Women in Contemporary Culture Lesley K. Twomey 2000 This is the only comparative study of its kind, investigating how women construct their roles within the public sphere and highlighting the ways in which traditional versus modern values impact on female identity in France and Spain. Which female figures are proposed for our admiration? Who proposes them and what values do they represent? This study embarks on an analysis of such cultural icons, going on to address contemporary roles and issues concerning women in the two countries. Finally, Twomey shows how these two strands of discussion inform and interact with each other. The 20th Century.

Women and Bullfighting Sarah Pink 2020-07-13 This book investigates the popularity and success of contemporary women performers in bullfighting culture, which has been framed by a discourse of 'traditionalist' masculinity. This examination of the changing situation of women in the bullfighting world is used to explore the ways in which gender is represented, enacted and negotiated in contemporary Spain. The bullfight in the 1990s is in an ambiguous position: it is a 'traditional' performance in a changing consumer society. In order to survive, it needs to adapt itself to a wider social context and, in particular, to international media coverage. It is in this context that the current success of women performers is located. However, women performers are a contested phenomenon in the bullfighting world: there is heated debate over their acceptability, much of which focuses on the body. Moreover, the entry of women into the bullfight questions existing definitions of the sport's ritual structure and of gender relations in Spain. Thoroughly researched and compelling to read, *Women and Bullfighting* addresses these issues and argues that existing traditionalist approaches to gender, bullfighting and ritual in Spain need to be revised in order to locate women bullfighters in the context of a richly varied culture which is increasingly affected by the media and contemporary patterns of consumption. This provocative book will be of interest to researchers and students of anthropology, gender studies, sociology, cultural studies, media studies and Spanish studies.

Spanish Women's Writing 1849-1996 Catherine Davies 1998-01-01 Traces the tradition of Spanish women's writing from the end of the Romantic period until the present day. Professor Davies places the major authors within the changing political, cultural and economic context of women's lives over the past century-and-a-half — with particular attention to women's accounts of female subjectivity in relation to the Spanish nation-state, government politics, and the women's liberation movement.

Women's Narrative and Film in 20th Century Spain Kathleen Glenn 2017-09-25 *Women's Narrative and Film in 20th Century Spain* examines the development of the feminine cultural tradition in Spain and how this tradition reshaped and defined a Spanish national identity. Each chapter focuses on representation of autobiography, alienation and exile, marginality, race, eroticism, political activism, and feminism within the ever-changing nationalisms in different regions of Spain. The book describes how concepts of gender and difference shaped the individual, collective, and national identities of Spanish women and significantly modified the meaning and representation of female sexuality.

How To Pick Up Spanish Girls Yoonj Kim 2012-02-08 ABOUT THE BOOK España. The country's Spanish name rolls off the tongue so easily, provoking images of a lazy afternoon during siesta as warm breezes gently stir you awake. Upon awakening, you would stroll over to the nearest restaurant on Las Ramblas, Barcelona's most famous street, and sit down for some steaming-hot tapas. As you knock back a glass of wine while waiting for your order, the thought hits you: if only you had a lovely Spanish lady by your side to complete this perfect moment. This book will attempt to help you find that dark-haired, boisterous woman of your dreams. Playboys and voyeurs, however, beware. Since this guide is written by a girl, respect and good intentions will be requirements on the journey. But if you heed my woman's intuition to the end, with a little bit of luck and the key foreign languages phrases in this book, you will be successful no matter what your aim, be it a first date or long-term relationship. MEET THE AUTHOR Having trudged through four continents and lived in two countries by the age of 21, Yoonj considers herself a citizen of the world. It is through this perspective that she approaches everything in her life, including writing. Having studied journalism and

international studies at Northwestern University, she is keen to tell stories of people and events around the world. She has previously written for The Chicago Tribune, The Orange County Register, and dabbled in documentary production at CNN. Her next stop will be e.tv, a television channel in Johannesburg, South Africa, where in her free time she hopes to indulge her other interests of food, drink, and dance. EXCERPT FROM THE BOOK So you're at the club, or cafe, or whatever your social venue of choice is, to meet people. You look around and spy over in the corner a tanned shoulder, dark eyelashes, a beautiful smile. A chica bonita. You're dying to go over and talk to her but you have absolutely no idea what to do, what to say, or even which smile to give her. My advice to you: have no worries. Spanish girls, at least the many I've met through traveling, possess a wonderful combination of qualities: they stay relaxed while being vivacious talkers. All you will need is an interesting fact about yourself, so you're basically covered since by virtue of being a foreigner in Spain (or Mexico, or any other Spanish-speaking country), you're instantly interesting. Use that to your advantage, since one of the best ways to experience a new country is to meet new people. Now all you need to do is straighten your collar, fix that cowlick, and head on over to her armed with these Spanish terms. Buy a copy to keep reading!

Making Waves Anniversary Volume Ann Davies 2021-02-10 Gender and women's studies have formed part of the academic landscape for many years, but while the field is now established enough to have developed in depth and perspectives, there remain many areas of significance yet to be explored—most significantly, much of the work carried out has remained rooted in the Anglo-American context. Those working outside this context are increasingly aware of the need to understand women in different cultural contexts in order to determine whether, to what extent and how representations of women and cultural contexts are interactive and dynamic concepts. The current volume contributes to the growing interest in the field of women and culture in the Hispanic and Lusophone worlds and shows how women writers, researchers, teachers and students have always made waves to counteract the complacency, prejudice and tradition that threatens to ignore or subsume them. The volume draws on literary study—the starting point for much of the early work on gender in Spain, the Lusophone world and Latin America—but also goes beyond it, to discuss women's interaction not only with literature but also with art, and language itself, in the Hispanic and Lusophone contexts. It acts as a showcase for contemporary scholarship undertaken in Hispanic and Lusophone gender studies, developing earlier insights and forging new ones, to refine the debate continuing in the subject. The contributors include both established scholars with a proven track record and promising newcomers to the field. The volume arises from the individual research projects and sustained discussions of Women in Spanish, Portuguese and Latin American Studies (WiSPs), an organisation that exists to promote scholarship by and about women in the field of Iberian, Lusophone and Latin American Studies. This volume celebrates the first seven years of WiSPs' life and presents some of the research presented under its auspices at annual conferences and study days.

Mother & Myth in Spanish Novels Sandra J. Schumm 2011-08-16 Remembering the forgotten mother is a major theme in Myth & Mother in Spanish Novels and reflects the current interest in the recuperation of historic memory in Spain. The novels in this study feature mature protagonists who recall their mothers as a way to define their own identities and to nullify the fictional matricide prevalent in post-war Spanish novels; this twenty-first-century fiction highlights the haunting presence of the mother and begs comparison with myth.

The Oxford Encyclopedia of Women in World History Bonnie G. Smith 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive, 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences, and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies; geography and history; comparative culture and society, including adoption, abortion, performing arts; organizations and movements, such as the Egyptian Uprising, and the Paris Commune; women and gender studies; and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued, go-to resource for scholars, college and high school students, and general readers alike.

Courtship Customs in Postwar Spain Carmen Martín Gaité 2004 She calls attention to the hypocrisy of the system, to the image versus the reality, and to how certain watchwords like "rationing" and "restriction" went beyond their economic applications to touch on personal behavior and attitudes. "Themes she touches on in the nine chapters (and epilogue) include proper dress and behavior for women; a young woman's limited future; the influence of the Falange (Fascist) party on society and on individual behaviour; the "rebel" girl; family life; sex; cinema and the Spaniard; and courtship and the stages of relationship."

The "strange Girl" in Twentieth Century Spanish Novels Written by Women Ellen Cecilia Mayock 2004 "With an eye to the rather insular, particular development and definition of feminism in Spain, the author recognizes that the twentieth century has been a period of great change for peninsular women authors. Her study of the creative compromises wrought by severe oppression followed by relative liberation, all within the context of Spain's specific religious and regional influences, illustrates the unique positioning of these women writers as shown through their female characters. While this is reflection of the current scholarship in Women's Studies (examining the feminist resonance of the construction of female identity through texts written by women about women), it is one that is in its first stages of development in Spanish criticism and has been primarily author-specific. Ellen C. Mayock's research provides a more panoramic view, so to speak, facilitating an overview of progression between trends, as opposed to a singular progression of a single author within the context of era- a very positive move that allows for full comprehension."--BOOK JACKET.

Spanish Women Writers and the Essay Kathleen Mary Glenn 1998 Never before has a book examined Spanish women and their mastery of the essay. In the groundbreaking collection *Spanish Women Writers and the Essay*, Kathleen M. Glenn and Mercedes Mazquiarán de Rodríguez help to rediscover the neglected genre, which has long been considered a "masculine" form. Taking a feminist perspective, the editors examine why Spanish women have been so drawn to the essay through the decades, from Concepción Arenal's nineteenth-century writings to the modern works of Rosa Montero. Spanish women, historically denied a public voice, have discovered an outlet for their expression via the essay. As essayists, they are granted the authority to address subjects they personally deem important, discuss historical and sociopolitical issues, and denounce female subordination. This genre, which attracts a different audience than does the novel or poem, allows Spanish women writers to engage in a direct dialogue with their readers. Featuring twelve critical investigations of influential female essayists, *Spanish Women Writers and the Essay* illustrates Spanish women writers' command of the genre, their incorporation of both the ideological and the aesthetic into one concise form, and their skillful use of various strategies for influencing their readers. This fascinating study, which provides English translations for all quotations, will appeal to anyone interested in nineteenth- and twentieth-century Spanish literature, comparative literature, feminist criticism, or women's studies.

Making Modern Spain Azariah Alfante 2023-11-10 In this elegantly written study, Alfante explores the work of select nineteenth-century writers, intellectuals, journalists, politicians, and clergy who responded to cultural and spiritual shifts caused by the movement toward secularization in Spain. Focusing on the social experience, this book probes the tensions between traditionalism and liberalism that influenced public opinion of the clergy, sacred buildings, and religious orders. The writings of Cecilia Böhl de Faber (Fernán Caballero), Gustavo Adolfo Bécquer, Benito Pérez Galdós, and José María de Pereda addressed conflicts between modernizing forces and the Catholic Church about the place of religion and its signifiers in Spanish society. Foregrounding expropriation (government confiscation of civil and ecclesiastical property) and excommunication (the expulsion of religious communities), and drawing on archival research, the history of disentanglement, cultural theory, memory studies, and sociology, Alfante demonstrates how Spain's liberalizing movement profoundly influenced class mobility and faith among the populace.

Contemporary Galician Women Writers Catherine Barbour 2020-09-28 Galician literature has historically played an integral role in the consolidation of Galician identity. Yet female novelists writing in Galician have only managed to achieve visibility in the Galician cultural sphere as recently as the turn of the twenty-first century; their contemporaries who opt to write in Spanish, moreover, are generally overlooked. This foundational study of contemporary narrative by Galician women in both languages examines the work of writers with disparate and often conflicting political and linguistic ideologies: Teresa Moure (b. 1969), Luisa Castro (b. 1966) and Marta Rivera de la Cruz (b. 1970). Catherine Barbour argues that the diverse manifestations of Galician identity in their novels, which defy institutional parameters in terms of language, politics and gender, suggest the need for a more porous understanding of Galician literature and identity that reflects the plurality of the Galician experience. Catherine Barbour is Lecturer in Spanish at the University of Surrey.

Politically Writing Women in Hispanic Literature Martha Lorena Rubí 2011 This groundbreaking study explores feminist theory and literary criticism embedded in seventeen works by Hispanic American authors and Latina writers in the United States. The books bring out women's philosophic and historic concepts of becoming a woman politically in the public sphere of society. Philosophers like Luce Irigaray and Deleuze and Guattari have realized that woman's representation in philosophic discursions are missing. The universal "mankind" or the omnipresent "self" can no longer ignore that women have different experiences than man in both the private and public realm. Each aesthetic work whether novel, poem or short story brings a woman-centered concern written by a woman author. The first fourteen lie in diversity; historic, national, cultural and ethnic experiences that Hispanic women undergo daily or during times of social upheaval, mainly dictatorships. How they write imparts experience and action in her trials of becoming multiple selves or subjectivities which theorists and female critics alike identify is missing from two thousand years of Western Philosophy. The stories are unique as the introduction underlines the basis of the concept of becoming which women may embrace in writing themselves politically in literature. The last four works by U.S. Latinas is further problematized through the process of immigration. Hispanic women on their way to becoming Americans have many factors to consider: race, gender, ethnicity, education and social class, which applies to all the main woman characters in each selective work. The criterion is set in the Introduction and applied to work which inspired it. Written from a multicultural standpoint draws from an interdisciplinary perspective whether, psychology, economics, feminist theories, philosophy and history. The study intends to look at ways of thinking the woman question and how she defines herself in the process.

The Bible in Spain and the Gypsies of Spain George Henry Borrow 1848

Conference on the Educational and Occupational Needs of Hispanic Women 1980

Reflection in Sequence Sandra J. Schumm 1999 The codes of conduct imposed on females by Spain's dictator Francisco Franco after the Spanish Civil War (1936-39) created a stifling environment for women until his death in 1975. Beginning with Carmen Laforet's 1944 Nadal Prize-winning novel *Nada*, novels by women - many of which explore female identity - began to proliferate in Spain. The works examined in this study - *Nada*, *Primera memoria* (1960) by Ana Maria Matute, *La placa del Diamant* (1962) by Merce Rodoreda, *Julia* (1969) by Ana Maria Moix, *El cuarto de atrás* (1978) by Carmen Martin Gaité, *El amor es un juego solitario* (1979) by Esther Tusquets, and *Questio d'amor propi* (1987) by Carme Riera - feature female protagonists struggling for self-realization and, by extension, for change in a restrictive Spanish society. Schumm's analysis of the seven novels demonstrates how examination of metaphoric tropes and mirror images provides insight into the protagonists' development.
