Sex Libris - Christopher Measom 2007

The book about what everyone thinks they know, Sex Libris aims to surprise, please, and tantalize. From the adventures of Genji--the hero of the world's first novel written in Japan more than 1,000 years ago--to the twenty-first century cavorting of cyber-voyeurs, two things are clear: humanity has a fertile imagination and there is nothing new under the sun. Discover again what you thought you knew about love, burlesque, religious rituals, fetishes, and slang--and read up on the shooting script of Debbie Does Dallas. Playful, delightful, packed with full-color vintage art and photography, Sex Libris makes for a great gift for any loved one--including yourself. The World of the Early Sieneese Painter -
