After Sherlock Holmes LeRoy Lad Panek 2014-07-29 The appearance of Sherlock Holmes in The Strand Magazine in 1891 began a stampede of writers who wanted to emulate, build upon or even satirize Arthur Conan Doyle's work. This book explores the development of detective fiction during the critical period between Conan Doyle's creation of Holmes and the advent of the Golden Age of the detective story during World War I. Both British and American detective writers of the period are surveyed--as well as writers who turned to gentleman burglars and master criminals.

Ideas, customs and social behaviour of a particular people or society are also its 'culture'. Contrary to what we think, it is not easy to describe 'culture', nor is it easy to write the cultural history. Writing the history of Bengali culture is even more difficult because Bengali society is truly plural in its nature, made even more so by its political division. The two main religious communities that share this culture are often more aware of the differences between them than the similarities. Nonetheless, the people remain bound by history and a shared language and literature. Ghulam Murshid's *Bengali Culture over a Thousand Years* is the first non-partisan and holistic discussion of Bengali culture. Written for the general reader, the language is simple and the style lucid. It shows how the individual ingredients of Bengali culture have evolved and found expression, in the context of political developments and how certain individuals have moulded culture. Above all, the book presents the identity and special qualities of Bengali culture. The book was originally published in Bengali in Dhaka in 2006. This is the first English translation.

*Making the Great Book of Songs* Hilary Kilpatrick 2003-09-02 This is the first systematic literary study of one of the masterpieces of classical Arabic literature, the fourth/tenth century Kitâb al-aghânî (The Book of Songs) by Abû I-Faraj al-Isbahânî. Until now the twenty-four volume Book of Songs has been regarded as a rather chaotic but priceless mine of information about classical Arabic music, literature and culture. This book approaches it as a work of literature in its own right, with its own internal logic and coherence. The study also consistently integrates the musical component into the analysis and proposes a reading of the work in which individual anecdotes and poems are related to the wider context, enhancing their meaning.

**Being Middle-class in India** Henrike Donner 2012-06-25 Hailed as the beneficiary, driving force and result of globalisation, India's middle-class is puzzling in its diversity, as a multitude of traditions, social formations and political constellations manifest contribute to this project. This book looks at Indian middle-class lifestyles through a number of case studies, ranging from a historical account detailing the making of a savvy middle-class consumer in the late colonial period, to saving clubs among women in Delhi's upmarket colonies and the dilemmas of entrepreneurial families in Tamil Nadu's industrial towns. The book pays tribute to the diversity of regional, caste, rural and urban origins that shape middle-class lifestyles in contemporary India and highlights common themes, such as the quest for upward mobility, common consumption practices, the importance of family values, gender relations and educational trajectories. It unpacks the notion that the Indian middle-class can be understood in terms of public performances, surveys and economic markers, and emphasises how the study of middle-class culture needs to be based on detailed studies, as everyday practices and private lives create the distinctive sub-cultures and cultural politics that characterise the Indian middle class today. With its focus on private domains middleclassness appears as a carefully orchestrated and complex way of life and presents a fascinating way to understand South Asian cultures and communities through the prism of social class.

study of north Indian migrants who underwent two waves of emigration—from the Bhojpuri region to the Dutch colony of Suriname between 1873 and 1916 to work on sugar, coffee, cotton and cocoa plantations, and their descendants who moved to The Netherlands following the Surinamese independence in 1975. Drawing on archival records, secondary literature, folk songs, rare photographs, and extensive fieldwork across continents—the Bhojpuri region, Mumbai, Surat and Ghaziabad in India, and Suriname and The Netherlands—this book will be useful to scholars and researchers of culture studies, labour studies, sociology, modern Indian history, migration and diaspora studies. It will also interest the Indian diaspora, especially in Europe and the Americas.
