Ulysses James Joyce 2022-10-19 Loosely based on the Odyssey, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

The Rosy Crucifixion: Sexus Henry Miller 1987 The first book of a trilogy of novels known collectively as "The Rosy Crucifixion." It is autobiographical and tells the story of Miller's first tempestuous marriage and his relentless sexual exploits in New York. The other books are "Plexus" and "Nexus."

Sexus Henry Miller 2021-12-17 "Sexus" se centra sobre todo en las experiencias sexuales del narrador-protagonista, y éstas se narran con una absoluta carencia de prejuicios, de un modo directo pero no por ello descuidado, sino todo lo contrario: dotando a esta temática de una dignidad literaria que hasta entonces muy raramente había tenido. La fuerza expresiva, la imaginación metafórica y la pasión en la creación verbal convirtieron esta novela en uno de los clásicos más escandalosos de todos los tiempos, pero, sobre todo a raíz de la continuación de la trilogía, pronto se comprendió que esta novela es un paso previo y necesario en la exploración de las dimensiones

principales del ser humano. Con "Sexus" abre Henry Miller la trilogía que sin mucho acierto se ha conocido a veces como La crucifixión rosada, formada por "Sexus", "Plexus" y "Nexus". Si bien los Trópicos descubrieron a muchos lectores la fuerza y la potencia expresiva de Miller y supusieron una piedra de toque para la narrativa posterior, esta trilogía mantuvo el mismo nivel, desprendiéndose de las referencias a espacios geográficos para centrarse en las vivencias del narrador-protagonista. Con ello marcaba un camino a la llamada narrativa del yo y estrechaba las vinculaciones entre trayectoria profesional y amorosa y exploración de la propia interioridad. Esta trilogía nos descubre nuevas facetas del arte de Miller y forma parte de la obra narrativa mayor de uno de los autores más personales de todos los tiempos.

Prozatori și esești Geo Vasile 2022-03-16 Geo Vasile ne propune o selecție riguroasă de 100 de prozatori și esești aleși din întreaga istorie a literaturii. Elementul inedit, provocator și inevitabil în acest context este selectarea și plasarea, evident, justificata, a unor reductibili prozatori și esești romani în contextul generos și selectiv deopotrivă al concertului universal al literaților. Astfel, alături de autori precum Paul Auster, Saul Bellow, Mario Vargas Llosa, Julio Cortazar, Henri Miller, Philip Roth etc., sunt așezați Nicolae Breban, Augustin Buzura, Petru Cimpoeșu și mai tinerii săi colegi, argumentația adusă în arena de litere de istoricul și criticul literar Geo Vasile fiind una perfect justificată, iar criteriul de selecție - unul atotputernic: valoarea.

Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians"--Provided by publisher.

The Books in My Life Henry Miller 1969 In this unique work, Henry Miller gives an utterly candid and self-revealing account of the reading he did during his formative years.

Tropic of Cancer Henry Miller 2015-06-04 Shocking, banned and the subject of obscenity trials, Henry Miller's first novel *Tropic of Cancer* is one of the most scandalous and influential books of the twentieth century. *Tropic of Cancer* redefined the novel. Set in Paris in the 1930s, it features a starving American writer who lives a bohemian life among prostitutes, pimps, and artists. Banned in the US and the UK for more than thirty years because it was considered pornographic, *Tropic of Cancer* continued to be distributed in France and smuggled into other countries. When it was first published in the US in 1961, it led to more than 60 obscenity trials until a historic ruling by the Supreme Court defined it as a work of literature. Long hailed as a truly liberating book, daring and uncompromising, *Tropic of Cancer* is a cornerstone of modern literature that asks us to reconsider everything we know about art, freedom, and morality. 'At last an unprintable book that is fit to read'

Anti-Oedipus Gilles Deleuze 2004-09-01 'A major philosophical work by perhaps the most brilliant philosophical mind at work in France today.' Fredric Jameson Gilles Deleuze (1925-1995) was Professor of Philosophy at the University of Paris VIII. He was a key figure in poststructuralism, and one of the most influential philosophers of the twentieth century. Félix Guattari (1930-1992) was a psychoanalyst at the la Borde Clinic, as well as being a major social theorist and radical activist. Anti-Oedipus is part of Deleuze and Guattari's landmark philosophical project, Capitalism and Schizophrenia - a project that still sets the terms of contemporary philosophical debate. Anti-Oedipus is a radical philosophical analysis of desire that shows how we can combat the compulsion to dominate ourselves and others. The Phantom Image Patrick R. Crowley 2019-12-10 Drawing from a rich corpus of art works, including sarcophagi, tomb paintings, and floor mosaics, Patrick R. Crowley investigates how something as insubstantial as a ghost could be made visible through the material grit of stone and paint. In this fresh and wide-ranging study, he uses the figure of the ghost to offer a new understanding of the status of the image in Roman art and visual culture. Tracing the shifting practices and debates in antiquity about the nature of vision and representation, Crowley shows how images of ghosts make visible structures of beholding and strategies of depiction. Yet the figure of the ghost simultaneously contributes to a broader conceptual history that accounts for how modalities of belief emerged and developed in antiquity. Neither illustrations of ancient beliefs in ghosts nor depictions of afterlife, these images show us something about the visual event of seeing itself. The Phantom Image offers essential insight into ancient art, visual culture, and the history of the image.
