's when he's "protecting" her from the advances she welcomes that she wants to lob him over the head and tell him to butt out. But Ivy feels like she's the one who's taken a hit when Ian almost kisses her at a party. She knows she should feel relieved when he pulls away, so why is she disappointed instead? What's worse, Ivy's now getting aroused by Ian's slightest touch and can't stop entertaining thoughts of a romantic future. But Ian doesn't do relationships, and she's not interested in anything casual. In the end, Ivy decides it's best to keep her growing feelings a secret and hope they'll pass. However, when Ian begins hinting at wanting to take things to the next level, she's forced to decide if a chance at something more is worth risking everything they've built. With their friendship and her heart hanging in the balance, can Ivy follow the advice she and Ian give their listeners - to communicate, be honest, and trust in themselves - or will insecurity, stubbornness, and pride ruin any chance of their relationship getting off the ground?

Your Girlfriends Only Know So Much - Finesse Mitchell 2007-11-06

Face it. Your girlfriends can tell you what you need to know about just about everything...except men. For that, you need comedian and Essence columnist Finesse Mitchell. Eager to help his sistas out and show them how to avoid the types of men who have left them baffled, blue, or just plain bitter, Mitchell tells the truth, whether it's good, bad, or downright despicable. *Your Girlfriends Only Know So Much* clues women in to what men are really thinking at every stage of a relationship, from first contact through deciding to propose. Lighthearted and brutally (if hilariously) honest, *Your Girlfriends Only Know So Much* lets women in on the things only men know about men and, in the process, saves them from wasting weeks,

A Woman's Guide to the Male Mind - Sam Geraldo 2011-01-14

A Woman's Guide to the Male Mind is the indirect result of a blog that I wrote in 2005 *How Do You Tell If a Guy Fancies You?* The article was so popular, receiving more than 70 replies from women with lots more questions, that I launched my web site www.seducemen.co.uk. Since then, most of the advice I've given in hundreds of published articles was based on my own experiences and those of my friends. To write the book, however, I adopted a more scientific approach. I performed a significant amount of research into recent discoveries by anthropologists, sociologists, psychologists and biochemists on topics ranging from basic sexual attraction to personality type and male/female communications strategies. It's my belief, therefore, that *A Woman's Guide to the Male Mind* features the best of two worlds: common sense opinions backed by solid empirical evidence. By helping ladies understand the male point of view with regard to sex, dating and relationships; I hope to eliminate the senseless conflicts that so often erupt between lovers and would-be lovers. Once you understand a few fundamentals about the male mind and male behaviour, you will stop thinking of men as inscrutable blockheads and primitive misfits. You will no longer regard them as you would a small, nasty child or an alien race. Arming yourself with the wisdom in this book, you'll increase your odds of finding happiness and harmony in romantic relationships, and you will help ensure that this bliss lasts a lifetime. By the time a man reaches maturity, he has passed through four evolutionary stages in his attitude toward women and relationships. It's very important to understand and identify these four stages, because it will save you from wasting time on guys who aren't ready for serious romance.

The Truth About Men Will Set You Free - Patricia Allen 2009-06

This is a book for women who are looking to improve their dating experience. More effective dating happens by accepting, versus ignoring, our evolutionary design. Understanding our brain wiring and body reaction differences with men explains a lot. Ever wonder why you get so attached to a man, yet he can remain so casual about your relationship? Or why break-ups are so very hard to get over? This breakthrough book helps you understand exactly how a man's mind (and body) works when it comes to intimacy, and the reasons why dealing with a man can sometimes be so exasperating or emotionally painful. Knowing them helps you realize he may not be doing it you deliberately, and what genetic mechanisms give you more power than you've ever had before in building a strong, loving intimate relationship. For example, scientific research finds that evolution designed you to become biochemically addicted -- to his smell.

Biology also drives men sexually, but their main "addiction" is to seek multiple mating partners. Evolution also wisely provides that if a certain hormone gets produced in his brain, he'll become just as bonded as you are. There are rules for a successful relationship. Women feel that guys evade them. Guys feel that women invade them. To have a satisfying love life, or a fulfilling dating experience, know how to play by the rules, and play to win! Dr. Pat Allen, Ph.D, MFT, has helped women, men and couples do this for over 30 years; and her workshops have helped tens of thousands of relationships to succeed. After a lifetime studying the SCIENCE of relationships, the energies that drive men and women, and how those energies can be balanced in harmony, you now have access to her latest discoveries. This research refutes many of today's pop theories about relationships, and dismantles basic assumptions of the feminist movement. It's not the first time Dr. Pat Allen offered such contrarian advice. In her bestseller, "Getting to 'I Do'," she described how women can achieve satisfying marital relationships. In this new book, she describes the genetics of what MEN do in their quest for sex (and love), and how women consciously and unconsciously react to these actions. It's time for women to have their consciousness raised about male sexual behaviors, based on scientific research into human mating practices. When you know the evolutionary sources of such behavior, you are empowered to claim the high ground, adopt effective counter-behaviors, and rise above any victim mentality. Knowing the truth about men and their sexual responses will free you to implement new, scientifically proven mating strategies that will increase your chances for developing a loving relationship. Creating solid and lasting relationships means accepting each other's differences instead of denying them. After you've learned the Truth About Men, you'll finally have the information you need to venture forth, make informed choices -- and embrace true Feminine Empowerment.
