A Truckers Story - Jerry Lawyer 2017-01-10

Meet Jack Campbell. He's a recent graduate from law school. His entire life has been dedicated to this one goal. After all it was the family business. His father and grandfather were lawyers. Everything was going along as planned. That is until his drive home from school. He casually stopped for lunch at a truck stop, as was his custom when driving home. There he started up a conversation with a man named Homer White. Homer was a truck driver. Homer told Jack about the amazing things he had seen and done while driving a truck. To a young man fresh out of college this was awe inspiring. While mesmerized by Homers stories Homer asked Jack, " How would you like to take the summer off and drive a truck and see this country?" That one question and Jack's acceptance changed Jack's life forever. Don't get to thinking that you know the story already. What happens is not what you might think. It's much stranger.

The Salty Key Inn Series - Judith Keim 2021-11-11

Sheena Sullivan Morelli and her sisters, Darcy and Regan, receive the unexpected news that their Uncle Gavin Sullivan, the black sheep of the family, has left them a hotel on the Gulf coast of Florida. The gift comes with a twist. They must live together for one year at the hotel and prepare the hotel to receive guests within that year. Sheena, eager to escape her role of unappreciated wife and mother, can't wait for the opportunity to find herself. Dreams of sitting on the beach sipping margaritas are shattered when they see the property is in need of renovation. But they begin their work of meeting the challenge. If they succeed, the bulk of Gavin's estate will be theirs. Facing the unexpected, working together, the three sisters learn a lot about each other and the gift of family love. Darcy Sullivan and her two sisters continue to work hard at the Salty Key Inn, the small, Florida hotel they unexpectedly inherited. In order to inherit the rest of Uncle Gavin's sizeable estate, they must meet his challenge to open the neglected hotel by the end of the year. Darcy figures once they meet the challenge, she'll take off, travel the world, and maybe, just maybe, begin writing the world's best novel. When she meets Nick Howard, an older man who is a reporter for the local newspaper and takes over his weekly column, her life changes. Under his tutelage, she writes about local residents, learning to see people in a different way—especially after meeting a cousin no one knew about. Her joy at having the part-time job that's always been her dream is shattered when she learns Nick is dying. For support, she turns to Austin Blakely, whose grandmother is terminally ill, and through their growing relationship, comes to understand what true love is. As Regan Sullivan continues to work with her sisters, Sheena and Darcy, to meet their Uncle Gavin's challenge to make the Salty Key Inn a success, she wonders why she can never find the man of her dreams. Her sisters are happily settled with men they love. Why can't she do the same? When she's involved in a motorcycle accident with Brian Harwood, Regan learns to think differently about both her appearance and herself. And as

she deals with her injuries and helps Brian recover from the accident she feels guilty about causing, Regan discovers that the love she's always sought has been there all along. Sheena Sullivan Morelli and her sisters, Darcy and Regan, work to complete their Uncle Gavin's challenge of turning his rundown hotel into a profitable operation within one year. Winning means earning a share in their uncle's sizable estate. More than that, it determines how they'll spend the rest of their lives. Sheena wants to stay on at the hotel, overseeing the hotel operation. But Darcy and Regan want to move on with their lives—Darcy writing a novel and Regan going into the interior decorating business with Mo. But life has other plans for them. And in the end, all three realize that the only thing that really matters is finding—and keeping—family.

Science and Babies - Institute of Medicine 1990-02-01

By all indicators, the reproductive health of Americans has been deteriorating since 1980. Our nation is troubled by rates of teen pregnancies and newborn deaths that are worse than almost all others in the Western world. *Science and Babies* is a straightforward presentation of the major reproductive issues we face that suggests answers for the public. The book discusses how the clash of opinions on sex and family planning prevents us from making a national commitment to reproductive health; why people in the United States have fewer contraceptive choices than those in many other countries; what we need to do to improve social and medical services for teens and people living in poverty; how couples should "shop" for a fertility service and make consumer-wise decisions; and what we can expect in the future—featuring interesting accounts of potential scientific advances.

Spiritual Fertility - Dr. Julie Von 2019-07-16

"The dynamic spark that is responsible for creating each new human being cannot be reduced to a mass of cells and biochemical processes. There is a deeper mystery at play that women who are struggling with fertility can tap into." This book explains how to use the tools of spirituality and psychology to relax the endocrine system, change your perspective, and get pregnant. Everyone is fertile; however, our common standards for measuring fertility are faulty. Today, our currently accepted narratives around fertility offer much in the way of diagnosis, but little in the way of customized care and consideration of a woman's entire mind, body, and spirit. The dynamic spark responsible for creating each new human being cannot be reduced to a mass of cells and biochemical processes. There is a deeper mystery at play, one that women struggling with fertility can tap into. In this ground-breaking book, holistic fertility doctor Dr. Julie Von shows women a new way to

approach fertility so that the entire experience of becoming pregnant is energetically uplifting. She shares tools and techniques that help nourish and build women's receptive energy to connect to the spiritual and unseen aspects of creating life. Dr. Von helps readers understand that principles of cosmic timing can be applied to all processes having to do with fertility and child-rearing, from freezing eggs, to conceiving, to choosing to adopt. With close to 20 years of clinical experience, Dr. Von has witnessed firsthand the power of the spiritual within fertility to balance the hormonal system and promote a healthy pregnancy.
