The Coming of God Jurgen Moltmann 2004-05-01 Winner of Grawemeyer Award In this remarkable and timely work - in many ways the culmination of his systematic theology - world-renowned theologian Jurgen Moltmann stands Christian eschatology on its head. Moltmann rejects the traditional approach, which focuses on the End, an apocalyptic finale, as a kind of Christian search for the "final solution." He centers instead on hope and God's promise of new creation for all things. "Christian eschatology," he says, "is the remembered hope of the raising of the crucified Christ, so it talks about beginning afresh in the deadly end." Yet Moltmann's novel framework, deeply informed by Jewish and messianic thought, also fosters rich and creative insights into the perennially nettling questions of eschatology: Are there eternal life and personal identity after death? How is one to think of heaven, hell, and purgatory? What are the historical and cosmological dimensions of Christian hope? What are its social and political implications. In a heartbreakingly fragile and fragment world, Moltmann's comprehensive eschatology surveys the Christian vista, bravely envisioning our "horizons of expectation" for personal, social, even cosmic transformation in God.

Men's Studies Eugene R. My Quests for Hope and Meaning Rosemary Radford Ruether 2013-10-02 "This book is an autobiography tracing Rosemary Radford Ruether's intellectual development and writing career. Ruether examines the influence of her mother and family on her development and particularly her interactions with the Roman Catholic religious tradition. She delves into her exploration of interfaith relations with Judaism and Islam as well. Her educational formation at Scripps College and the importance of historical theology is also a major emphasis. Mental illness has also affected Ruether's nuclear family in the person of her son, and she details the family's struggle with this issue. Finally in this intellectual autobiography, Ruether explores her long concern and involvement with ecology, feminism, and the quest for a spirituality and practice for a livable planet."

Jesus and the Feminists? Margaret Elizabeth Köstenberger 2008-10-17 This resource provides a detailed survey and critique of various feminist interpretations of Jesus and offers a biblical view of men and women in the church and home. The feminist movement has affected every aspect of political and social America, and Christians are becoming increasingly aware of how this movement has impacted the church. The feminist movement has changed the way evangelicals view not only themselves, but also the very Word of God. *Jesus and the Feminists* begins by offering a brief survey of the feminist movement, revealing the radical misunderstanding of Jesus that has resulted from this movement. Köstenberger then critiques the relevant works of well-known feminist scholars and the ways they interpret certain passages of Scripture related to Jesus and his approach to women. This practical resource points the way to a better understanding of the biblical message regarding Jesus' stance toward women and offers both men and women a biblical view of their roles in the church and the home.

Women's Education in the United States Kay S. Wilkins 1979

"The Woman Will Overcome the Warrior" Nicholas John Ansell 1994 This book is an analysis of and response to the feminist theology of Rosemary Radford Ruether. It covers her theological methodology by focusing on her approach to tradition, experience, and normativity. It also discusses her analysis of the origin, nature and development of patriarchy, and her approach to key topics in systematic theology such as anthropology, evil, mariology, ecclesiology, Christology, nature, eschatology, and God. The unifying focus of this wide-ranging study is the relationship between Ruether's feminist and Christian commitments. The author's ideas on what it means to develop a feminist theology in a distinctively Christian way (and a Christian theology in a distinctively feminist way) are worked out in the same areas of systematic, philosophical and biblical theology in which Ruether's thought is analyzed. Co-published with the Institute for Christian Studies.

Liberation Theologies Ronald G. Musto 2020-11-25 First Published in 1991. The following is a comprehensive scholarly bibliography of published materials on the varieties of liberation theology, mostly in book form, available in English. It will also serve as a comprehensive bibliography.

Justice in the Church Benedict M. Ashley 1996 A provocative book on the Church's opposition to women's ordination.

Ethical Exploration in a Multifaith Society Catherine Shelley 2017-03-24 This book considers the theory and application of ethics for a multifaith society. Much ethics taught in the UK has been dominated by Christian ethics, their relation to secularism and by the Enlightenment's reaction against theology as a basis for ethical thought. In contrast to these perspectives this book brings secular and theological ethics into dialogue,

considering the degree to which secular ethics has common roots with theological perspectives from various traditions. The book assesses the application of ethical and theological principles in today's multifaith society. Aiming to enhance ethical understanding and awareness across divergent worldviews, identifying at what points divergence does occur, the author examines topics such as reason and ethics in theology, natural law, utilitarianism and deontology and differences of approach to interpreting religious scriptures. The focus on ethical methods is illustrated through topical concerns in religion and ethics, for example sexuality, marriage and education and religion in relation to global ethics and human rights.

Scripture and Ethics Jeffrey S. Siker 1997 Siker brings together the history of biblical interpretation and the study of uses of the Bible in Christian ethics, to examine how the Bible has actually been used in Christian theological ethics - and in the process profiling eight influential twentieth-century theologians.

Women, Power, and Therapy Marjorie Braude 1988 The woman seriously interested in her personal growth and self-awareness will find this volume indispensable reading! She can learn how to assume power over her relationships, mind, body, and positions in society. Leading feminist therapists provide methods that can help women make their aspirations for power a reality--in the workplace, in social situations, in intimate relationships. Topics include black women and the politics of skin color and hair agoraphobic women and behavior change, unlearning victim behavior, decision-making about contraception, single mothers by choice, female alcoholism and affiliation needs, and much more. This volume is on the cutting edge of the rapidly expanding body of literature and knowledge in women's studies, and describes new and frequently controversial ideas and programs. It deals with issues of power over the intimacies of women's bodies and psyches, as well as power in the workplace, professional societies, and the courts. In order to help the reader understand these issues more fully, this fine book also describes some of the historical and social contexts in which women have not had power or have gained power.

Foundations 1981

A Future for Socialism? Harold Wells 1996 Does Christian faith lead in the direction of socialism, as many theologians of this century have suggested? This interdisciplinary study makes a case for Christian socialism, arguing that social cooperation should have priority over competition, the human and environmental well-being must take precedence over profit.

Homosexuality in the Church Jeffrey S. Siker 1994-01-01 Outstanding authorities on scripture, tradition, reason, biology, ethics, and gendered experience discuss one of the most divisive debates in the church today: the place of homosexuals in the community of faith. The balanced treatment of the issues and the contrasting insights of the essays make this a valuable resource for reflection individually or in groups.

Contemporary American Theologies Deane W. Ferm 2004-04-15 An up-to-date book that surveys almost all of the contemporary schools of Christian thought in America...well structured and methodically developed, clearly written and easy to read.... Ferm does an excellent job of pointing out all the differences among the leading thinkers of each camp.... Ferm's greatest asset is his uncanny ability to synthesize these diverse theologies into a larger conceptual whole, without diminishing their distinctiveness.... A landmark of clarity. Richard Quebedeaux in 'The Christian Century' 'Contemporary American Theologies' assesses the most significant writers and books that make up evangelical, black, Roman Catholic, feminist, and liberation theologies.... Equally useful as an introduction or as a review. Marianne Sawicki in 'Commonweal'

Human Rights in the Constitutional Law of the United States Michael J. Perry 2013-07-08 In the period since the end of the Second World War, there has emerged what never before existed: a truly global morality. Some of that morality - the morality of human rights - has become entrenched in the constitutional law of the United States. This book explicates the morality of human rights and elaborates three internationally recognized human rights that are embedded in US constitutional law: the right not to be subjected to cruel, inhuman or degrading punishment; the right to moral equality; and the right to religious and moral freedom. The implications of one or more of these rights for three great constitutional controversies - capital punishment, same-sex marriage and abortion - are discussed in-depth. Along the way, Michael J. Perry addresses the question of the proper role of the Supreme Court of the United States in adjudicating these controversies.

American Theology, Superhero Comics, and Cinema Anthony Mills 2013-10-01 Stan Lee, who was the head writer of Marvel Comics in the early 1960s, co-created such popular heroes as Spider-Man, Hulk, the X-Men, the Fantastic Four, Iron Man, Thor, and Daredevil. This book traces the ways in which American theologians and comic books of the era were not only both saying things about what it means to be human, but, starting with Lee they were largely saying the same things. Author Anthony R. Mills argues that the shift away from individualistic ideas of human personhood and toward relational conceptions occurring within both American theology and American superhero comics and films does not occur simply on the ontological level, but is also inherent to epistemology and ethics, reflecting the comprehensive nature of human life in terms of being, knowing, and acting. This book explores the idea of the "American monomyth" that pervades American hero stories and examines its philosophical and theological origins and specific manifestations in early American superhero comics. Surveying the anthropologies of six American theologians who argue against many of the monomyth's assumptions, principally the staunch individualism taken to be the model of humanity, and who offer relationality as a more realistic and ethical alternative, this book offers a detailed argument for the intimate historical relationship between the now disparate fields of comic book/superhero film creation, on the one hand, and Christian theology, on the other, in the United States. An understanding of the early connections between theology and American conceptions of heroism helps to further make sense of their contemporary parallels, wherein superhero stories and theology are not strictly separate phenomena but have shared origins and concerns.

Public Practice, Private Law Gary Chartier 2016-04-06 This book elaborates an appealing model of marriage, rooted in love, for same-sex and different-sex couples, that doesn't involve the state.

The Pauline Doctrine of Male Headship James E. Bordwine 2009-05-01

Values, Work, Education 2022-06-13 This book is a collection of reflections and empirical studies which examine the many facets of the meanings of work. The authors are significant scholars in fields of study ranging from ethics to sociology. The book is a text which aims at balancing the academic with the practical and so the chapters often reflect the tensions implicit in such a venture. The reader will find in these pages historical, philosophical, educational, religious, entrepreneurial and many other points of view which combine to emerge as a text which is both encyclopedic in information yet engaging and lively in style. The reader will be able to understand how the meanings of work have changed over the centuries varying according to historical place and point of view. At the same time, the diligent reader will observe the centrality that work has in the lives of people both practically and in terms of life quests. Work has previously been defined as an activity that produces something of value for other people. This definition does not even begin to include the information about work that is presented in this book. The reader will feel a invigorating sense of worth from this book.

Feminism and Christian Tradition Mary-Paula Walsh 1999-05-30 This annotated bibliography, a volume in the Greenwood series, Bibliographies and Indexes in Religious Studies, provides access to the numerous writings, from the 1960s through the 1990s, on feminism and Christian tradition. Major feminist theologians and sociologists are represented. As a guide to further research, this cross-disciplinary approach presents themes and issues in both a historical and a topical framework. An extensive overview of feminism in relation to the women's movement, women's studies, sociology and American religion introduces the literature and provides a historical context for the nearly one thousand entries that follow. Cross-referenced throughout, the literature is presented in six thematic categories that include introductory and background materials, feminism and the development of feminist theology, topical literatures in feminist theology, feminism and womanist theology, religious leadership of women, and responses and recent developments. Separate author, subject, and title indexes complete the volume.
