*The Blue Castle* Lucy Maud Montgomery 2022-11-13 Valancy Stirling is twenty-nine, unmarried, and has lived her entire life with her gossip-minded family who actively discourage her happiness. When Valancy is diagnosed with a terminal heart ailment, she realizes she has never been happy in her life, and rebels against her family. Valancy decides to move out of her mother's house and take a position as a housekeeper for a friend of hers who is now gravely ill, Cissy Gay. *After the Death of a Child* Ann K. Finkbeiner 2012-12-11 For a parent, losing a child is the most devastating event that can occur. Most books on the subject focus on grieving and recovery, but as most parents agree, there is no recovery from such a loss. This book examines the continued love parents feel for their child and the many poignant and ingenious ways they devise to preserve the bond. Through detailed profiles of parents, Ann Finkbeiner shows how new activities and changed relationships with their spouse, friends, and other children can all help parents preserve a bond with the lost child. Based on extensive interviews and grief research, Finkbeiner explains how parents have changed five to twenty-five years after the deaths of their children. The first half of the book discusses the short- and long-term effects of the child's death on the parent's relationships with the outside world, that is, with their spouses, other children, friends, and relatives. The second half of the book details the effect on the parents' internal world: their continuing sense of guilt; their need to place the death in some larger context and their inability sometimes to consistently do so; their new set of priorities; the nature of their bond with the lost child and the subtle and creative ways they have of continuing that bond. Finkbeiner's central point is not so much how parents grieve for their children, but how they love them. Refusing to fall back on pop jargon about "recovery" or to offer easy solutions or standardized timelines, Finkbeiner's is a genuine and moving search to come to terms with loss. Her complex profiles of parents resonate with the honesty and authenticity of uncomfortable emotions expressed and, most importantly, shared with others experiencing a similar loss. Finally, each profile

exemplifies the many heroic ways parents learn to live with their pain, and by so doing, honor the lives their children should have lived.

**The Distance Between Us** Reyna Grande 2012-08-28 When Reyna Grande's father leaves his wife and three children behind in a village in Mexico to make the dangerous trek across the border to the United States, he promises he will soon return from "El Otro Lado" (The Other Side) with enough money to build them a dream house where they can all live together. His promises become harder to believe as months turn into years. When he summons his wife to join him, Reyna and her siblings are deposited in the already overburdened household of their stern, unsmiling grandmother. The three siblings are forced to look out for themselves; in childish games they find a way to forget the pain of abandonment and learn to solve very adult problems. When their mother at last returns, the reunion sets the stage for a dramatic new chapter in Reyna's young life: her own journey to "El Otro Lado" to live with the man who has haunted her imagination for years, her long-absent father. -- Jacket, p. [2].

**Signing the Contract, and what it Cost** Martha Finley 1879

The sun had set amid angry clouds; deep shadows already filled the recesses of the forest through which the iron horse went thundering on its way, while an icy wind, bringing with it frequent dashes of rain and sleet, swept through the leafless branches of the trees, tossing them wildly against a dull leaden sky. A lady, gazing out into the gathering gloom, started with a sudden exclamation of surprise and dismay. Her husband leaned hastily past her to see what had called it forth; then, with a smile at his own folly in forgetting that at the rate of speed with which they were moving the object, whatever it might be, was already out of sight, settled himself back again, bending a look of mild inquiry upon her agitated countenance. She shivered, and drawing her shawl more closely about her, put her lips to his ear, that she might be heard above the noise of the train.
