Transgender History, second edition - Susan Stryker 2017-11-07

Masculinities without Men? - Jean Bobby Noble 2010-10-01

Conventional ideas about gender and sexuality dictate that people born with male bodies naturally possess both a man's identity and a man's right to authority. Recent scholarship in the field of gender studies, however, exposes the complex political technologies that construct gender as a supposedly unchanging biological essence with self-evident links to physicality, identity, and power. In *Masculinities without Men?* Jean Bobby Noble explores how the construction of gender was thrown into crisis during the twentieth century, resulting in a permanent rupture in the sex/gender system, and how masculinity became an unstable category, altered across time, region, social class, and ethnicity.

The Hidden Case of Ewan Forbes - Zoë Playdon 2021-11-02

This life story of an aristocratic trans man whose secret 1968 legal case, which forced him to defend his male status, had a profound impact on trans rights for decades is a singular contribution to trans history and the ongoing struggle for trans rights.

Dear Sir Or Madam - Mark Nicholas Alban Rees 1996

"Her perplexed parents saw their daughter as a very awkward adolescent. Brenda Rees hated being 'awkward', and hated even more

her female role and body. No one seemed to understand that 'she' was really a 'he'. Young Brenda saw no hope of relieving this conflict; her apparently unique condition condemned her to isolation, verbal abuse and misunderstanding. She spent five useless months in a psychiatric hospital. But at the age of twenty-seven, Brenda discovered the existence of transsexualism. She was not alone, and it appeared that help was at hand." "Dear Sir or Madam tells of Brenda's struggle through adolescence and into adulthood - her search for understanding, the long and tortuous process of becoming Mark, his legal battles and his media exposure. In becoming himself, Mark was enabled to live a richer and fuller life than he could ever have done as Brenda. The book is an account of how it is possible for a known transsexual to be accepted by society. In 1994 Mark was elected as a Borough Councillor by the people amongst whom he has lived all his life."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved
Making the Body Beautiful - Sander L. Gilman 2021-12-07

Nose reconstructions have been common in India for centuries. South Korea, Brazil, and Israel have become international centers for procedures ranging from eyelid restructuring to buttock lifts and tummy tucks. Argentina has the highest rate of silicone implants in the world. Around the globe, aesthetic surgery has become a cultural and medical fixture. Sander Gilman seeks to explain why by presenting the first systematic world history and cultural theory of aesthetic surgery. Touching on subjects as diverse as getting a "nose job" as a sweet-sixteen birthday present and the removal of male breasts in seventh-century Alexandria, Gilman argues that aesthetic surgery has such universal appeal because it helps people to "pass," to be seen as a member of a group with which they want to or need to identify. Gilman begins by addressing basic questions about the history of aesthetic surgery. What surgical procedures have been performed? Which are considered aesthetic and why? Who are the patients? What is the place of aesthetic surgery in modern culture? He then turns his attention to that focus of countless human anxieties: the nose. Gilman discusses how people have reshaped their noses to repair the ravages of war and

disease (principally syphilis), to match prevailing ideas of beauty, and to avoid association with negative images of the "Jew," the "Irish," the "Oriental," or the "Black." He examines how we have used aesthetic surgery on almost every conceivable part of the body to try to pass as younger, stronger, thinner, and more erotic. Gilman also explores some of the extremes of surgery as personal transformation, discussing transgender surgery, adult circumcision and foreskin restoration, the enhancement of dueling scars, and even a performance artist who had herself altered to resemble the Mona Lisa. The book draws on an extraordinary range of sources. Gilman is as comfortable discussing Nietzsche, Yeats, and Darwin as he is grisly medical details, Michael Jackson, and Barbra Streisand's decision to keep her own nose. The book contains dozens of arresting images of people before, during, and after surgery. This is a profound, provocative, and engaging study of how humans have sought to change their lives by transforming their bodies.

A New Youth? - Elisabetta Ruspini 2016-03-16

A New Youth? provides a cross-cultural perspective on the challenges and problems posed by young people's transition to adulthood. The authors address questions such as: What are the experiences of being young in different European countries? What can we learn about the differences of being young in non-European countries? Are young people developing new attitudes towards society? What are the risks associated with the transition of youth to adulthood? Can we identify new attitudes about citizenship? On a more general level, are there experiences and new social meanings associated with youth? The volume is comparative between various European and non-European countries in order to identify the emerging models of transition. These characteristics are connected with broader social, political and cultural changes: changes related to extended education, increasing women's participation in the labour market, changing welfare regimes, as well as changes in political regimes and in the representation and construction of individual identities and biographies, towards an increasing individualization. The work offers critical reflections in the realm of sociology of youth by providing broader understandings of the term 'youth'. The detailed

analysis of new forms of marginality and social exclusion among young people offers valuable insight for policy development and political debate.

Queering Families - Carla A. Pfeffer 2017

This publication explores a social landscape that continues to challenge the very notion of what constitutes a 'same-sex' or an 'opposite-sex' relationship, marriage, and family.

Creating Safe Environments for LGBT Students - Michael J Bayly
2013-02-01

Make sure your Catholic school's LGBT students are getting the support they need *Creating Safe Environments for LGBT Students* is a comprehensive training guidebook for educators who are committed to diversity and the full inclusion of LGBT students in every aspect of the Catholic high school experience. Based on five years of pilot testing in Catholic schools, this unique book emphasizes safe-staff training in integrating the Church's pastoral, social, and moral dimensions with the special needs of LGBT students. The book presents strategies and

resources for building safer schools, helpful materials for communicating with parents, and general guidelines for developing and maintaining professional helping relationships with LGBT students. Based on a "training the trainer" model, *Creating Safe Environments for LGBT Students* encourages the development of grassroots leadership within the school. This unique book promotes a positive framework for navigating the challenging landscape of the Catholic tradition and the LGBT experience as it helps to establish anti-harassment and anti-bullying protocols for school environments and models for developing LGBT student support groups and gay/straight student alliances. The book promotes role-play by students, alumni, teachers, and parents—a hallmark of the ministry work and training methods of the Catholic Pastoral Committee on Sexual Minorities—and is flexible enough to allow each school's individual climate and culture to be respected. *Creating Safe Environments for LGBT Students* includes: * first-hand stories from students and teachers * realistic, dynamic, and creative role-play scenarios that explore various relationships between students, teachers, parents, administrators, and the school board * opening prayer and meditation rituals * a special foreword by Bishop Thomas J. Gumbleton, one of the few Catholic bishops to publicly affirm LGBT persons * an extensive bibliography and glossary regarding the experiences, language, culture, and spirituality of LGBT youth * the latest research findings on at-risk behaviors of LGBT teenagers * training handouts that are easy to duplicate and use as transparencies * a manual log that can be used as a training diary * and much more! *Creating Safe Environments for LGBT Students* is an essential resource for faculty and staff members at Catholic high schools, particularly school administrators, chaplains, campus ministers, psychologists, social workers, and counselors.

Female Masculinity - Judith Halberstam 1998

Masculinity without men. In *Female Masculinity* Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject,

Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among "transgender dykes"--lesbians who pass as men--and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. *Female Masculinity* signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs, including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.

Debates in Transgender, Queer, and Feminist Theory - Patricia Elliot 2016-05-13

Transgender studies is a heterogeneous site of debate that is marked by tensions, border wars, and rifts both within the field and among feminist and queer theorists. Intersecting the domains of women's studies, sexuality, gender and transgender studies, *Debates in Transgender, Queer, and Feminist Theory* provides a critical analysis of key texts and theories, engaging in a dialogue with prominent theorists of transgendered identity, embodiment and sexual politics, and intervening in various aspects of a conceptually and politically difficult terrain. A central concern is the question of whether the theories and practices needed to foster and secure the lives of transsexuals and transgendered

persons will be promoted or undermined - a concern that raises broader social, political, and ethical questions surrounding assumptions about gender, sexuality, and sexual difference; perceptions of transgendered embodiments and identities; and conceptions of divergent desires, goals and visions.

Just One of the Guys? - Kristen Schilt 2011-01-15

The fact that men and women continue to receive unequal treatment at work is a point of contention among politicians, the media, and scholars. Common explanations for this disparity range from biological differences between the sexes to the conscious and unconscious biases that guide hiring and promotion decisions. *Just One of the Guys?* sheds new light on this phenomenon by analyzing the unique experiences of transgender men—people designated female at birth whose gender identity is male—on the job. Kristen Schilt draws on in-depth interviews and observational data to show that while individual transmen have varied experiences, overall their stories are a testament to systemic gender inequality. The reactions of coworkers and employers to transmen, Schilt demonstrates, reveal the ways assumptions about innate differences between men and women serve as justification for discrimination. She finds that some transmen gain acceptance—and even privileges—by becoming “just one of the guys,” that some are coerced into working as women or marginalized for being openly transgender, and that other forms of appearance-based discrimination also influence their opportunities. Showcasing the voices of a frequently overlooked group, *Just One of the Guys?* lays bare the social processes that foster forms of inequality that affect us all.

Cybersociety 2.0 - Steve Jones 1998-07-15

Like its predecessor, the best-selling *CyberSociety*, published in 1994, *Cybersociety 2.0* is rooted in criticism and analysis of computer-mediated technologies to assist readers in becoming critically aware of the hype and hopes pinned on computer-mediated communication and of the cultures that are emerging among Internet users. Both books are products of a particular moment in time, and serve as snapshots of the concerns and issues that surround the burgeoning new technologies of

communication. After a brief introduction to the history of computer-mediated communication, each essay in this volume highlights specific cyber societies and how computer-mediated communication affects the notion of self and its relation to community. Contributors probe issues of community, standards of conduct, communication, means of fixing identity, knowledge, information, and the exercise of power in social relations.

Reader's Guide to Lesbian and Gay Studies - Timothy Murphy 2013-10-18

The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals (Adrienne Rich); arts and cultural studies (Dance); ethics, religion, and philosophical issues (Monastic Traditions); historical figures, periods, and ideas (Germany between the World Wars); language, literature, and communication (British Drama); law and politics (Child Custody); medicine and biological sciences (Health and Illness); and psychology, social sciences, and education (Kinsey Report).

Body Parts - Christopher E. Forth 2005

In many forms of discourse, specific parts of the human anatomy may signify the whole body/person. In this volume, scholars from a variety of historical and cultural studies disciplines examine scientific, medical, popular, and literary texts, paying special attention to the different strategies employed in order to establish authority over the body through the management of a single part. By considering body parts that are usually ignored by scholars, these essays render the idea of a single, coherent body untenable by demonstrating that the body is not a transhistorical entity, but rather, deeply fragmented and fundamentally situated in a number of different contexts.

Male Bodies, Women's Souls - LeeRar Costa 2013-01-11

Get a detailed look at the Thai sex/gender system—through analysis of the personal stories from transgendered youth in Thailand The Thai term *sao braphet song* (a “second type of woman”) describes males who reject the gender of masculinity for femininity. *Male Bodies, Women's Souls*:

Personal Narratives of Thailand's Transgendered Youth uses the narrative method, stories in the words of these "second type of women" to analyze these transgendered experiences. This previously ignored perspective of the Thai sex/gender system gained through this theoretical and methodological approach offers students and general readers a rich, more readily accessible foundation of knowledge about gendered subjectivity and sex/gender systems. *Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth* features in-depth, autobiographical life histories from individual Thai transgendered youth. Life stories, told in the participants' own words, provides an engaging, at times touching, always insightful look at Thai culture's sex/gender system. The authors then expertly analyze the narratives to illuminate common themes and constructions within this group, allowing an opportunity for contrast and discussion on transgender experiences in other nations. *Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth* analyzes the major themes in the stories, including: identities definitions and descriptive labels etiologies of saoraphet song-ness the notion of

acceptance narrator motivations for participating in the project *Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth* is illuminating, reflective reading for educators, undergraduate students, graduate students, researchers, or anyone interested in discovering more about transgenderism in a specific cultural context.

Transgender Experience - Chantal Zabus 2013-11-26

This collection by trans and non-trans academics and artists from the United States, the UK, and continental Europe, examines how transgenderism can be conceptualized in a literary, biographical, and autobiographical framework, with emphasis on place, ethnicity and visibility. The volume covers the 1950s to the present day and examines autobiographical accounts and films featuring gender transition. Chapters focus on various stages of transitioning. Interviews with trans people are also provided.

Sex in Transition - Amanda Lock Swarr 2012-11-20

Argues that South Africa's apartheid system of racial segregation relied on an unexamined but interrelated system of sexed oppression that was at once both rigid and flexible.
