Kama Sutra and Dirty Talk - Savannah J Clarck 2021-02-22

Do you want to learn how to dominate your sex life? Do you want to learn how to give dirty talk about sex? If yes, then read on.... The Kama Sutra is the world's oldest treatise on love written by the Indian sage Mallanaga Vatsyayana, who lived in the 3rd-4th centuries BC. When we talk about "Kama Sutra", we mean exquisite, refined and highly

sophisticated sex. The Kama Sutra, like any great book, is surrounded by a considerable number of myths and misconceptions. For example, many people believe that most of the methods described in the Kama Sutra are so complicated that they can only be practiced by very well-trained and physically developed people. While in reality, one does not need to have exceptional strength or acrobatic training to put the Indian's knowledge into practice. The vast majority of Western publications on the subject - are either real pornography or medical reference books, so oversaturated with anatomical details that reading them is enough for a person to stop treating sex as a high art permanently. In contrast, the sexual act in the East was initially considered a sacred ritual, and the relationship between men and women consistently described in highly artistic and poetic form. Instead, "Dirty Talk" is the practice of using word pictures to increase sexual arousal before and during sex. Dirty talk has become a traditional method for couples to achieve intimacy in the bedroom. It can be expressed freely and a great deal of creativity can be involved.

Talking dirty is an important part of sex. You have to start somewhere and if you don't start, your partner may simply mentally disconnect each time during sex and go into their own fantasies. The purpose of dirty talk is to get into the present moment. Sexual energy is activated by sexual verbalizations. Men are notorious for getting bored too soon. Resist the urge to be offended by this biological fact and use the skills you'll find in this book to spice up your bedroom activities. If dirty talk is not your forte, practice until you are a master. When it comes to dirty talk, you definitely need to know your partner. The amount of dirty talk you use in the bedroom is very individual and depends on you and your partner. For the most part, people like to talk dirty and hear themselves talk back. Arousal is not accomplished simply by touch. According to researchers, the sexy phrases you say, whisper, moan, or even yell have the power to trigger neurochemical reactions in the brain to increase arousal to higher states. This book covers the following topics: - Compatibility - Things to know and the best positions for your first time - Sex toys for beginners - Oral sex techniques - Anal sex - How to be free from anxiety and insecurity - Erotic massages and sexual fantasies - Sex during the

menstrual cycle - How exciting it is to talk dirty - Sexual tension increases with dirty talk - Release inhibitions - Talking dirty to fulfill all your fantasies - Phrases for talking dirty - Importance of communication - The psychology behind the language of lust - Foreplay - Building your carnal confidence ...and so much more Ready to get started? Do you want to learn how to master your sex life? Do you want to learn how to make dirty sex talk? If yes, then keep reading...Kama Sutra is the oldest in the world love treatise written by the Indian sage Mallanaga Vatsyayana, who lived in the III-IV century BC. The Kama Sutra has a collection of all the ancient Indian erotic concepts, knowledge and wisdom accumulated from thousands of amorous couples for centuries.

Today the Kama Sutra is the most famous book in the world pertaining to erotica. When we speak of "Kama Sutra," we mean exquisite, refined, and highly sophisticated sex. Kama Sutra, like every great book, is surrounded by a considerable number of myths and misconceptions. For example, many believe that most of the methods described in the Kama Sutra are so complicated that they can be practiced only by a very well-trained and physically developed people. While in fact, you do not need to have any exceptional strength or acrobatic training to use the Indian's knowledge into practice. Most of these errors are related to the fact that the West still does not exist in the counterpart of Kama Sutra. The vast majority of Western publications on the subject - it's either outright pornography or medical reference books, so oversaturated with anatomical details that reading them is enough for a person to stop treating sex as high art permanently. In contrast, the sexual act in the East initially was considered a sacred ritual, and the relationship between men and women consistently described in highly artistic, poetic form. Instead "Dirty Talk" is the practice of using word imagery (that is usually graphic in nature) to heighten sexual excitement before and during sex. Sex Positions for Couples - Stella Young 2019-12-13

Would you like to improve your relationship by discovering new sex positions, learning the language of sex, and even more? Maybe your marriage or long term relationship got boring, and lying in bed every night no longer makes you excited? Or maybe you are just tired of the same old routine and want to take your intimate life to the next new level? I think there is no doubt that you want to do that, so just keep reading... "SEX POSITIONS FOR COUPLES" - a complete bundle of two books. Bundle that will teach you everything you need to know about the intimate relationship and the language of sex, no matter the experience you already have. If you were to make a list of the things that lead to a great marriage, what would be your response? Many people would talk about commitment, communication, respect, and many other factors. Only a few people may include sex because people overlook the fact that sex creates an intimacy that helps to sustain other factors in the relationship. The anonymous statistic shows that over 70% of people between age 30-50 are unhappy about their intimate relationship. What are the reasons? The most commonly mentioned reasons are: "It got boring over the years," "my partner no longer attracts me," "after children, we no longer come together," "it just became the same every time." And when people were asked what they did to change it, the usual

answer was "nothing." The purpose of this book is not to do "something"; this book will be your final guide to your sexual life improvement with direct strategies and a lot of visual and verbal advice. Take a look at only a few things you will get out of this book: Over 150 different sex positions A complete detailed description next to each one Positions for all levels and abilities (easy, medium, hard) How to use language to attract your partner Complete Dirty Talk advise list Things you should avoid during sex Most common language using mistakes The language of sex is also as important as the new poses you should be using every time. In a book, there is also a guide that will explain what phrases and words you should use before, during, and after sex, when you have to stay silent, and so on. Talk is a specific thing that can improve your intimate relationship as well as make it worse. What about younger people? Should I buy this book if I am less than 30 years old? Is this book more for men or women? Can we discuss it with my partner, and both use this book? This book is perfect for people of any age. Younger people have a smaller percentage of unhappiness in their intimate relationships but usually, that is because they change partners more often than older people. As long as the person chooses a partner for life, it is mandatory to improve their relationship constantly. This book is for both male and female, and I also advise to use it together with your partner in order to get even faster and greater results. I think you don't need to spend any more time here. Now it is time to take it and use it the best to your advantage. Scroll up, click on "Buy Now" and start learning!

Sex Talks - Dorothy C Buchanan 2023-05-20

Any love relationship must include sexual intimacy, therefore partners must be clear about their needs, limitations, and expectations. However, talking about sex with your spouse may be challenging, and many couples find it difficult to do so. A happy and fulfilling sex life is a crucial relationship factor that may bolster a couple's physical and emotional closeness. But for many couples, discussing sex may be a delicate and challenging subject. The seven fundamental sex chats serve as a foundation for couples to conduct direct and sincere discussions about their sexual aspirations, limitations, and preferences in a nonjudgmental

setting. The communication that occurs during the initial sex talk serves as the starting point for all subsequent talks. You may build trust and create expectations for future talks by talking about how you both feel about talking about sex and what you want to get out of these chats.

How to Talk with Your Kids about Sex - John T. Chirban 2012

Having trouble talking to your kids about sex? Their friends at school don't... Unfortunately, for many parents, the most important conversations are the hardest. Ninety-three percent of adults are dissatisfied with the sex education they received as children, which is precisely why they are so bad at teaching their kids-they have no frame of reference. Renowned Harvard Medical School psychologist and frequent Dr. Phil guest John Chirban helps parents talk to their kids . . . about sex. Kids are going to learn about sex, and it is up to parents to decide if their kids are going to learn from them or from MTV. How parents address sex-their openness, the context, and their attitudes-will impact how their children view their own sexuality and self worth. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy.In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children.
