The Disasters - M. K. England 2018-12-18

The Breakfast Club meets Guardians of the Galaxy in this YA sci-fi adventure by debut author M. K. England. Hotshot pilot Nax Hall has a history of making poor life choices. So it's not exactly a surprise when he's kicked out of the elite Ellis Station Academy in less than twenty-four hours. But Nax's one-way trip back to Earth is cut short when a terrorist group attacks the Academy. Nax and three other washouts escape—barely—but they're also the sole witnesses to the biggest crime in the history of space colonization. And the perfect scapegoats. On the run, Nax and his fellow failures plan to pull off a dangerous heist to

spread the truth. Because they may not be “Academy material,” and they may not even get along, but they're the only ones left to step up and fight. Full of high-stakes action, subversive humor, and underdogs becoming heroes, this YA sci-fi adventure is perfect for fans of *Illuminae*, *Heart of Iron*, or the cult classic TV show *Firefly* and is also a page-turning thrill ride that anyone—not just space nerds—can enjoy.

Lord of Opium - Nancy Farmer 2013-09-26

Matt has always been nothing but a clone - an exact replica, grown from a strip of old El Patron's skin. Now, age fourteen, Matt suddenly finds himself thrust into the position of ruling over his own country, Opium, on the one-time border between the US and Mexico, stretching from the ruins of San Diego to the ruins of Matamoros. But while Opium thrives, the rest of the world has been devastated by ecological disaster... and hidden somewhere in Opium is the cure. And that isn't all that's hidden within the depths of Opium. Matt is haunted by the

ubiquitous army of eejits, zombie-like workers harnessed to the old El Patron's sinister system of drug growing... people stripped of the very qualities which once made them human. Matt wants to use his newfound power to help stop the suffering, but he can't even find a way to smuggle his childhood love Maria across the border and into Opium. Instead, his every move hits a roadblock - both from the traitors that surround him and from a voice within himself. For who is Matt really but the clone of an evil, murderous dictator?

"Chloe Snow chronicles a year in her high school life, sharing the highs and lows of family, friendship, school, and love"--

The Land of the Silver Apples - Nancy Farmer 2015-07-28

"Like the druidic life force Jack taps, this hearty adventure, as personal as it is epic, will cradle readers in the 'hollow of its hand' (Booklist,

starred review). Jack has caused an earthquake. He was trying to save his sister Lucy from being thrown down a well, but sometimes the magic doesn't quite work out. Not only does Jack demolish a monastery, but Lucy is carried off by the Lady of the Lake, and Jack has to follow her through the Hollow Road, which lies underground. Aided by Pega, a slave, and the berserker Thorgil, Jack encounters hobgoblins, kelpies, yarthkins, and elves—not the enchanted sprites one would expect, but fallen angels who steal human children for pets. In the eighth century, the world is caught between belief in the Old Gods and Christianity, and what Jack and his companions do will decide the fate of both religions. From National Book Award winner Nancy Farmer, this second book in the Sea of Trolls trilogy brilliantly enlarges the world of the first story. Look for the conclusion in *The Islands of the Blessed*.

The House of the Scorpion - Nancy Farmer
2013-08-01

Matt is six years old when he discovers that he is different from other children and other people. To most, Matt isn't considered a boy at all, but a beast, dirty and disgusting. But to El Patron, lord of a country called Opium, Matt is the guarantee of eternal life. El Patron loves Matt as he loves himself - for Matt is himself. They share the exact same DNA. As Matt struggles to understand his existence and what that existence truly means, he is threatened by a host of sinister and manipulating characters, from El Patron's power-hungry family to the brain-deadened eejits and mindless slaves that toil Opium's poppy fields. Surrounded by a dangerous army of bodyguards, escape is the only chance Matt has to survive. But even escape is no guarantee of freedom... because Matt is marked by his difference in ways that he doesn't even suspect.
