[How to Close a Museum](#) - Susana Smith Bautista 2021-06-15

How to Close a Museum: A Practical Guide answers your questions about closing a museum. Even if you are just considering your options during difficult times and planning for your future, this book takes you through all the legal, ethical, and operational questions to start thinking about. It clearly lays out all the steps to follow to dissolve the nonprofit corporation, how to work with the board, disperse assets, create a final staffing plan, media relations, archival materials, community relations, and how to deal with donors and preserve the legacy of the organization. Included in the book are valuable forms, creative ideas, and sample documents to save you time. Written by Dr. Susana Bautista, an experienced museum administrator, curator, and museologist, who personally went through this process of closing a museum as the last executive director of the Pasadena Museum of California Art in 2018. She will recount her experiences and lessons learned, as well as those of other museum leaders who have gone through similar experiences, so that all museum professionals will be better prepared for what is always a stressful and emotional experience.

[Sex in the Museum](#) - Sarah Forbes 2016-04-05

When Forbes, an anthropology student, stumbled upon a museum dedicated to sex she hesitated to apply for a job. Twelve years later she proudly sports her title as Curator of Sex. Here she invites readers to

travel from suburban garages where men and women build sex machines, to factories that make sex toys, to labyrinthine archives of erotica collectors. She asks readers to grapple with the same questions she did: when it comes to sex, what is good, bad, deviant, normal? Do such terms even apply? And, in our hyper-sexualized world, is it still possible to fall in love?

Operating a Museum for Profit - Flannery Donley 2014

A few professionals are suggesting museums consider a for-profit model because of recent funding challenges facing museums and the rise of social entrepreneurs and social benefit corporate structures. However, little is known about the small number of for-profit museums that exist in the United States today, in part because they are private entities and are not easily identifiable. This qualitative research seeks to understand how a for-profit museum operates and identify possible trends across the sector. One case study consisting of an interview and facilitated task was conducted with a for-profit museum, the Museum of Sex in New York City. Using this information, a business model was created to better understand how the museum operates. Additionally, a cross-sector analysis was completed using two other prominent for-profit museums. The findings suggest that the Museum of Sex utilizes programing to create a space to experience and discuss sex without censorship through the lens of an historical or scientific approach, has a wide range of one-time visitors, and utilizes physical, intellectual, human, and financial resources to make its business model work. All three for-profit museums analyzed have a permanent collection and capitalize on a niche field, and two of the three publicize corporate sponsorship opportunities. This exploratory research can be used to inform the dialogue on alternative corporate structures available to cultural institutions while providing a baseline of understanding about for-profit museum operations.

Sex Museums - Jennifer Tyburczy 2016-01-11

Museums have lengthy history, going back to the Renaissance Cabinets of Curiosity, and they are indices of changing fashions of perception insofar as the categories museum curators use to classify objects change over time. The major focus of Tyburczy's study is sexuality on display, which sets up, in turn, her investigation of the effects of museum display on the history of sexuality. Historical context for the museum is one of her themes (and how categories of normativity and perversity change over time), with another theme being the work of sex museums in redefining what sex means in the modern public sphere; she also folds in consideration of the pleasures and dangers of exhibiting marginalized sexual subjects (women, nonwhite races, LGBT individuals, and the like); last, she explores the paradox of asserting (as she does) that all museums are sex museums bodies move around and toward objects on display, they reshape the typical dances of museum-goers along with their preconscious motivations in visiting a museum. She proposes that explicit display or restagings of sexual artifacts provides new ways for approaching and understanding issues of desire, sexual identity, and sexual practices as they intersect with the history of the modern museum and with sexual history during the past two centuries. Her fieldwork sites are: the Leather Archives & Museum in Chicago, the Museum of Sex in New York, the World Erotic Art Museum in Miami Beach, and El Museo

del Sexo in Mexico City. Such institutions allow Tyburczy to show how alternative sexuality (inclusive of kink, fetish, and sadomasochistic cultures) and slavery dangerously crisscross on the surface of objects. There are plenty of cases here, in short, to keep the casual reader titillated and the erudite reader surprised."
