Space, Place, and Violence James A. Tyner 2012-05-02 Direct, interpersonal violence is a pervasive, yet often mundane feature of our day-to-day lives; paradoxically, violence is both ordinary and extraordinary. Violence, in other words, is often hidden in plain sight. *Space, Place, and Violence* seeks to uncover that which is too apparent: to critically question both violent geographies and the geographies of violence. With a focus on direct violence, this book situates violent acts within the context of broader political and structural conditions. Violence, it is argued, is both a social and spatial practice. Adopting a geographic perspective, *Space, Place, and Violence* provides a critical reading of how violence takes place and also produces place. Specifically, four spatial vignettes – home, school, streets, and community – are introduced, designed so that students may think critically how ‘race’, sex, gender, and class inform violent geographies and geographies of violence.

Women as Wartime Rapists Laura Sjoberg 2016-11-22 *Women as Wartime Rapists* reveals the stories of female perpetrators of sexual violence and their place in wartime conflict, legal policy, and the punishment of sexual violence. Very few women are wartime rapists. Very few women issue commands to commit sexual violence. Very few women play a role in making war plans that feature the intentional sexual violation of other women. This book is about those very few women. More broadly, Laura Sjoberg asks, what do the actions and perceptions of female perpetrators of sexual violence reveal about our broader conceptions of war, violence, sexual assault, and gender? This book explores specific historical case studies, such as Nazi Germany, Serbia, the contemporary case of ISIS, and others, to

understand how and why women participate in rape during war and conflict. Sjoberg examines the contrast between the visibility of female victims and the invisibility of female perpetrators, as well as the distinction between rape and genocidal rape, which is used as a weapon against a particular ethnic or national group. Further, she explores women's engagement with genocidal rape and how some orchestrated the ethnic cleansing of entire regions. A provocative approach to a sensationalized topic, *Women as Wartime Rapists* offers important insights into not only the topic of female perpetrators of wartime sexual violence, but to larger notions of gender and violence with crucial cultural, legal, and political implications.

Shades of Grey - Domestic and Sexual Violence Against

Women Anna Carline 2014-09-19 Arguing that law must be looked at holistically, this book investigates the 'hidden gender' of the so-called neutral or objective legal principles that structure the law addressing violence against women. Adopting an explicitly feminist perspective, it investigates how legal responses to violence against women presuppose, maintain and perpetuate a certain context that may not in fact reflect women's experiences. Carline and Eastaer draw upon relevant legislation, case law and secondary studies from a range of territories, including Australia, England and Wales, the United States, Canada and Europe, to contextualize and critique different policy responses. They go on to examine the potential and limits of law, making recommendations for best practice models of policymaking and law reform. Aiming to help improve government, community and legal responses to women who experience violence, *Shades of Grey - Domestic and Sexual Violence Against Women: Law Reform and Society* will assist law-makers, academics, policymakers and a wider audience in understanding the complexities of violence against women.

Transforming a Rape Culture Emilie Buchwald 2005 This volume

presents a diverse group of opinions that lay the foundation for change in basic attitudes about power, gender, race, and sexuality -- for a future without sexual violence. The contributors to this sourcebook share the conviction that rape is epidemic because our society encourages male aggression and tacitly or overtly supports violence against women. Cumulatively, these 34 essays by such figures as Gloria Steinem, Andrea Dworkin, Ntozake Shange, Michael Kimmel and Louise Erdrich situate rape on a continuum extending from sexist language to pornography, sexual harassment in schools and the workplace, wife battering and date and marital rape. Highlights include a proposal to make rape a presidential election issue, an analysis of the churches' ambivalent response to societal violence, guidelines for raising boys to view themselves as nurturing, nonviolent fathers and inspirational visions of personal or institutional change.

Off Our Backs 2001

Slow Motion L. Segal 2007 'Slow Motion' tackles the prevailing feminist pessimism about men and male power. Challenging the notion of masculinity as a monolithic entity, Lynne Segal points out the contradictory and competing nature of its different forms. [Just Sex?](#) Nicola Gavey 2013-10-14 Winner of the Association for Women In Psychology 2006 Distinguished Publication Award! The past two decades have witnessed a significant shift in how rape is understood in Western societies. This shift in perception has revealed the startling frequency of occurrences of date rape, obscuring the divide between rape and what was once just sex. *Just Sex?* combines an overview of the existing literature with an analysis of recent research to examine the psychological and cultural implications of this new epidemic. The result is the conclusion that feminist theory on sexual victimisation has gone both too far and not far enough. The reader is presented with a challenging and original perspective on the issues of rape, sex and the body, incorporating subjects including: * rape as a social problem * the social constructionism of sex, subjectivity and the

body * heterosexuality under the microscope This book succeeds in making a valuable contribution to feminist and social constructionist work on rape that will be of interest to those studying psychology, gender studies, cultural studies and sociology. Just Sex? The Cultural Scaffolding of Rape was selected as a 2005 winner of AWP's (Association for Women in Psychology) distinguished publication award.

Female Sexual Predators Karen A. Duncan 2010-07-20 This unprecedented look at female sexual predators explains why and how they prey on our children and youths and what adults—and children and youths themselves—should understand to prevent victimization. In *Female Sexual Predators: Understanding and Identifying Them to Protect Our Children and Youths*, social worker and therapist Karen A. Duncan helps adults be proactive so children will not fall prey to this violation. Vignettes pulled from news headlines and interviews with female sexual predators Duncan has encountered in her own practice are used to help readers understand these crimes and the women who commit them, as well as the impact these crimes can have on victims. The women profiled were in positions of authority at churches, schools, sports institutions, and the home. Victims explain how these women exploited their positions of trust, planned their crimes, groomed their victims, deceived adults into not detecting their behavior, and how they did not stop even when they recognized the danger and the harm to themselves and their victims. Duncan addresses the issue of maternal sexual abuse answering questions about mothers who willingly sexual abuse their own children and at times commit child sexual abuse with other adults, as well as women who sexually abuse girls. Four types of female sex offenders are presented within the emerging research on this topic, along with questions regarding assessment, treatment, and management of female sex offenders in the community. It also addresses the controversial issues of female pedophilia and female sexual deviance within the context

of what we know about human sexuality.

Shattering Silences Christopher Johnston 2018-05-01 An in-depth look at revolutionary new ways to handle sexual assaults. Every two minutes someone in the US is sexually assaulted, and each year there are nearly 300,000 victims of sexual assault. But victims are no longer silent, and new practices by police, prosecutors, nurses, and rape crisis professionals are resulting in more humane and compassionate treatment of victims and more aggressive pursuit and prosecution of perpetrators. *Shattering Silences* is the first book to cover these new approaches and partnerships. Christopher Johnston shows how the people and organizations implementing these new approaches are having far-reaching impacts on helping victims heal and making it more likely that predators will be arrested and sentenced. His in-depth portrayals of the altruistic and hard-working people behind these radical approaches—based on seven years of interviews—provide a template of best practices for other organizations and communities to follow. With sexual assault taking center stage these days, *Shattering Silences* is more important than ever.

Intersections of Identity and Sexual Violence on Campus Jessica

C. Harris 2023-07-03 While sexual violence has been present and prevalent on campus for decades, the work of recent college student activists has made it an issue of major societal and institutional concern. This book makes an important contribution to and provides a foundation for better contextualizing and understanding sexual violence. Each chapter in this edited volume focuses on populations that are not often centered in the discourse of campus sexual violence and accounts for individuals' intersecting identities and how they interlock with larger systems of domination. Challenging dominant ideologies concerning assumptions of white women as the only victims-survivors, the racialization of aggressors, and the deleterious rape myths present in both research and practice, this book draws attention to the complexities of sexual violence on the college campus by highlighting populations that are frequently invisible in research, reporting, and practice. The book places sexual violence on campus in a historical context, centering the experiences of populations relegated to the margins, and highlighting the relationship between racism, classism, homophobia, transphobia, and other forms of domination to sexual violence. The final chapters of the book explore how critical models of intervention and prevention and a critical analysis of existing institutional policies may be implemented across college campuses to better address sexual violence for multiple populations and identities in

higher education. This book will expand educators' understanding of sexual violence to inform more effective policies, procedures, practice, and research that reaches beyond preventing sexual violence and addresses the dominant systems from which sexual violence stems, in an attempt to eradicate, not just prevent, the act and the issue.

Domestic Abuse and Sexual Assault in Popular Culture

Laura L. Finley 2016-04-18 Using historical and current examples from film, television, literature, advertisements, and music, this book reveals the ways that rape and abuse are typically presented—and misrepresented—and evaluates the impact of these depictions on consumers. Incidences of domestic abuse and sexual assault aren't only commonplace nationwide and the source of a shockingly large number of serious injuries and deaths; they're also problems that are often subject to myths and misleading depictions in popular culture and media. The author of this important book seeks to shed light on the situation by examining the specific issues related to domestic violence and sexual assault, from the scope and extent of the problem to victim and offender characteristics, and from common misconceptions to

societal, cultural, and judicial responses and prevention efforts. Each chapter discusses movies, music, literature, and other forms of popular culture that address issues of domestic abuse and sexual assault, identifying both accurate depictions and problematic examples. The final section of the book addresses how our culture responds to and attempts to prevent domestic abuse and sexual assault, covering depictions of police response to these kinds of crimes in popular culture, how the justice system handles these cases, and individual and community efforts to curb domestic abuse and sexual assault. A compendium of films, documentaries, popular books, and song lyrics featuring domestic abuse and sexual assault enables readers to easily investigate the subject further.

Encyclopedia of Victimology and Crime Prevention Bonnie S. Fisher 2010-02-02 Victimology and crime prevention are growing, interrelated areas cutting across several disciplines. Victimology examines victims of all sorts of criminal activity, from domestic abuse, to street violence, to victims in the workplace who lose jobs and pensions due to malfeasance by corporate executives. Crime prevention is an important companion to victimology because it offers insight and techniques to prevent situations that lead to crime and attempts to offer ideas and means for mitigating or minimizing the potential for victimization. In many ways, the two fields have developed along parallel yet separate paths, and the literature on both has been scattered across disciplines as varied as sociology, law and criminology, public health and medicine, political science and public policy, economics, psychology and human services, and more. The Encyclopedia of Victimology and Crime Prevention provides a comprehensive reference work bringing together such dispersed knowledge as it outlines and discusses the status of victims within the criminal justice system and topics of deterring and preventing victimization in the first place and responding to victims' needs. Two volumes containing approximately 375 signed entries

provide users with the most authoritative and comprehensive reference resource available on victimology and crime prevention, both in terms of breadth and depth of coverage. In addition to standard entries, leading scholars in the field have contributed Anchor Essays that, in broad strokes, provide starting points for investigating the more salient victimology and crime prevention topics. A representative sampling of general topic areas covered includes: interpersonal and domestic violence, child maltreatment, and elder abuse; street violence; hate crimes and terrorism; treatment of victims by the media, courts, police, and politicians; community response to crime victims; physical design for crime prevention; victims of nonviolent crimes; deterrence and prevention; helping and counseling crime victims; international and comparative perspectives, and more.

Feminist Accountability Ann Russo 2018-12-04 Explores accountability as a framework for building movements to transform systemic oppression and violence What does it take to build communities to stand up to injustice and create social change? How do we work together to transform, without reproducing, systems of violence and oppression? In an age when feminism has become increasingly mainstream, noted feminist scholar and activist Ann Russo asks feminists to consider the ways that our own behavior might contribute to the interlocking systems of oppression that we aim to dismantle. Feminist Accountability offers an intersectional analysis of three main areas of feminism in practice: anti-racist work, community accountability and transformative justice, and US-based work in and about violence in the global south. Russo explores accountability as a set of frameworks and practices for community- and movement-building against oppression and violence. Rather than evading the ways that we are implicated, complicit, or actively engaged in harm, Russo shows us how we might cultivate accountability so that we can contribute to the feminist work of transforming oppression and violence. Among

many others, Russo brings up the example of the most prominent and funded feminist and LGBT antiviolence organizations, which have become mainstream in social service, advocacy, and policy reform projects. This means they often approach violence through a social service and criminal legal lens that understands violence as an individual and interpersonal issue, rather than a social and political one. As a result, they ally with, rather than significantly challenge, the state institutions, policies, and systems that underlie and contribute to endemic violence. Grounded in theories, analyses, and politics developed by feminists of color and transnational feminists of the global south, with her own thirty plus years of participation in community building, organizing, and activism, Russo provides insider expertise and critical reflection on leveraging frameworks of accountability to upend inequitable divides and the culture that supports them.

Sexual Victimization Tara N. Richards 2014-02-13 Sexual Victimization: Then and Now provides scholars easy access to information that specifically examines the continuum of sex crimes and the perception of victims by our criminal justice system and society as a whole. This text features contributions from well-known researchers in the field and serves as an important resource to provide scholars with up-to-date research on sexual victimization that will educate students on this complex and evolving challenge for the criminal justice system. Editors Tara N. Richards and Catherine D. Marcum approach the concept

by examining how the criminal justice system handles sexual victimization, the association between individuals in a relationship and sexual assault, and unusual and special issues associated with contemporary sexual victimization. By discussing these issues, the theoretical explanations for these crimes and the effectiveness of the policy that has been applied will effectively link the criminological areas of theory, research, and policy.

The Victimization of Women Michelle L. Meloy 2010-12-24 In *The Victimization of Women*, Michelle Meloy and Susan Miller present a balanced and comprehensive summary of the most significant research on the victimizations, violence, and victim politics that disproportionately affect women. They examine the history of violence against women, the surrounding debates, the legal reforms, the related media and social-service responses, and the current science on intimate-partner violence, stalking, sexual harassment, sexual assault, and rape. They augment these victimization findings with original research on women convicted of domestic battery and men convicted of sexual abuse and other sex-related offenses. In these new data, the authors explore the unanticipated consequences associated with changes to the laws

governing domestic violence and the newer forms of sex-offender legislation. Based on qualitative data involving in-depth, offender-based interviews, and analyzing the circumstances surrounding arrests, victimizations, and experiences with the criminal justice system, *The Victimization of Women* makes great strides forward in understanding and ultimately combating violence against women.
