*Popular science and public opinion in eighteenth-century France* -

Michael Lynn 2018-02-28

In this book, Michael R. Lynn analyses the popularisation of science in Enlightenment France. He examines the content of popular science, the methods of dissemination, the status of the popularisers and the audience, and the settings for dissemination and appropriation. Lynn introduces individuals like Jean-Antoine Nollet, who made a career out of applying electric shocks to people, and Perrin, who used his talented dog to lure customers to his physics show. He also examines scientifically oriented clubs like Jean-François Pilâtre de Rozier's Musée de Monsieur which provided locations for people interested in science. Phenomena such as divining rods, used to find water and ores as well as to solve crimes; and balloons, the most spectacular of all types of popular science, demonstrate how people made use of their new knowledge. Lynn's study provides a clearer understanding of the role played by science in the Republic of Letters and the participation of the general population in the formation of public opinion on scientific matters.

*If I Say If* - Alistair Rolls 2014-06-23

Boris Vian is a rare phenomenon. Nothing short of a national treasure in France, he is hardly known overseas. In his lifetime, he divided literary

opinion with masterpieces that failed to sell and best sellers that caused outrage, trials and even deaths, including his own. As an impresario, he became the figurehead of the jazz scene that marked the French left bank at the end of the Second World War and was responsible for bringing Duke Ellington and Miles Davis to France. As a musician, he played his trumpet against the advice of cardiologists, sang pacifist songs before audiences of outraged patriots and, in passing, created French rock 'n' roll. Posthumously, he became known for his theatre, film scripts and poetry as well as for his novels. And in May '68 he became a revolutionary icon.

*Le lai de l'ombre* - Jean Renart 1890

*Female Ejaculation and the G-spot* - Deborah Sundahl 2003

*The Flowers of Evil* - Charles Baudelaire 2019-12-31

Les Fleurs du mal is a volume of French poetry by Charles Baudelaire. First published in 1857, it was important in the symbolist and modernist movements. The poems deal with themes relating to decadence and eroticism. Charles Pierre Baudelaire was a French poet who also produced notable work as an essayist, art critic, and pioneering translator of Edgar Allan Poe.

**How To Live 365 Days A Year** - John A. Schindler, M.D. 2002-08-20

One of the great self-help books of all time, How to Live 365 Days a Year has sold more than 1 million copies and has been translated into 13 languages. Author John A. Schindler, M.D. introduced the powerful concept of EII, or "emotionally induced illness," long before most physicians were aware of the connection between emotions and physical health. Our new edition of this 195556 New York Times bestseller, a classic of the genre, has updated health and nutrition information by a leading health and fitness expert. Dr. Schindler's original research explains how prolonged unhappiness sets off negative responses in the nervous and endocrine systems, producing symptoms of disease, and offers techniques for coping with EII. His landmark advice on positive lifestyle, exercise, and nutrition speaks volumes to today's self-aware readers. Topics include achieving emotional satisfaction, attaining sexual maturity, dealing with stress in the workplace, and meeting the challenge of the aging years. John A. Schindler, M.D. co-founded the distinguished Monroe Clinic in 1939, where he advanced his revolutionary theories on psychosomatic medicine. His 1949 radio broadcast, titled "How to Live a Hundred Years Happily," was so well received that transcripts of the show were printed and sold by the thousands. This led him to write the highly influential bestseller How to Live 365 Days a Year. Dr. Schindler died in 1957.

[Talismano \(Tunisian Literature Series\)](#) - Abdelwahab Meddeb 2011-05-03

A lush journey into a Tunisia of memory and imagination. Talismano is a novelistic exploration of writing seen as a hallucinatory journey through half-remembered, half-imagined cities—in particular, the city of Tunis, both as it is now, and as it once was. Walking and writing, journey and

journal, mirror one another to produce a calligraphic, magical work: a palimpsest of various languages and cultures, highlighting Abdelwahab Meddeb's beguiling mastery of both the Western and Islamic traditions. Meddeb's journey is first and foremost a sensual one, almost decadent, where the narrator luxuriates in the Tunis of his memories and intercuts these impressions with recollections of other cities at other times, reviving the mythical figures of Arab-Islamic legend that have faded from memory in a rapidly westernizing North Africa. A fever dream situated on the knife-edge between competing cultures, Talismano is a testament to the power of language to evoke, and subdue, experience.

**The New Ecological Order** - Luc Ferry 1995-08-15

Is ecology in the process of becoming the object of our contemporary passions, in the same way that Fascism was in the 30s, or Communism under Stalin? In The New Ecological Order, Luc Ferry offers a penetrating critique of the ideological root of the "Deep Ecology" movement spreading throughout the United States, Germany, and France. Traditional ecological movements, or "democratic ecology," seek to protect the environment of human societies; they are pragmatic and reformist. But another movement has become the refuge both of nostalgic counterrevolutionaries and of leftist illusions. This is "deep ecology." Its followers go beyond practical critique of human greed and waste: they call into question the very possibility of human coexistence with nature. Ferry launches his critique by examining early European legal cases concerning the status and rights of animals, including a few notorious cases where animals were brought to trial, found guilty, and publicly hanged. He then demonstrates that German Romanticism embraced certain key ideas of the deep ecology movement concerning the protection of animals and the environment. Later adopted by the Nazis, many of these ideas point to a profoundly antihumanistic component of deep ecology that is compatible with totalitarianism. Ferry shows how deep ecology casts aside all the gains of human autonomy since the Enlightenment. Far from denying our "duty in relation to nature," The New Ecological Order offers a bracing caution - against the dangers of environmental claims and, more important, against the threat

to democracy contained in the deep ecology doctrine when pushed to its extreme.

The Erotics of Passage - James S. Williams 1997

A complete account of the fiction, films and media work of Marguerite

Duras since the film *Le camion* (1977). Williams pursues a variety of theoretical approaches - psychoanalytic, comparative, rhetorical, intertextual - emphasizing in each case the formal pleasures of Duras's work.
