

# Beware The Child A Journey With Adolescent Sex Offenders

## **Charged with Being Children: Egyptian Police Abuse of Children in Need of Protection -**

Unspeakable Acts - Doug W. Pryor 1999

A holistic sociological approach that explores why offenders sexually abuse children. The sexual abuse of children is one of the most morally unsettling and emotionally inflammatory issues in American society today. It has been estimated that roughly one out of every four girls and one in ten boys experience some form of unwanted sexual attention either inside or outside the family before they reach adulthood. How should society deal with the sexual victimization of children? Should known offenders be released back into our communities? If so, where, and with what rights, should they be allowed to live? In *Unspeakable Acts*, Douglas W. Pryor argues that much of this debate, designed to deal with abusers after they have offended, ignores the important issue of why men cross these forbidden sexual boundaries to molest children in the first place and how the behavior can possibly be prevented before it starts. Incorporating in-depth interviews with more than thirty convicted child molesters, Pryor explores how men become involved with breaking sexual boundaries with children. He looks at how their lives prior to offending contributed to and led up to what they did, the ways that initial interest in sex with children began, the tactics offenders employed to molest their victims over time, how they felt about and reacted to their behavior between offending episodes, and how they were ultimately able to stop. The author expands our understanding of this often reviled, little understood group, leaving us with the uneasy conclusion that the moral wall separating us from what is defined as extreme, sick behavior is not as opaque as we would like to believe.

## **Sex Offenders** - J. V. Fenner 2008

This book deals with society's responses to sex offenders. This issue is of vital interest to law enforcement professionals and society at large. This subsection of the population generates as much or more fear than virtually any other segment in the community. The chapters in this book deal with recidivism, tracking and location, impulsivity, long-term care, and reunification.

Film/video Canadiana - 1986

Daily Graphic - Yaw Boadu-Ayebofoh 2006-02-09

## **Raised on the Registry** - Nicole Pittman 2013

This report details the harm public registration laws cause for youth sex offenders. The laws, which can apply for decades or even a lifetime and are layered on top of time in prison or juvenile detention, require placing offenders' personal information on online registries, often making them targets for harassment, humiliation, and even violence. The laws also severely restrict where, and with whom, youth sex offenders may live, work, attend school, or even spend time.

Current Index to Journals in Education - 1998

*Senior High Core Collection* - Raymond W. Barber 2007

Features annotations for more than 6,200 works in the main volume (2007), and more than 2,400 new titles in three annual supplements published 2008 through 2010. New coverage of biographies, art, sports, Islam, the Middle East, cultural diversity, and other contemporary topics keeps your library's collection as current as today's headlines.

*Child Pornography and Sex Rings* - Kenneth V. Lanning 1984

**Current Law Index** - 2006

**Dangerous People** - Bernadette McSherry 2011-11-28

Experienced legal academics and mental health professionals explore the current approaches to "dangerousness" and preventive detention. The defining characteristics of those deemed dangerous by society vary according to culture, place, and time, and the contributors to this text have gathered to analyze the policies and practices related to current out-groups such as sex offenders, suspected terrorists, and young offenders in the United States, Scotland, England, and Australia.

*Dangerous People* is the result of their research, workshopping, and writing. The text is organized logically and begins with a section on Parameters that explores the international human rights and legal limitations related to preventive detention schemes. It moves on to Policy, where contributors examine legislative policy, and Prediction, or risk assessment, especially in terms of violent crimes in youth. The section on Practice focuses on recent schemes to prevent re-offending. This text is indispensable as a resource that deals with the practical issues surrounding preventive detention and supervision schemes, the assessment of the risk of future harm in offenders, and different programs and sentencing options for high-risk offenders with mental illnesses. It contains case examples that bring real-life issues to light and sets forth an agenda to provide effective ways to protect communities from harm.

*Lost Memory of Skin* - Russell Banks 2011-09-29

Suspended in a strangely modern-day version of limbo, a young man must create a life for himself in the wake of incarceration. Known only as the Kid, and on probation after doing time for a liaison with an underage girl, he is shackled to a GPS monitoring device and forbidden to live within 2,500 feet of anywhere children might gather. With nowhere else to go, the Kid takes up residence in a makeshift encampment with other convicted sex offenders. Barely beyond childhood himself, the Kid is in many ways an innocent, trapped by impulses and foolish choices. Enter the Professor, a man who has built his own life on secrets and lies. A university sociologist of enormous size and intellect, he finds in the Kid the perfect subject for his research on homelessness and reoffending sex offenders. The two men forge a tentative partnership. But when the Professor's past resurfaces and threatens to destroy his carefully constructed world, the balance in the two men's relationship shifts. Suddenly, the Kid must reconsider everything he has come to believe, and choose what course of action to take when faced with a new kind of moral decision.

The American Film Institute Catalog of Motion Pictures Produced in the United States: Feature Films - American Film Institute 1993

"The entire field of film historians awaits the AFI volumes with eagerness."--Eileen Bowser, Museum of Modern Art Film Department  
Comments on previous volumes: "The source of last resort for finding socially valuable . . . films that received such scant attention that they seem 'lost' until discovered in the AFI Catalog."--Thomas Cripps  
"Endlessly absorbing as an excursion into cultural history and national memory."--Arthur Schlesinger, Jr.

*Sexual Offending* - Amy Phenix 2015-12-07

This expert reference provides a broad, comprehensive review of the major domains of sexual offending. Beginning with an integrated etiological model of sexual offending, chapters follow addressing the primary predisposing conditions related to sexual offending (e.g. pedophilic, hebephilic, paraphilic rape and non-contact paraphilic disorders, hyper sexuality and personality factors). In addition, special subgroups of sexual offenders (females, youth and the intellectually disabled) are considered. Both broad and specific perspectives on the assessment of sexual offenders are provided. Overviews are offered of clinical and forensic evaluations of such offenders and the utility of structured psychological assessment. A novel conceptual model of risk assessment is proposed. More specifically, each of the primary approaches or instruments related to risk assessment of sexual offending are addressed: the Static risk assessment measures, the Sex Offender Risk Appraisal Guide, structured professional judgment, and the varied measures of dynamic or criminogenic needs assessment. Finally, multiple aspects of management of sexual offenders are discussed including models of psychosocial treatment, the question of the effectiveness of such treatment, biological interventions, civil commitment, circles of support, and the containment approach to community management.

Chapters are authored by both prominent experts and experienced professionals for a breadth of perspective. Among the topics covered: Pedophilic, Hebephilic, Rape Paraphilic Disorders and the variety of Non Contact sexual offending conditions Personality, related conditions, & their association with sexual offending: motivators and disinhibition in context. Disorders of hyper sexuality. Assessments of sexual offenders, including the role of psychological testing, clinical & interview approaches, as well as forensic evaluations Conceptual models of risk assessment & discussion of specific static, dynamic & structured clinical risk assessment approaches Models of & reviews of treatment outcome with sexual offenders, including psychotherapy, psychopharmacology and castration, the containment approach, civil commitment & circles of support Overview of public policy issues & an evidence-based perspective on sex offender registration and residential restrictions. This breadth of material in Sexual Offenders will help practitioners gain multiple levels of clinical insight as well as giving them up-to-date practical tools and techniques for working with this problematic class of individuals.

**Beware the Child** - Joyce F. Lakey 2004

The bastions of Port Hudson and Vicksburg on the Mississippi River having fallen to Union forces, and the Confederacy being cut in half. Congress began to fulminate for a westward campaign to return Texas to the Union. The Union Admiral Farragut dreamed up a combined campaign, up the Red River. with the Army on land and the Navy (in river gunboats) keeping abreast of the land force. Having set into motion

this scheme it was followed. Though defeated once the Union land force advanced up river from Alexandria, Louisiana while the Navy steamed abreast but on the river. Once past the falls at Alexandria the Federal gunboats upstream of the falls would have to wait until the river level before there was sufficient depth of water to allow the gunboats to move downstream. The Union Navy was trapped in the river. It was then that President Lincoln ordered the Union forces to quit the river so that the forces freed from the Red River Campaign could be Used to fight the Confederates elsewhere. But the order could not be obeyed for there was not enough water in the river to float the gunboats. An ingenious civil engineer. Joseph Bailey designed a dam (wing walls protruding from each bank, but not meeting) which dam had as its purpose to raise the level of the river. With plenty of strong hands at his disposal the structures were built and were awaiting an auspicious moment to move the fleet when one of the wing walls broke. As the water began to rush through the break the trapped Union gunboats rushed along with the water and safely passed the falls. Once downstream of the previous impedance the Union Navy and Army hastily beat a retreat to the Mississippi. The famed Red River Campaign had ended with neither side the better nor the worse. But the campaign had made one hero: the engineer Joseph Bailey, who became a General officer as reward for his exploits.
