*Gabriel Method* Jon Gabriel 2009-11-13 Jon Gabriel lost over 100 kilos without dieting or surgery and amazingly his body shows almost no sign of ever having been morbidly obese. His totally unique and groundbreaking approach to losing weight is backed by solid, cutting edge obesity research from over four years of full-time investigation of the roles of biochemistry, neurobiology, quantum physics and human consciousness in weight-loss. The result is a method that defies "common sense wisdom" and yet achieves dramatic lasting benefits. Celebrity obesity survivors like Muhammad Ali's daughter Khaliah and Robin Moran, star of The Discovery Channel's show Super Obese, are strong advocates of Jon's Weightloss approach, which has also been featured on A Current Affair and Today/Tonight in Australia as well as on numerous radio shows and newspaper articles internationally. In addition to telling Jon's own story of his amazing transformation, the book reveals why diets don't work and explains a truly unique and revolutionary diet-free way to lose weight. It's based on the fact that your body has an internal logic that determines how fat or thin you will be at any given time. The way to lose weight is not to struggle or to force yourself to lose weight but to understand this internal logic and work with it so that your body wants to be thinner. When your body wants to be thinner, weightloss is inevitable and becomes automatic and effortless. You simply crave less food, you crave healthier foods, your metabolism speeds up and you become very efficient at burning fat, just like a naturally thin person. And that's the real transformation - to transform yourself into a naturally thin person, so that you can eat whatever you want whenever you want and still be thin, fit and vibrantly healthy.

**Drunk Japan** Mark D. West 2020-03-11 Each society that consumes alcohol has its own unique drinking culture, and each society deals with the drunken products of that culture in particular ways. As Mark D. West shows in *Drunk Japan*, the distinctive features of Japanese drinking culture and its intoxication-related laws are not simply interesting in and of themselves, but offer a unique window into Japanese society more broadly. Drawing upon close readings of over 5,000 published Japanese court opinions on drunkenness-related cases, he provides a rich description of Japanese alcohol consumption, drinking culture, and intoxication. West reveals that the opinions not only show patterns in what, where, and why people drink in Japan, but they also focus to a surprising extent on characteristics (including occupation, wealth, gender, and education) of individual litigants. By examining the consistencies and contradictions that emerge from the cases, West finds that, at its most extreme, the Japanese legal system is hyper-individualized. Focusing on individual people sometimes leads courts to ignore forensic evidence, to rely on post-arrest drinking tests, and to calculate prison sentences based on factors such as a mother's promise to help her adult child abstain. Cumulatively, the colorful and often tragic cases West uses not only illuminate the

complexity of the culture, but they also reveal an entirely new vision of Japanese law and a comprehensive picture of alcohol use in Japanese society writ large.

**For the Love of Cities** Peter Kageyama 2011 The mutual love affair between people and their place is one of the most powerful influences in our lives, yet rarely thought of in terms of a relationship. As cities begin thinking of themselves as engaged in a relationship with their citizens, and citizens begin to consider their emotional connections with their places, we open up new possibilities in community, social and economic development by including the most powerful of motivators-the human heart-in our toolkit of city-making. The book explores what makes cities lovable, what motivates ordinary citizens to do extraordinary things for their places and how some cities, such as New Orleans, Detroit, and Cleveland are using that energy to fill in the gaps that "official" city makers have left as resources have disappeared. Meet those amazing people who are truly "in love" with their cities and learn how they are key to the future development of our communities. Praise for the book: What Kageyama has done is to introduce the vital piece into the urban discussion-- the matter of love; the piece without which all city building must fail, for "love" the corner stone of civic citizenship. It takes some bravura and acumen to champion the subject of love in the urban forum that wants to quantify, when only love qualifies and justifies the discussion of cities. Mr. Kageyama goes one step further. He provides precious indicators. Many city thinkers will follow suit, but for the time being, this is the essential book. Ontario Author of *Municipal Mind: Manifestos for The Creative City* For the Love of Cities succeeds in putting an exclamation point on the exceptional value of deepening the relationship that city dwellers feel for their neighborhoods by adding amenities such as parks, outdoor cafes, art galleries, trees, flowers and even sidewalks to create a meaningful sense of place. It also explores the often hidden added value of creative entrepreneurs in creating a sense of place that attracts, nurtures and retains citizens. The book is a love note from Author Peter Kageyama to cities everywhere that will prompt you to more closely examine your own relationship with where you live, work and play. **Intimate Disconnections** Allison Alexy 2020-07-08 In many ways, divorce is a quintessentially personal decision—the choice to leave a marriage that causes harm or feels unfulfilling to the two people involved. But anyone who has gone through a divorce knows the additional public dimensions of breaking up, from intense shame and societal criticism to friends' and relatives' unsolicited advice. In *Intimate Disconnections*, Allison Alexy tells the fascinating story of the changing norms surrounding divorce in Japan in the early 2000s, when sudden demographic and social changes made it a newly visible and viable option. Not only will one of three Japanese marriages today end in divorce, but divorces are suddenly much more likely to be initiated by women who cite new standards for intimacy as their motivation. As people across Japan now consider divorcing their

spouses, or work to avoid separation, they face complicated questions about the risks and possibilities marriage brings: How can couples be intimate without becoming suffocatingly close? How should they build loving relationships when older models are no longer feasible? What do you do, both legally and socially, when you just can't take it anymore? Relating the intensely personal stories from people experiencing different stages of divorce, Alexy provides a rich ethnography of Japan while also speaking more broadly to contemporary visions of love and marriage during an era in which neoliberal values are prompting wide-ranging transformations in homes across the globe.

toolkit of place-making. Here we will explore what makes cities lovable, what motivates ordinary people to do extraordinary things for their places and how some cities are using that energy to fill in the gaps that "official" city makers have left as resources disappeared. Meet the amazing people who are truly in love with their cities and learn how they are the key resource to the future development of our communities. "Peter's book takes the age old notion that love is a powerful, but intangible force and completely turns it on its head by uniquely illustrating the impact human emotion can have on our cities. I strongly recommend For the Love of Cities to all local leaders and anyone who is looking for creative solutions to the challenges facing America's cities." Buddy Dyer, Mayor of Orlando, Florida "When it comes to making places better, there are so many things we can do beyond those conventionally labeled as 'planning.' Most of them involve not the hardware of cities but the software - people. And the best of them are on display in this remarkable book." Jeff Speck, AICP, author of Walkable City: How Downtown Can Save America One Step at a Time "In this book, Peter goes 'next level' and shows us HOW and WHY our placemaking process can help residents and visitors fall in love with your city all over again. This book is for activists, engineers, planners and community leaders committed to transforming their communities." Rebecca Ryan, APF - Futurists/Economist, NEXT Generation Consulting "The book is a love note from Author Peter Kageyama to cities everywhere that will prompt you to more closely examine your own relationship with where you live, work and play."
