The New I Do Susan Pease Gadoua 2014-09-23 If half of all cars bought in America each year broke

down, there would be a national uproar. But when people suggest that maybe every single marriage doesn't look like the next and isn't meant to last until death, there's nothing but a rash of proposed laws trying to force it to do just that. In *The New I Do*, therapist Susan Pease Gadoua and journalist Vicki Larson take a groundbreaking look at the modern shape of marriage to help readers open their minds to marrying more consciously and creatively. Offering actual models of less-traditional marriages, including everything from a parenting marriage (intended for the sake of raising and nurturing children) to a comfort or safety marriage (where people marry for financial security or companionship), the book covers unique options for couples interested in forging their own paths. With advice to help listeners decide what works for them, *The New I Do* acts as a guide to thinking outside the marital box and the framework for a new debate on marriage in the 21st century.

"Sex Camp" Brian McNaught 2005-01-14 Thirty-two strangers arrive at a Church-owned retreat facility on Saturday to work with some of the best trainers in the field of sexuality. They're told that by the end of the week, they'll know more about sex than ninety percent of the population. What they go home with on the following Saturday is a lot more than they anticipated or were promised. Besides laughing, crying, swearing, and cheering through films and intimate discussions about sexual values, body image, self-pleasuring, gender identity, sexual orientation, seduction, abuse, theology, and turn ons, they faced off with each other around an altar in the woods, under blankets and star-filled skies, bare-assed in the water, and with hands joined singing in a circle. Most everyone goes home forever changed. That is, if they make it through the week. The Annual Workshop on Sexuality at Thornfield was called the world's best kept secret. Now you're in on it.

Sex After Sixty Marie de Hennezel 2016-11-10 In *Sex After Sixty*, Marie de Hennezel addresses the most taboo of subjects: the sexuality of seniors. Employing an equal measure of modesty and irreverence, de Hennezel probes the mystery and depth of the enjoyment of physical love at a later stage of life. Through interviews, lectures, and her own analysis — including forays into areas such as tantric sex — she invites the reader on a journey to the heart of this unrecognised territory. It turns out that emotional intimacy plays a huge role in maintaining a sex life as you age. The quality of a relationship obviously matters a lot in being able to take your time, trust your partner, and explore a sexuality that's more sensual and more playful than that of earlier years. It's all about knowing how to take pleasure as it comes, rather than focussing on what could be ... This is what characterises a less impulsive, but more erotic, sexuality. And it's not less satisfying, either. Far from it.

Lesbian Dames Caroline Gonda 2016-05-06 How are romantic and erotic relationships between women represented in the literature of the long eighteenth century? How does Sapphism surface in other contemporary discourses, including politics, pornography, economics and art? After more than a generation of lesbian-gay scholarship that has examined identities, practices, prohibitions and transgressions surrounding same-sex desire, this collection offers an exciting and indispensable array of new scholarship in gender and sexuality studies. The contributors - who include noted writers, critics and historians such as Emma Donoghue, George E. Haggerty, Susan S. Lanser and Valerie Traub - provide varied and provocative research into the dynamics and histories of lesbianism and Sapphism. They build on the work of scholarship on Sapphism and interrogate the efficacy of such a notion in describing the varieties of same-sex love between women during the long eighteenth century. This groundbreaking collection, the first multi-authored volume to examine

Selling Sex Overseas Ko-lin Chin 2012-09-17 2013 Outstanding Book Award Winner from the Division of International Criminology, American Society of Criminology Every year, thousands of Chinese women travel to Asia and the United States in order to engage in commercial sex work. In *Selling Sex Overseas*, Ko-lin Chin and James Finckenauer challenge the current sex trafficking paradigm that considers all sex workers as victims, or sexual slaves, and as unwilling participants in the world of commercial sex. Bringing to life an on-the-ground portrait of this usually hidden world, Chin and Finckenauer provide a detailed look at all of its participants: sex workers, pimps, agents, mommies, escort agency owners, brothel owners, and drivers. Ultimately, they probe the social, economic, and political organization of prostitution and sex trafficking, contradicting many of the 'moral crusaders' of the human trafficking world.

The Older Woman in Recent Fiction Zoe Brennan 2014-12-09 This critical study explores late twentieth century novels by women writers—including Doris Lessing, May Sarton and Barbara Pym—that feature female protagonists over the age of sixty. These novels' discourses on aging contrast with those largely pejorative ones that dominate Western society. They break the silence that normally surrounds the lives of the aged, and this book investigates how older female protagonists are represented in relation to areas such as sexuality, dependence and everyday life. Beginning with an investigation of popular opinions about aging and a survey of hypotheses from disciplines including gerontology, psychology and feminism, the text reviews literary critical attitudes toward fictions of aging; analyzes representations of physically dependent characters,

whose anger over their failing bodies is often eased by relationships with their female friends; discusses how paradigms of female sexuality exclude the possibility of older women being sexually desirable; examines characters that live a contented life, finding a more polemical side to them than is noted in more conventional literary critiques; and analyzes the aged sleuth in classical detective fiction.

Add this book to your arsenal in the battle to remain pure! The most difficult task in the life of a Christian single today is maintaining purity until marriage. The payoff is perfect love and sex, just as our Creator intended. But if that's so awesome, why aren't more people choosing it? And how can premarital sex be so bad if so many people are doing it and loving it? People who were virgins when they married aren't usually the type to kiss and tell. And when premarital sex goes wrong, no one wants to Tweet it. This awkward silence from both contingents isn't helping the next generation to decide well on the issue of premarital sex. *Purity's Big Payoff/Premarital Sex is a Big Rip-off* is a collection of 17 first-person narratives about successfully waiting for marriage to have sex - or not. Contributors on both sides of the issue candidly share in face-reddening detail what they learned on their way to the wedding bed. Young people aiming to remain pure will be encouraged and learn practical strategies for resisting sexual temptation. Those who wish they had waited will learn that it's never too late to restore purity with God's grace. (This book is two-faced. One side is dedicated to purity, then turned over and flipped upside down, the other side is dedicated to premarital sex. Thus the last page of the purity book is immediately followed by the last page of the premarital sex book, but upside down,

Better Than I Ever Expected Joan Price 2005-12-13 *Better Than I Ever Expected* is a warm, witty, and honest book that contends with the challenges and celebrates the delights of older-life sexuality. It asserts that women over sixty are at the top of their game when it comes to enjoying sex. Joan Price's woman-to-woman straight talk transcends the self-help style of other books in this field. Yes, there are challenges to sex after menopause and beyond, says Price, but there are also creative solutions. She is on a mission to let women her age and older know that they can, in fact, have the best sex of their lives. Price gets personal and stays positive, combining her own story with candid comments, tips, and sassy tales from sexually seasoned women. She acknowledges the gritty issues that older women confront in their sexual lives, noting that it's not easy, but it certainly isn't over. At age 61, Price is newly engaged to the man she's been looking for her whole life. Her discovery of how great "well-seasoned" sex can be was the inspiration for this book. Dataclysm Christian Rudder 2014-09-09 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In *Dataclysm*, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, *Dataclysm* is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

Out of Time Lynne Segal 2013-11-05 In *Out of Time*, leading thinker Lynne Segal examines her life and surveys the work and lives of other writers and artists to explore the pleasures and perils of growing old. Following in the footsteps of Simone de Beauvoir—who in her mid-fifties mourned 'never again!' and yet was energetically writing in her sixties and seventies—Segal mixes memoir, literature and polemic to examine the inevitable consequences of staying alive. Who is that stranger who stares back from the mirror? What happens to ambition and sexuality? As millions of baby boomers approach their sixth or seventh decade, these questions are becoming increasingly urgent. Must the old always be in conflict with the young? How can we deal with the inevitability of loss and find victory in survival? Brilliant, moving and challenging, *Out of Time* is an urgent and necessary corrective to the assumptions and taboos that constrain the lives of the aged.

Sex, Time, and Power Leonard Shlain 2004-08-03 As in the bestselling *The Alphabet Versus the Goddess*, Leonard Shlain's provocative new book promises to change the way readers view themselves and where they came from. *Sex, Time, and Power* offers a tantalizing answer to an age-old question: Why did big-brained *Homo sapiens* suddenly emerge some 150,000 years ago? The key, according to Shlain, is female sexuality. Drawing on an awesome breadth of research, he shows how, long ago, the narrowness of the newly bipedal human female's pelvis and the increasing size of infants' heads precipitated a crisis for the species. Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles, entraining them with the periodicity of the moon. The results, however, did much more than ensure our existence; they imbued women with the concept of time, and gave them control over sex—a power that males sought to reclaim. And the possibility of achieving immortality through heirs drove men to construct patriarchal cultures that went on to dominate so much of human history. From the nature of courtship to the evolution of language, Shlain's brilliant and wide-ranging exploration stimulates new thinking about very old matters.

Loving Later Life Frits de Lange 2015-04-23 Is loving later life possible? In our youth-obsessed culture, nobody enjoys growing old. We normally fear our own aging and generally do not love old people -- they remind us that death is inescapable, the body frail, and social status transitory. In *Loving Later Life* Frits de Lange shows how an ethics of love can acknowledge and overcome this fear of aging and change our attitude toward the elderly. De Lange reframes the biblical love command this way: "We must care for the aging other as we care for our own aging selves." We can encourage positive self-love by embracing life as we age, taking good care of our own aging bodies,

This book discusses the different outside influences that affect men and women relationships with each other, that causes men and women to be violent towards each other. The New Ourselves, Growing Older Paula Brown Doress-Worters 1994 Offers women over forty advice on housing, health, and more.

Sex in Development Vincanne Adams 2005-04-12 Sex in Development examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes “normal” sexual practices and identities. From sex education in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in ostensibly value-neutral efforts to put into practice a “global” agenda reflecting the latest medical science. Sex in Development combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a “value free” way to offer patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world.
