Crossing the Bridge - Sandra Negley 1997-01

2012 - Mark Borax 2010-05-18

2012: Crossing the Bridge to the Future is an engaging personal narrative through the author's apprenticeship with master astrologer William Lonsdale who teaches him how to access a source of great power and creativity buried within the human soul. The book begins in August 1987 on the slopes of Mount Shasta in Northern California as Borax witnesses the Harmonic Convergence, a spiritual and astrological event sparking a 26-year countdown to 2012, the year that marks the "end of history" in the Mayan calendar. Signs indicate that a "major energy shift" is occurring, a turning point in Earth's collective karma powerful enough to change the global perspective of humankind. Borax's mountaintop experiences compel him to seek solutions to his personal turmoil. He meets Lonsdale and together they launch a mystery school to study how the twenty-five-year period between 1987 and 2012 can be used for a cosmic purging of negativity to release humanity's core forces and restore universal balance. En route, Borax and his fellow students discover truths about life after death, karma, reincarnation, past lives, human evolution, and the purpose of our existence on earth. In the tradition of The Teachings of Don Juan, Carlos Castaneda's tales of his shamanic master, 2012: Crossing the Bridge to the Future is a gripping sorcerer's apprentice story

driven by mystical forces, encouraging readers to expand their everyday awareness and challenge their fundamental beliefs about their place in the universe.

The Bridge of Silver Wings 2009 - Aberjhani 2009-05-01

For the past two years (2006-2008) The Bridge of Silver Wings has earned a name for itself both as a series of poems published in different e-zines and as a book first published in 2007. What makes this 2009 edition a special one is the inclusion of five new poems: "Angel of Better Days to Come"; "Midnight Flight of the Poetry Angels"; "Photographed Light of My Grandmother's Soul"; "There upon a Bough of Hope and Audacity"; and, "What Angels Call a Poet." Readers exploring the pages of this book are likely to experience it in different ways as they move back and forth between one poetic state of being and another. The Bridge of Silver Wings 2009 may at times appear to be nothing more than a silk-thin illusion --resembling at moments either a terrifying nightmare or a healing vision--spread across an evening mist. While at other times it will register as solid as a concrete sidewalk or a giant boulder. (from author's Foreword)
