Have you ever felt like you failed miserably when you try to communicate? Do you want to build more meaningful relationships and make friends? Are you a communication Pro already and want to dominate negotiations for your next level of success? Do you want to be able to verbally defend yourself - then rule the conversation? Don't worry: IT'S NOT YOUR FAULT Active Listening is not easy. Communication is not easy. Listening to what others have to say and understanding them is hard. Do you think this is something some people are just born with? YOU ARE WRONG! We don't learn it at school or anything like that, but you can master it if you want to. It isn't hard to communicate effectively with people, I'll tell you all of my secrets to persuade and influence people. Many times I've made mistakes which messed up conversations, possible and existing friendships, relationships and work related relationships. Actually... Yes, I used to be just like you I also used to get upset, afraid and doubtful, because of my lack of communication skills. I didn't understand that, because of my ordinary communication skills (which only after I began studying, I realized were that horrible) I was struggling at life. Problems in relationships and at work were caused because of this. This one time my wife was complaining about how I wasn't able to care for her. I got really confused, because we were together for hours everyday, but in her mind I didn't give her the attention she deserved. That day, she went to her family's house to sleep there and I stayed up all night thinking: "Where did I mess up?". The next day she came back late home and we sat in the dinner table to talk, but we actually fought. We fought a lot. She argued I couldn't understand what her feelings, her dreams and her fears were, even though I always "listened" to what she had to say. That was true, because of my mediocre communication skills the woman I loved was having doubt about our marriage. Our relationship was sinking because I couldn't connect to what she was communicating with me: I wasn't actively listening to her. You don't have to almost lose your marriage or your relationship because of your MEDIOCRE communication skills, as I almost did. This book contains the secrets I've gathered throughout the years I have been studying communication. My marriage today is wonderful. Now my wife doesn't complain about how I misunderstand her feelings, and do you know why? Because I can listen to what she has to say and communicate what I think: BECAUSE I SHOW HER I CARE. Here's what you'll learn Why It Is So Important To Actively Listen Common Barriers To Active Listening The Four Components of Active Listening Improving Your Active Listening Skills Reflective Listening And much more... With This Book You'll Be Able To: Say exactly what you need to say Effectively listen to others Understand other's points Tell when others are in agreement with you Tell when someone is lying to you Read many body language signs Persuade others of your ideas or proposals Influence people What are you waiting for? Flirt With Woman Steve Dean 2020-01-16 Do you want to learn how to interpret the body language of the woman of your dreams? Do you want to learn how to attract, start a captivating conversation and flirt and pick up any girl? If yes, then keep reading... More than 90 percent of the communication we put out there is nonverbal. In other words, how a woman evaluates you is only 10 percent to do with what you say. The rest is about your tone, your body language and your facial expressions. It follows, therefore, that your secret weapon in approaching women is going to be your own attitude. What you want to do is exude an air of confidence and self-assurance. Though you don't want to come across as cocky, you do want her to know from the outset that you have every faith in the success of your approach. Right now, at this moment, you aren't feeling that confidence. Either you've been burned in the past attempting to approach a woman or you've never built up the nerve to even try. Whatever the case, you're certainly not feeling the tingle of potential: the telltale twist in your stomach that tells you that you're wondering about the possibilities of where this IS going to go, rather than the one that tells you you're bound to be shot down as soon as you open your mouth. So how do you get that

confidence? It's partly practices, in truth. Once you've tried out the techniques, we'll be covering in this book a few times, you'll have the proof of their success that you need to feel comfortable using them. But it's not all about practice. It's also about adjusting your attitude to become the kind of guy who has a healthy confidence in who he is and what he has to offer to that woman standing over by the bar. Changing your mindset doesn't just change how you perceive this potential encounter and your chances of snagging her number. It also affects how you stand, how you speak, how you hold yourself and so on. It alters everything about the non verbal communication you're putting out there. After all, how you feel affects how you think, which affects how you act. Now, instead of seeing a terrified guy who has no idea what he's doing, she sees a man who is at ease with himself and will be fun and rewarding to talk to. Your attitude is the foundation that we'll be building everything else on top of. The stronger it is, the higher we can build the structure on top of it. This book gives a comprehensive guide on the following: The guide to sexy flirting Flirting without your words Discover masculine traits Interpret the body language of the woman of your dreams The vital strengths & skills and how to obtain them fast Putting it all together Approaching a girl in real Your attitude and behavior Knowing the bad signs of body language The high-status walk Keeping your standards as high as your heels How to get past small talk and connect with him ... What makes this form of manipulation so appealing is that it doesn't involve violence or physical force. It's simply a matter of understanding people, and then playing out their own dark desires against them. Many people truly enjoy being manipulated, but don't know it. They may protest that a certain brand of soda is far better than another, but when they walk into the grocery store their dark unconscious mind will lead them to the brand they truly prefer. Even if a person hates a certain politician, but never votes for anyone else, their own dark psychology will ensure that this crooked politician gets re-elected anyway. Body Language: How to Master the Art of Nonverbal Communication with People (Gain the Unfair Advantage of Persuasion and Read People's Minds in Business) Dean Cruz Body language and nonverbal communication account for roughly 55% of what we communicate. 38% of what we communicate is related to our tonality, and ONLY SEVEN percent is related to WHAT WE ACTUALLY SAY. This makes a lot of sense, if we say "I'm so happy", but our body is slouched, and we say it in a sad tonality, NOBODY will believe it. Likewise, if we say, "I'm so sad", but shout it out like we're excited and happy, we are going to interpret the person as lying or actually feeling happy inside. Body language and tonality matters. Although there are certain gestures that have been declared universal (have a common meaning throughout the world), most gestures mean different things in different cultures, regions, nations and even cities across the world. A certain gesture might mean something good in a certain part of the world but in another, it could be nasty or even an insult. Therefore, before using a gesture one is used to in their own culture, they should first find out the message they would be conveying when they intend to visit another region with a different culture. Otherwise, someone might just break their nose when all they want to do is to tell them how good they look.
