Twelve Feet Up - John Penteros
2020-07-21

High school freshman Joe McKinnon loves pizza, hates public speaking, and has fallen hard for a girl. Pretty typical. Not so typical is Joe's prosthetic leg, which he's had since the car crash two years ago that killed his father and left him with a burning desire to rid the world of automobiles. The object of Joe's affections, Jun Song, is a year behind Joe in school, yet way ahead of him in smarts. When Jun is brutally attacked on her way home one day, her already-protective mother shifts into overdrive, making it virtually impossible for Jun and Joe to see each other. But Joe's into Jun in a big way, and he needs her ginormous brain to make his dream a reality. Giving up is not an option. Joe signs up for the "Science Team ExtreMe" competition, which, as luck would have it, is the perfect way to be with Jun while progressing his ideas for an automated, planet-wide monorail system. Joe enlists former enemy Praveen and

new friends Sam and Zoey to begin the design until Jun comes on board and the work really gets started. Now the only things standing between Joe and his dream are Jun's mom, team drama, PTSD, archaic competition rules, seemingly impossible feats of engineering, and a plague of self-doubts. No problem.

Danielle Peterson is a graphic designer, orchestral flutist, and open/champion level Irish dancer who lives in Arizona.

Left to Die - J. B. Shaffer 2009
1969, Chappaquiddick, Martha's Vineyard: Mary Jo Kopechne is the unsuspecting victim of a fatal car accident. The driver is Senator Edward (Ted) Kennedy. This is a story that details the investigation, inquest, and grand jury deliberations into the young woman's untimely death. Leslie H. Leland, jury foreman, gives his own account of how the entire grand jury was stymied in seeking evidence relating to the accident caused by Senator Ted Kennedy and the threats made on his and his family's lives. A never before reported analysis of how the grand jury was denied its own legal rights, Left to Die is one example of how power and corruption can override America's justice system. Upon hearing the details, one judge stated, "That was not only intimidation, that

was tampering with the grand jury." Author Bio: About the authors: Leslie H. Leland is a retired pharmacist. His background is detailed within the book.

The Mysteries of the Relict Pyramid (Reality Benders Book #9): LitRPG Series - Michael Atamanov 2022-07-25

Gnat the Devourer is becoming a more prominent figure in grand space politics. Sure, he may not be totally independent yet, but he has enough leeway to be able to differentiate Earth's interests from those of its Geckho suzerains and act exclusively for the good of his own kind. Gnat must balance obligations to his almighty suzerains against a desire to advance humanity's position in space, and his home planet's search for ever more allies. Although Earth's masters are not big fans of his independent ways, the great war has shifted the historic balance of forces, and the Geckho are no longer as powerful as they once were, leaving them with no choice but to abide the Kung of Earth's antics. So, will Earth be

able to take this chance and free itself from alien control completely? And if so, is it even a good idea? And that means one of the human leaders will have to back down.

The Tommyknockers - Stephen King 2016-08-30
Master storyteller Stephen King presents the classic, terrifying #1 New York Times bestseller about a terrifying otherworldly discovery and the effects it has on a small town. "Late last night and the night before, Tommyknockers, Tommyknockers, knocking at the door..." On a beautiful June day, while walking deep in the woods on her property in Haven, Maine, Bobbi Anderson quite literally stumbles over her own destiny and that of the entire town. For the dull gray metal protrusion she discovers in the ground is part of a mysterious and massive metal object, one that may have been buried there for millennia. Bobbi can't help but become obsessed and try to dig it out...the consequences of which will affect and transmute every citizen of Haven, young

and old. It means unleashing extraordinary powers beyond those of mere mortals—and certain death for any and all outsiders. An alien hell has now invaded this small New England town...an aggressive and violent malignancy devoid of any mercy or sanity...

Reducing Underage Drinking - Institute of Medicine
2004-03-26

Alcohol use by young people is extremely dangerous - both to themselves and society at large. Underage alcohol use is associated with traffic fatalities, violence, unsafe sex, suicide, educational failure, and other problem behaviors that diminish the prospects of future success, as well as health risks "and the earlier teens start drinking, the greater the danger. Despite these serious concerns, the media continues to make drinking look attractive to youth, and it remains possible and even easy for teenagers to get access to alcohol. Why is this dangerous behavior so pervasive? What can be done to prevent it? What will work and

who is responsible for making sure it happens? Reducing Underage Drinking addresses these questions and proposes a new way to combat underage alcohol use. It explores the ways in which may different individuals and groups contribute to the problem and how they can be enlisted to prevent it. Reducing Underage Drinking will serve as both a game plan and a call to arms for anyone with an investment in youth health and safety.

Lazy Dungeon Master:
Volume 14 - Supana Onikage
2021-05-26

I'm Keima Masuda the Dungeon Master, still chasing my dream to live a life without work. I finally get home from my trip to the Demon Realm (where I spent basically the whole time as a slave), but now Aidy the Demon Realm's princess is visiting the empire. I knew I'd be forced to give her a tour, but... "Can you do nothing about how dreadfully boring it is here, town chief?" The peaceful empire is simply

too boring for Aidy! I have to go hunt down someone for Aidy the battle junky to slay in battle?! This is Volume 14 of my own kind of dungeon story! Let's fix this before I get slain myself!

Settling Scores - Danielle Stewart
2014-11-21

Willow has been saved from a painfully dark past and handed a bright future. By all accounts, she should be happy. But no one seems to understand that escaping evil hasn't left her feeling free of it. The more people try to hold her close, the harder she fights to get away. Even the unconditional support from Edenville isn't enough to help her keep her head above water. On a journey to settle scores and find answers to questions that haunt her memories, Willow hopes to mend her heart. Meanwhile, the man she has pushed away time and again fights to show her the only chance she has at happiness is opening her heart to the love that is right in front of her. But even Josh's loyalty has its limits; how long before even he

Nyte Terrors - Alex P. Berg
2019-11-13

Life for college softball player Lexie Rodriguez was all midterms and afternoon practices until she joined the supernatural problem-solvers known as the Nyte Patrol, but learning about magic and things that go bump in the night has awakened in her a taste for adventure. A taste that just might kill her. When a client goes missing and co-worker Larry's niece is found in a coma, Lexie dives into the investigations, but rumors from the spirit realm and bad dreams alike point toward a foe who's tough to tackle: a demonic spirit, hell bent on revenge for the death of its mortal host. It's bloodthirsty. It's relentless. And it's coming

for Lexie.

[A Tourist's Guide to Glengarry](#) -
Ian McGillis 2002

Nine-year-old Neil McDonald has always wanted to write a book. Every time he tries, though, it comes out `like the Hardy Boys or something'. But when a maverick substitute teacher challenges him to record all the events and thoughts of a single day, the doors of creativity swing open. It helps that the day in question is, in Neil's words, `pretty weird'. The time is the fall of 1971; the setting is 'North America's northernmost Metropolis'. The cast includes Neil, his best friend Keith and his gnome-like baba, a budding Black Power advocate, the heavy-smoking son of anti-war activists, and a very small boy wielding a very large axe in a public park. Neil thinks his day will climax with the broadcast of the first night game in World Series history, but what he's in for is something much deeper, a surprise that will teach him much about the world and his place in it. In the end, Neil has

Afraid of the Light - Michael Cummins 2007-08

Michael was a gifted sportsman and intelligent young man. His dream was professional golf and a three year stay in the USA, was the opening he needed. But Michael was stubborn and rebellious and decided to live life on his terms. It was the 1970s, Led Zeppelin ruled the airwaves, and this marked his descent into drug and alcohol oblivion.

Glannon Guide to Evidence -

Michael Avery 2018-09-21

Law school classroom lectures can leave you with a lot of questions. Glannon Guides can help you better understand your classroom lecture with straightforward explanations of tough concepts with hypos that help you understand their application. The Glannon Guide is your proven partner throughout the semester when you need a supplement to (or substitute for) classroom lecture. Here's why you need to use Glannon Guides to help

you better understand what is being taught in the classroom: It mirrors the classroom experience by teaching through explanation, interspersed with hypotheticals to illustrate application. Both correct and incorrect answers are explained; you learn why a solution does or does not work. Glannon Guides provide straightforward explanations of complex legal concepts, often in a humorous style that makes material stick.

from unstructured to semi structures and structured data. The 7 full papers presented together with 3 short papers in this volume were carefully reviewed and selected from 14 submissions. This year, the contributions addressed the following challenges: authorship attribution, fake news detection and news tracking, noise-detection in automatically transferred relevance judgments, impact of online education on children's conversational search behavior, analysis of multi-modal social media content,

knowledge graphs for sensitivity identification, a fusion of deep learning and logic rules for sentiment analysis, medical concept normalization and domain-specific information extraction. In addition to this, the volume presents 7 "best of the labs" papers which were reviewed as full paper submissions with the same review criteria. 14 lab overview papers were accepted and represent scientific challenges based on new datasets and real world problems in multimodal and multilingual information access.
