## **Model Programs for Adolescent Sexual Health** - Tabitha Benner, MPA 2008-05-22

Model Programs for Adolescent Sexual Health is a directory of the most promising and proven effective sexual education and prevention programs in the United States. The programs included in this volume were selected for their demonstrated positive impact on STI, pregnancy, and HIV/AIDS-related risk behaviors by a group of eminent HIV/AIDS expert scientists. The programs also show effective prevention strategies aimed at a variety of ages (children, adolescents, college students); a variety of ethnic and cultural orientations (Latino, African-American, GLBT, and more); and for use in a variety of settings (schools, community settings, medical clinics, and more). The following information is provided for each program listed in the directory: The Program Abstract summarizes the program, including its target clientele, site, approach, components, length, staffing requirements, program materials, and implementation costs The Program Rationale and History explains how the program was designed, and its underlying theoretical framework and assumptions Program Schedule explains the goals and activities of each program session Program Materials explains the necessary materials needed to implement the program (note that not all materials are included in this directory; however all can be ordered from Sociometrics) How to Implement the Program explains the ground rules and other necessary steps prior to implementation Evaluating the Program explains how the program was evaluated for its effectiveness

## **Suicide in the Entertainment Industry** - David K. Frasier 2015-09-11

This work covers 840 intentional suicide cases initially reported in Daily Variety (the entertainment industry's trade journal), but also drawing attention from mainstream news media. These cases are taken from the ranks of vaudeville, film, theatre, dance, music, literature (writers with direct connections to film), and

other allied fields in the entertainment industry from 1905 through 2000. Accidentally self-inflicted deaths are omitted, except for a few controversial cases. It includes the suicides of well-known personalities such as actress Peg Entwistle, who is the only person to ever commit suicide by jumping from the top of the Hollywood Sign, Marilyn Monroe and Dorothy Dandridge, who are believed to have overdosed on drugs, and Richard Farnsworth and Brian Keith, who shot themselves to end the misery of terminal cancer. Also mentioned, but in less detail, are the suicides of unknown and lesser-known members of the entertainment industry. Arranged alphabetically, each entry covers the person's personal and professional background, method of suicide, and, in some instances, includes actual statements taken from the suicide note.

## *The Development and Fitness Consequences of Sex Roles* - Ákos Pogány 2022-04-27

### *The God of Sex* - Peter Jones 2006

A placard carried in the San Diego Gay Parade said it all: "He's your God. They're your rules. You go to Hell." Clearly, there is no longer any commonly held ultimate authority. So merely quoting Bible verses at gays and other "sexual sinners" to prove they are immoral is equally unsuccessful, if not destructive. For the sake of our young people, for the sake of our churches, for the sake of society and our world, Christians must understand the connection of spirituality and sexuality if we are to communicate relevantly to our postmodern culture. Jones gives an objective, honest appraisal of contemporary sexual trends and puts them up against God's clear (and beautiful) design for sex as a spiritual expression. Features and Benefits Helps Christians break out of typical parameters to help them understand and relevantly engage the culture. Nonbelievers will find this book objective and non-offensive, fairly representing postmodern worldviews. Thorough index and bibliography makes this book a powerful

resource tool.

*Film and Video Censorship in Modern Britain* - Julian Petley 2011-05-17

Why and how film and video censorship has developed in Britain since the birth of the domestic video industry in 1979.

**Core Economics with video lecture for Class 12** - S. K. Agarwala 2021-04-01

The present thoroughly revised and updated edition of Core Economics with Video Lectures is strictly according to the latest syllabus prescribed by the CBSE, New Delhi of Class XII. As in the previous editions, I have kept the treatment as simple as possible and confined the scope of each topic to the requirement of the syllabus. The treatment has been supplemented by the real life examples and numerical illustrations to enhance the understanding of the subject. This book is an outcome of my interaction with a large number of teachers in the Orientation Programmes organised by the CBSE and KVS in various parts of India and by School Associations in UAE and Kuwait. I have taken care of the suggestions and observations made by the teachers. My sincere thanks to them. Goyal Brothers Prakashan

**The Palgrave Handbook of Critical Menstruation Studies** - Chris Bobel

2020-07-24

This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: "what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life

course?" The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

Video Gaming in Science Fiction - Jason Barr 2018-09-11

As video gaming and gaming culture became more mainstream in the 1970s, science fiction authors began to incorporate aspects of each into their work. This study examines how media-fueled paranoia about video gaming—first emerging almost fifty years ago—still resonates in modern science fiction. The author reveals how negative stereotypes of gamers and gaming have endured in depictions of modern gamers in the media and how honest portrayals are still wanting, even in the "forward thinking" world of science fiction.

**European Silent Films on Video** - William B. Parrill 2015-06-08

This book is a critical encyclopedia of silent European films currently available on DVD, laser disc, and VHS. It provides concise and accurate summaries of the films, evaluates the quality of the prints, discusses the changing reputations of both films and filmmakers, and considers how the techniques developed during the silent period continue to influence filmmaking today. The book cites contemporary and recent criticism of the films and includes an extensive bibliography as well as a list of films by director. Numerous photos are also included.

*Blackness and Sexualities* - Michelle M. Wright 2007

With contributions from leading scholars from various disciplines, this title offers analyses and critiques that span three continents and looks at topics such as the secret marketing of black female pornography to white American men and the eroticization of colonial legacies in contemporary German media.

*Censored* - Paul Christoffel 1989

"The Department of Internal Affairs has been closely involved in the administration of censorship policy in New Zealand since the Department first assumed responsibility for film censorship in 1916. Internal Affairs has subsequently enforced the video censorship legislation passed in 1987. This publication examines the development of censorship legislation and practice in New Zealand from early laws aimed at controlling the activities of "vagrants", to the setting up of a Ministerial Committee of Inquiry into Pornography which reported in February 1989. Events examined include Victorian concerns about misleading medical advertisements, moral panics about films after the First World War and about comic books in the 1950s, the censorship controversies of the early 1970s, and the introduction of a

standardised system of video censorship in 1987 ..." -- Foreword.

An Exploration of Hatred in Pop Music - Glenn Fosbraey 2022-07-05

'Love' may be the major theme of the majority of pop songs, but 'hate', including its subcategories malevolence, vengeance, self-loathing, and contempt, run it close. Looking at artists across the history of popular music, and songs ranging from 'Runaround Sue' to 'W.A.P', this book explores the concept of hatred in lyrics, album art, music video, and the music industry itself, asking important questions about misogyny, politics, psychology, and family along the way.

Censorship - Derek Jones 2001-12-01

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Children, Risk and Safety on the Internet - Livingstone, Sonia 2012-07-18

As internet use is extending to younger children, there is an increasing need for research focus on the risks young users are experiencing, as well as the opportunities, and how they should cope. With expert contributions from diverse disciplines and a uniquely cross-national breadth, this timely book examines the prospect of enhanced opportunities for learning, creativity and communication set against the fear of cyberbullying, pornography and invaded privacy by both strangers and peers. Based on an impressive in-depth survey of 25,000 children carried out by the EU Kids Online network, it offers wholly new findings that extend previous research and counter both the optimistic and the pessimistic hype. It argues that, in the main, children are gaining the digital skills, coping strategies and social support they need to navigate this fast-changing terrain. But it also identifies the struggles they encounter, pinpointing those for whom harm can follow from risky online encounters. Each chapter presents new findings and analyses to inform both researchers and students in the social sciences and policy makers in government, industry or child welfare who are working to enhance children's digital experiences.

California Video - Glenn Phillips 2008
