narrative childbirth experiences of a group of women, outlining current policy and providing an overview of the relevant discourses to which women are exposed when making choices for maternity care. This book is unique in presenting narratives that reveal varying identities for women across their maternity experience, illustrating how maternity choices are simultaneously promised and constrained. It provides practitioners, service providers and policymakers in maternity care, and all those with an interest in birth provision, with profound insights into both women's experiences of childbirth and how choices can be better facilitated in future. 'Maternal choice and control are a challenge in contemporary society, with the changing demography of the population, the rising birth rate and financial constraints. Collecting this diverse information in one publication is timely and an invaluable resource for the practising and academically active midwives, obstetricians and health service managers.' - From the Foreword by Tina Lavender

Down and Dirty Pictures Peter Biskind 2013-01-08 In this “dishy...superbly reported” (Entertainment Weekly) New York Times bestseller, Peter Biskind chronicles the rise of independent filmmakers who reinvented Hollywood—most notably Sundance founder Robert Redford and Harvey Weinstein, who with his brother, Bob, made Miramax Films an indie powerhouse. As he did in his acclaimed *Easy Riders, Raging Bulls*, Peter Biskind “takes on the movie industry of the 1990s and again gets the story” (The New York Times). Biskind charts in fascinating detail the meteoric rise of the controversial Harvey Weinstein, often described as the last mogul, who created an Oscar factory that became the envy of the studios, while leaving a trail of carnage in his wake. He follows Sundance as it grew from a regional film festival to the premier showcase of independent film, succeeding almost despite the mercurial Redford, whose visionary plans were nearly thwarted by his own quixotic personality. Likewise, the directors who emerged from the independent movement, such as Quentin Tarantino, Steven Soderbergh, and David O. Russell, are now among the best-known directors in Hollywood. Not to mention the actors who emerged with them, like Matt Damon, Ben Affleck, Ethan Hawke, and Uma Thurman. Candid, controversial, and “sensationally entertaining” (Los Angeles Times) *Down and Dirty Pictures* is a must-read for anyone interested in the film world.
