Moments of Wildness: Exploring Nature in the Search for Meaning Henry S. Butler 2018-02-20 My entire life has been one big search for "the meaning of life." Where do we come from, why are we here, and where do we go when we die? John Muir taught that "the clearest way into the Universe is through a forest wilderness," so I took his advice and started exploring. I learned that by practicing meditation and the art of mindfulness in Nature we can connect with the life all around us. The lessons we learn in the wild can help us tap into the sacred mystical dimension of this extraordinary natural world in which we live and share with the entire biosphere.

And I Haven't Had a Bad Day Since Charles B. Rangel 2008-08-05 In this inspiring and often humorous memoir, the outspoken Democratic congressman from Harlem—now the chairman of the powerful House Ways and Means Committee—tells about his early years on Lenox Avenue, being awarded a Bronze Star and a Purple Heart for wounds sustained in a horrific Korean War battle (the last bad day of his life, he says), and his many years in Congress. A charming, natural storyteller, Rangel recalls growing up in Harlem, where from the age of nine he always had at least one job, including selling the legendary Adam Clayton Powell's newspaper; his group of streetwise sophisticates who called themselves Les Garçons; and his time in law school—a decision made as much to win his grandfather's approval as to establish a career. He recounts as well his life in New York politics during the 1960s and the grueling civil rights march from Selma to Montgomery. With New York street smarts, Rangel is a tough liberal and an independent thinker, but also a collegial legislator respected by Democrats and Republicans alike who knows and honors the House's traditions. First elected to Congress in 1970, Rangel served on the House Judiciary Committee during the hearings on the articles of impeachment of President Nixon, helped found the Congressional Black Caucus, and led the fight in Congress to pressure U.S. corporations to divest from apartheid South Africa. Best of all, this is a political memoir with heart, the story of a life filled with friends, humor, and accomplishments. Charles Rangel is one of a kind, and this is the story of how he became the celebrated person and politician he is today. He opens his memoir with a preface about the 2006 elections and an outline of his goals as chairman of Ways and Means. From day one he wants to put the public first so that more Americans can say they haven't had a bad day since.

Black Girls Experiencing Their Intersectional Identities in School Crystal L. Edwards 2019-10-31 Black Girls Experiencing Their Intersectional Identities in School explores the subjective experience of Black girls within the educational context. Based on interviews, diary entries, and focus groups, the author argues that as a result of their intersectional identities, Black girls experience unique challenges and obstacles in the educational setting. Addressing topics ranging from interpersonal relationships, social media, beauty, sexuality, hypervisibility/invisibility, and microaggressions, this book highlights the voices and experiences of Black girls between the ages of 11 and 15. The Girls provide a narrative account of the challenges they face daily in the educational context, describing in detail, the factors that maintain and perpetuate volatile conditions. Additionally, this book explores the coping strategies that this group of Black girls developed to resist and respond to the daily obstacles. Ultimately, this book not only identifies the unique struggles faced by Black girls in schools as a result of their intersectional identities; but most importantly, this work explores pragmatic strategies that can be implemented to create safe and beneficial spaces for Black Girls. The author argues that through the implementation of Black Feminist Pedagogy, an "Ethic of Caring," and partnerships with Black Girl Empowerment

More Amusing Musings by the Lady Rev Carol R. Hermann 2021-05-28 The Rev. Dr. Carol Hermann has been a Presbyterian minister for some thirty years and is now retired. She had been serving small churches in the south central area of Wisconsin. While she loves preaching, she also loves working with children and visiting shut-ins. Because of the many experiences she has had in her work, she started writing a column for a local newspaper. She often used those experiences as a sort of parable to make a point about our Christian faith. Many of those experiences have been shared in her sermons. Other ministers are invited to use them in their preaching, as well. Some of these experiences draw on our sense of humor, and some are far more serious, but they are all written in a way that will bring joy and love into someone's life. This book is dedicated in memory of her daughter, Becky, who gave her much encouragement in the writing of this book. It is hoped that this book will connect people closer to God.

struggle with the Monster inside of her head. This story takes the reader on an adventure to look at how violent acts not only affect the victim but the family as well. This book explores the reactions to violence, the suffering, and the pain, as well as the different ways in which those incidences can be handled, including the outcomes individuals can have. The author's hope is that in reading about the pain contained within these pages, the Monster can be understood. As well, it is her great hope that the information shared in this work of fiction can be used to inspire recovery and tolerance for mental illness within her community and beyond. Michelle is also hoping that those fighting with their own Monster can see that they aren't alone and that families can stand together, because the Monster tries to divide. The Monster has many names, many faces, and many victims. The Monster in this story is not unique to the girl but is everywhere and inside of many of us. When you hear noises in the middle of the night that set your heart racing, that voice in your head that's asking "Are you safe?" is the Monster, and it is waiting for you.

The victim, Conor Harris, his killers - three of them are charged with manslaughter - and the trial judge share common childhoods and schooling in the privileged echelons of south Dublin suburbia. The intertwining of these lives leaves their afflicted families in moral free fall as public exposure merges with private anguish and imploded futures.

Bullying Great Britain: Parliament: House of Commons: Education and Skills Committee 2007-03-27 There has been an increasing awareness over the past few decades of bullying and the effect it has on the educational and social achievements of children and young people. The Committee's report examines the progress that has been made to address this problem since the introduction of the 'Don't Suffer in Silence' pack in 1994, the barriers that prevent schools from tackling bullying effectively, issues of prejudice-driven bullying including SEN-related, homophobic and faith-based bullying, and cyber-bullying. The report finds that defining what bullying is and identifying instances of bullying is the first potential barrier to successfully tackling the problem. Teachers and staff, pupils and parents should all be aware of their school's definition of bullying and how this affects their own behaviour, with the attitude and engagement of head teachers vital to tackling bullying. The focus of anti-bullying guidance should be tackling bullying behaviour and making it clear that such behaviour is not acceptable, rather than attempting to change the behaviour of the victim. The DfES should issue new guidance to local authorities and schools on when the use of exclusion is appropriate. The lack of accurate reliable data on bullying is another barrier to more effective anti-bullying work, and the Government should commission a long-term study of a number of schools, looking at both general trends in bullying and also the effectiveness of different approaches in different circumstances. The report also recommends that the Government needs to foster a culture where schools are encouraged to be open about incidents of bullying, have effective ways of dealing with bullying when it occurs and provide support the victims of bullying, rather than fearing reporting incidents of bullying will damage their reputation.

Becoming Bicultural Paul R. Smokowski 2011-02-08 Although the United States has always been a nation of immigrants, the recent demographic shifts resulting in burgeoning young Latino and Asian populations have literally changed the face of the nation. This wave of massive immigration has led to a nationwide struggle with the need to become bicultural, a difficult and sometimes painful process of navigating between ethnic cultures. While some Latino adolescents become alienated and turn to antisocial behavior and substance use, others go on to excel in school, have successful careers, and build healthy families. Drawing on both quantitative and qualitative data ranging from surveys to extensive interviews with immigrant families, *Becoming Bicultural* explores the individual psychology, family dynamics, and societal messages behind bicultural development and sheds light on the factors that lead to positive or negative consequences for immigrant youth. Paul R. Smokowski and Martica Bacallao illuminate how immigrant families, and American communities in general, become bicultural and use their bicultural skills to succeed in their new surroundings. The volume concludes by offering a model for intervention with immigrant teens and their families which enhances their bicultural skills.
