Nothing is the same anymore. Everything has changed. Even me. The power that runs through my veins makes me a target. But I won't run, not until I've saved my mother from an execution she does not deserve. The Elders want her dead for breaking one of their cardinal laws—laws they've put in place to ensure control over all species. Now, it's up to me to end their rule with the magic I carry inside me. But every spell, every move I make comes at a price; and I was okay with that. Until I discovered I have more to lose than I ever could have imagined. With both Luke and Marcus at my side I have no choice but to do everything I can to keep the truth from them. This deadly secret I carry has the potential to ruin everything we've fought for. But in the end a decision needs to be made...and I'll have to be the one to carry the consequences. If you love paranormal creatures, twists and turns, and sizzling passion, this is the book for you. Understanding the Bible, the Koran, and the Bhagavad-Gita - Christopher Alan Anderson 2012-09-12
This this article, the author presents the

metaphysical paradigm from which we may understand the Bible, the Koran, and the Bhagavad-Gita—or any religious writing. Author Bio: Christopher Alan Anderson (1950 -) received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental/romantic tradition, that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love. Mr. Anderson began these writings in 1971. The first writings were published in 1985. On a personal note, when Mr. Anderson was asked to describe the writings and what he felt their message was he responded, "Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now." Keywords: Man and Woman Balance, Relationships, Procreation, Spirituality, Love, Metaphysics, Eternal, Creation, Sexuality, & Soul.

The Dance of Reality - Alejandro Jodorowsky
2014-06-06

A glimpse into the mind and life of one of the most creative and enigmatic visionaries of our time, filmmaker Alejandro Jodorowsky • Retraces the spiritual and mystical path Jodorowsky has followed since childhood, vividly repainting events from the perspective of an unleashed imagination • Explores the development of the author's psychomagic and metagenealogy practices via his realization that all problems are rooted in the family tree • Includes photos from Jodorowsky's appearance at the 2013 Cannes Film Festival and from the film based on this book, which debuted at Cannes Retracing the spiritual and mystical path he has followed since childhood, Alejandro Jodorowsky re-creates the incredible adventure of his life as an artist, filmmaker, writer, and therapist--all stages on his quest to push back the boundaries of both imagination and reason. Not a traditional autobiography composed of a chronological recounting of memories, *The Dance of Reality* repaints events from Jodorowsky's life from the perspective of an unleashed imagination. Like the psychomagic and metagenealogy therapies he created, this autobiography exposes the mythic models and family templates upon which the events of everyday life are founded. It reveals the development of Jodorowsky's realization that all problems are rooted in the family tree and explains, through vivid examples from his own life, particularly interactions with his father and mother, how the individual's road to true fulfillment means casting off the phantoms projected by parents on their children. *The Dance of Reality* is autobiography as an act of healing. Through the retelling of his own life, the author shows we do not start off with our own personalities, they are given to us by one or more members of our family tree. To be born into a family, Jodorowsky says, is to be possessed. To peer back into our past is

equivalent to digging into our own souls. If we can dig deep enough, beyond familial projections, we shall find an inner light--a light that can help us through life's most difficult tests. Offering a glimpse into the mind and life of one of the most creative and enigmatic visionaries of our time, *The Dance of Reality* is the book upon which Jodorowsky's critically acclaimed 2013 Cannes Film Festival film of the same name was based.

Glimpses of Eternity - Valeh Jafarov
2023-04-20

During his university days in Russia, where he was training to become an engineer, author Valeh Jafarov had a series of mystical experiences that triggered a life-changing spiritual awakening. Through these experiences and his subsequent study of spirituality, consciousness, psychoanalysis and related topics, he gained a deeper understanding of the architecture of the mind, the material and non-material worlds, the nature of the human psyche, the main causes of the problems we face in the modern world, and their relation to the lack of love and the dominance of the ego in our lives. This experience became the foundation for a lifetime of spiritual searching and growth that was intensified when he moved from engineering into the field of healthcare and holistic medicine. Jafarov wrote this book not only to share his experiences and insights with readers but also to show them how they, too, can break the limitations of consciousness, materialism, and the ego and live a new life filled with love, compassion, and fulfillment. Rather than a series of practical steps, this book offers inspiration for readers to follow their own unique path as they seek to make contact with the divine and catch their own glimpses of eternity.

On the Eternal in Man - Max Scheler

Max Scheler (1874-1928) decisively influenced German philosophy in the period after the First World War, a time of upheaval and new beginnings. Without him, the problems of German philosophy today, and its attempts to solve them would be quite inconceivable. What was new in his philosophy was that he used phenomenology to investigate spiritual realities. The subject of *On the Eternal in Man* is the divine and its reality, the originality and non-derivation of religious experience. Scheler shows the characteristic quality of that which is religious. It is a particular essence that cannot be reduced to anything else. It is a sphere that belongs essentially to humankind; without it we would not be human. If genuine fulfillment is denied it, substitutes come into being. This religious sphere is the most essential, decisive one. It determines man's basic attitude towards reality and in a sense the color, extent and position of all the other human domains in life. It forms the basis for various views about life and thought. Scheler was emphatically an intuitive philosopher. In Scheler's work the break between being as the almighty but blind rage and value as the knowing but powerless spirit has become complete, and makes of each human a split being. Personal experiences may be reflected here. The development of Scheler's work as a whole was highly dependent on his personal experiences. It is this that gives Scheler's work its liveliness and its validity.

Marx's Wager - Thomas Kemple 2022-10-13

Marx's masterpiece *Capital* (*Das Kapital*)

ignored or misread as well as selectively and creatively interpreted by the generation of social scientists that came after him. Emile Durkheim, Max Weber, and Georg Simmel attempt to supplement what they call 'historical materialism' or to engage in debates about 'socialism' through their readings of *The Communist Manifesto* and *occasional Capital*. Although these and other classical sociologists did not have access to most of Marx's published and unpublished works as we do today, each is concerned with revising and refining Marx's unfinished critique of political economy. Despite their differences with Marx and with one another, they share his concern with how empirically detailed and scientifically valid knowledge of the social world may inform historical struggles for a more human world. This commitment can be called 'Faustian', after the title character of the poet J. W. von Goethe's tragic epic of modernity, insofar as Marx and the classical sociologists hope to translate theory into practice while making a pact or wager with the diabolical social, political, and economic forces of the modern world.
