Anal Sex Tips For Guys And Girls - Angelicka Wallows 2013-07-19

I have always been interested in trying new sorts of pleasures, and obviously anal sex is one of them. I admit that I started quite early and got the chance to do it with two great partners the first time, who made me enjoy it straight away. As I am getting a lot of questions about it on my blog, I decided to share my few years experience in the matter with you, as well as the testimonials I got from many readers. And thus Anal Sex Tips For Guys & Girls was born. It contains valuable tips to make anal sex a pleasurable experience. When done right, anal sex is extremely pleasurable, and a delicious way to spice up and diversify your sexual life. So why not give it a try? Warning: This 4000+ word sex

guide contains explicit material and is exclusively intended for adults of both sex. Excerpt: A little bit of anatomy here guys! If you've got to stick your penis somewhere, you'd better understand how it is configured so that you know how to actually get it in. Unlike the vagina, the anus is not a straight path. It is more like an "S" shaped path. The entry of this path is guarded by two strong muscles: the internal and external anal sphincters. It is the contraction of these muscles that causes pain during anal penetration, and it is their relaxation that makes it a pleasurable act. The rule here is to keep them relaxed. You can achieve that by good preparation, generous lubrication, and by "pushing" gently, just like you do when you defecate (which is why I like to deep clean myself first, as it boosts my confidence in doing so). Pushing when you try to get a penis inside is can seem a bit contradictory (and that's probably why it is said to be against nature!), but doing so will tremendously facilitate the penetration. You

can practice Kegel exercises, just like you do with your vagina, to master anal relaxation and become more aware of your backside. Download now to learn all about anal sex, how to do it right, how to enjoy it safely, how you can improve it and what you should and shouldn't do.

Everything you need to know is in this ultimate sex manual for the uncommon girl. [Dating Tips for Guys](#) - Carolyn Bright 2017-03-10

Women are just people without penises. Remember that golden rule. Every dating guide, every Hollywood movie, every matchmaking website, makes profit by distracting you from this fundamental truth. She is not an alien species; she is just a regular human who sits down to pee. All anyone wants is to love and to be loved. A lot of dating guides are aimed at men

who, deep down, don't actually like women. Instead of helping men to understand the opposite sex, these guides encourage men to use mind-games and manipulation to get girls into bed. They encourage cold-hearted efficiency and fast turnover, like a corporate cost-cutting guide. That's fine, if you don't mind falling asleep to the sound of a stripper crying in your shower. This book is aimed at men who are looking for a girlfriend, not just a succession of joyless hook-ups. When you're looking for a girlfriend, physical attraction is important; but you also want to talk to her about your day, and introduce her to your friends, and take her out for dinner, and spend Sunday afternoons together watching Seinfeld re-runs in your underpants. That's a lot to ask for, really, and it's no surprise that people spend their whole lives searching for one special person. This book will talk you through the very earliest stages of a new relationship - meeting someone, asking them out, and taking them on the first few dates.

For many people, this is the most difficult part of the game - keeping a girlfriend happy is child's play compared to the difficulties of finding a girlfriend in the first place. This guide is written from a woman's point of view, to show you other side of the dating game. It's not a set of strict instructions, but a gentle push in the right direction. At each step, there are tips to help things to run smoothly and advice on avoiding common pitfalls. There are also explanations of some things women do which men tend to find confusing. There is someone out there for everyone. It's a cliché to say that, but it's true. Be yourself! That's another cliché, also true. Women are just people without penises, remember. They have different interests and different desires in just the same way that men do. Whatever makes you weird may be the same thing which attracts people to you. Overweight geek obsessed with anime? There's a Studio Ghibli fan out there who just loves to be hugged by a big guy. It's true that you might have more

success with the ladies if you were a handsome billionaire with a six-pack - but so what? There's not enough time in your life to date every attractive woman in the world, so it makes sense to focus on finding the ones who really suit you. The aim is not to turn yourself into some kind of seduction machine, who can charm every woman you meet into bed. Or course, it's nice to daydream about being irresistible to the opposite sex, but if you have to put on a fake James Bond persona to get a date, you're dating the wrong people. It's wiser to keep on going as you are, but knock off the rough edges. Be yourself - but better. Make the most of what's going well for you already, and stop doing those little things which hold you back. There are so many factors which affect the way women see you, and you can take easy steps to improve your success with women without having to expend a lot of energy or feel like you're faking it. These are some of the most practical dating tips for men in the real world today!
