

The Tao Of Health Sex Longevity

The Tao of Detox - Daniel Reid 2006-10-25

A practical guide to preventing and treating the toxic assault on our bodies • Shows how the practices of periodic detox and “rational retox” can counteract the toxic nature of our modern lifestyles, diets, and environment • Provides ancient Chinese methods and remedies that help the body repair itself • Includes detoxification techniques, formulas, and exercises that work within 10 days Despite the wonders of modern medicine, the state of human health throughout the world is eroding at an alarming rate. The long-term accumulation of toxins and acid waste in our bodies--both from the chemically contaminated air we breathe and water we drink as well as the toxins we ingest in the form of low

quality food, preservatives, and additives--damages our organs, corrodes our joints and arteries, enervates our nervous system, and inhibits our immune system. Chronic pain and fatigue, hypertension and heart failure, cancer, diabetes, arthritis, indigestion, insomnia, and even acne, are all caused by the long-term accumulation of toxins in our bodies. In The Tao of Detox Daniel Reid combines traditional Eastern practices and the latest of modern Western thinking to offer detoxification methods that can repair in as little as seven to ten days much of the long-term damage done. He provides breathing exercises, massage techniques, and soft exercises such as yoga and tai chi that help the body to heal itself. He also

explains the importance of “rational retoxification,” which allows the careful reintroduction of less healthy substances, and offers ways to counteract those toxins we can’t--or don’t want to--avoid, including alcohol and tobacco. Reid explains that, just as we care for our cars with regular tune-ups, by practicing periodic detox as well as “rational retox,” we can enjoy long and healthy lives and still be able to “eat, drink, and be merry.”

[The Way of the Tao, Living an Authentic Life](#) -

Dennis M. Waller 2012-04-30

A treatise and interpretation of Lao Tzu's Tao Te

Ching by Dennis M Waller. The Tao is an ancient philosophy of living in the natural world. It shows the way of how to get back to being your Authentic Self, your Spiritual Self. The Tao has the power to help you reclaim your life from the temporal ego identity that is imprisoning you. With the Tao you can discover your Authentic Identity by getting back to the being-ness and oneness of living in the Divine Consciousness. Through discovering these truths we can become the creators of the universe instead of the passive observers we have been. We can learn to live life in the infinity of the now verses living in the clutches of the Ego. The Tao shows us how to grow detached from the ego identity by becoming in direct contact with our true intent and motives that was meant for us. When we do, we begin to see ourselves as we truly are. It is being authentic that we become reconnected to the divine source. What is the Way of the Tao? It is the way things are in their own natural progression of life and death. The

way of intelligent design as shown in nature, this is the way of the Tao. It is the way without dogmas, formalities or religion. To live in the Tao is to live in peace and harmony. The Tao gives you the knowledge of being one with the higher realm of divine consciousness and to experience the innerconnectiveness to all living things. It is to have the awareness of being in this world while knowing that you are not part of it because you are more than all of this. You are one and 10,000 things at the same moment. You are the song that the bird sings, the breeze blowing through the trees, the fish swimming in a brook, the warmth of the sun shining from above, the coolness of the earth below your feet, you are life and death, all at once and not at all. There is no separation in the Divine Oneness. The Tao contains the power to liberate you from the ego-imposed prison of the dualistic world. Living in the Tao can bring a deep inner peace and a reconnection to the divine source. The wisdom of the Tao is in a practical sense, a way

to live life with the clarity of knowing the universal truth. When you are living in the Tao, you will see resistance and opposition fade away. Conflict and stress will become distant memories. The issues of life become irrelevant or will simply disappear once you start living your authentic self with the Tao. The Tao shows how to transcend all those insurmountable obstacles that the ego has created. There is another level of existence that is the real, true, genuine substance of who you are. This is the authentic self. The authentic self is the real you that can be found at your absolute core. It is the part of you not defined by your job, function, nationality, religion, race or role in life. It is the composite of all your skills, talents and wisdom. It is all of the things that are uniquely yours and need expression, rather than what you believe you are supposed to be and do. The choice we need to make is whether to trust in our own nature, to be of a pure heart and mind or to live in a world where we are trying to control

everything. We have seen that going against our nature provides no comfort or satisfaction for our souls. For authentic satisfaction, for true peace, we must learn to realize who we are and where we came from. The truth is all around us. You can hear the voice of god in the laughter of children at play and in the songs of the birds. You can see God in all his glory throughout all of nature. It is all around us to see and experience. Remember you are part of this universe and here to experience it. Be your Authentic Self and be one with it all. To live in the Tao and live your purpose is to live life to the fullest.

The modern

The Essence of Chi-Gung is an easy-to-use workbook that teaches the fundamentals of chi-gung practice and provides a safe, basic daily regimen that can be adapted for people of all ages and physical abilities. Shots from the Hip - Daniel Reid 2020-02-28
Shots From the Hip is the memoir of Daniel Reid, a world-renowned expert on consciousness, holistic medicine and living life to the full. It recounts a life lived footloose and free, unbound by convention and driven by a quest for new experiences on roads less traveled. From the sex, drugs, and rock & roll scene of Late Sixties America to the opium dens, bars, and bordellos of far-flung Asian outposts, the author recounts his outlandish escapades in a rollicking narrative told with flair and candor. But that's just the tip of the iceberg. Shots From the Hip is also an in-depth commentary on life itself, and a deliberation on death drawn from the author's own close encounters. Reid, who calls himself a "Sinopath," felt a link with China early in life, compelling him to cultivate his taste for all things Chinese, from poetry and philosophy to food and women. His sinologisms entice the reader with tasty

treats from the gourmet feast of traditional Chinese life. There is also a love story running through these pages, a tender tribute to the redemptive power of a woman's love for a man in the extremes of adversity. For readers with an appetite for the exotic and bizarre, the author offers a generous banquet of vicarious experience, while for those interested in loftier ideas, he shares new insights about ancient spiritual questions and the enduring mysteries of the mind. Reid's explanations of alternate ways to understand reality, drawn from Eastern teachings, may provide readers with new perspectives on their own lives.

The Tao Of Detox - Daniel Reid 2016-09-08

It is time we recognised the direct correlation between the external pollution of the environment and the internal pollution of the body. human system from the inside. Combining the best of ancient eastern and the latest of modern western thinking, THE TAO OF DETOX offers a solution to restoring and preserving your good health through detox. If you want to fight chronic disease, live longer, lose weight or just feel the benefits of good health with glowing skin and masses of energy, Daniel Reid's rational and scientific advice will tell you how. Highly practical, THE TAO OF DETOX shows the way to enjoy immediate wellbeing and the promise of a longer, ailment-free life - and all without sacrificing the enjoyment of life's pleasures.

A Complete Guide to Chi-Gung - Daniel Reid
2000-03-07

Chi-gung, which literally means "energy work," is a system of cultivating health, vitality, and longevity that is based on the fundamental principles of Taoism and the laws of nature. Practiced by the Chinese for thousands of years, chi-gung works with the energy found in all living things to help rid the body of the imbalances that sap our strength and give rise to disease. The simple, meditative movements, breathing exercises, and massage techniques that are the basis of chi-gung can be practiced by anyone, regardless of age or physical fitness. Guarding the Three Treasures - Daniel P. Reid
1993

'The body is the temple of life. Energy is the force of life. Spirit is the governor of life. If one

of them goes off balance, all three are damaged. When the spirit takes command, the body naturally follows it, and this arrangement benefits all Three Treasures. When the body leads the way, the spirit goes along, and this harms all Three Treasures' - Wen-tzu Classic (first century BC) Inspired by the enthusiastic response to the TAO OF HEALTH, SEX AND LONGEVITY, GUARDING THE THREE TREASURES is a companion volume which can be read independently as an introduction to the philosophy and practice of Taoist health care. Bestselling author Dan Reid acquaints the reader with the three treasures of Taoist medicine - essence, energy and spirit. The Way of Tao is the way of harmony with nature, a dynamic balance of yin and yang. Maintaining this balance in your own mind and body will strengthen your immune system and build up your general health. Whereas Western medicine attempts to fix the affected body part or organ when something goes wrong, Chinese medicine

The Sexual Teachings of the Jade Dragon -

Hsi Lai 2002-10-01

Reveals how the sexual practices of the Taoist Jade Dragon can help men achieve "immortality" through the enhancement of their sexual

pro prowess. • A companion guide to The Sexual Teachings of the White Tigress that focuses on the male side of White Tigress sexual practices.

- Reveals the nine Jade Dragon exercises and other Taoist techniques for achieving the elixir of immortality.
- Offers physical and spiritual solutions for the sexual issues facing men.

Hsi Lai continues the work he began in The Sexual Teachings of the White Tigress by exploring more fully the male role in Taoist sexual transformation. As with those of the White

Tigress, the techniques of the Jade Dragon are part of a disciplined sexual and spiritual practice. The goal for the Jade Dragon is health, longevity, and immortality through external and internal regimens for the enhancement and accumulation of the Three Treasures of Taoism--ching (sexual and physical energy), qi (breath and vital energy) and shen (spiritual and mental energy). The author presents the nine Jade Dragon exercises that strengthen erections, enlarge the penis, increase semen quantity and quality, prevent premature ejaculations, and enhance sexual energy. He also details herbal remedies for revitalization that address both physical and spiritual sexual components, as well as ancient Taoist breathing and meditative practices and sexual stimulation techniques that amplify sexual intensity in order to create the elixir of immortality. Concluding with the importance of the interactions between and interdependence of White Tigresses and Jade Dragons, Hsi Lai shows the reader how these
