During 1924, before his last address in September, Rudolf Steiner gave over eighty lectures on the subject of karma to members of the Anthroposophical Society. These profoundly esoteric commentaries examine the underlying laws of reincarnation and karma, and explore in detail the incarnations of specific historical figures. In Rudolf Steiner's words, the study of karma is '... a matter of penetrating into the most profound mysteries of existence, for within the sphere of karma and the course it takes lie those processes which are the basis of the other phenomena of world existence...' In this eighth and final volume of the series, Rudolf Steiner offers insights on a variety of subjects, including Cosmic Christianity, the Michael impulse, the Arthur and Grail streams of wisdom, as well as the individualities of Gregory VII, Haeckel, Swedenborg, Loyola, Haroun al Raschid, Byron, Voltaire and others.

RUDOLF STEINER'S MISSION AND ITA

WEGMAN - Margarete and Erich Kirchner-

Bockholt 2016-04-04

'Because I felt that he knew how things were, I said simply: "I will stay with you." Then he said significant things to me that I was not to repeat. A very ancient karma existing between him and myself was renewed. It was not until many years later that I first realised the significance of that meeting.' - Ita Wegman Ita Wegman was one of Rudolf Steiner's most important co-workers, collaborating with him principally in the field of Medicine - co-authoring the key book *Extending Practical Medicine* and heading the Medical Section of the School of Spiritual Science. In the background to that external work, however, was an esoteric connection. In this seminal work of karma research, the authors attempt, sensitively and with responsibility, to shed light on that spiritual and karmic history. Written for members of the Anthroposophical Society, this book is a profound study of a series of different incarnations linked to the figures of Ita Wegman and Rudolf Steiner. Spread over six disparate lifetimes, they range from Gilgamesh and Eabani (Enkidu) in Uruk, ancient Chaldea, to the Goetheanum in Dornach, Switzerland, the twentieth-century setting of the world centre of anthroposophy. Based on copious historical research, verbal statements and not a little

spiritual insight, this rare and valuable work, reprinted here for the first time, features many illustrations and facsimiles of documents and personal letters.

Time of Decision with Rudolf Steiner -

Friedrich Hiebel 1989-12

This fascinating recollection of the early days of the Anthroposophical Society offers a unique perspective on Rudolf Steiner's work and his relationship to his students. Of particular interest to our readers will be the chapters on the Christmas Conference of 1923 for the foundation of the Anthroposophical Society. Hiebel attended the meeting, and his lively descriptions and warm style let those solemn events rise up again in our souls. He recreates the solemn, sacred mood of the laying of the Foundation Stone, and provides insights into the structure and meaning of the Foundation Stone verses.

Karmic Relationships - Rudolf Steiner 1971

At the end of his life, Rudolf Steiner took up the task that was his special destiny: to bring to the West a knowledge of reincarnation and karma. To do this, he gave over eighty lectures in 1924 in which he explicitly and concretely revealed the destinies of various individuals from one life to the next in order to show how the general laws of karma operate in individual cases. He also revealed many details of the karmic streams of the members of the Anthroposophical Society.

These volumes constitute an immeasurable contribution to the understanding of reincarnation and karma, and the tasks of the Anthroposophical Society in connection with the Archangel Michael.

Karmic Relationships: Volume 7 - Rudolf Steiner 2013-10-15

These profoundly esoteric lectures examine the underlying laws inherent in reincarnation and karma. In Steiner's words, the study of karma is "... a matter of penetrating into the most profound mysteries of existence, for within the sphere of karma and the course it takes lie processes which are the basis of the other phenomena of world existence..." This volume focuses on human experiences after death and before a new birth; karma in world history; the cosmic nature of Christ; waking, dreaming, sleeping; and the physical effects of karma.
