*Final Chapters* Jim Bernhard 2015-10-13 "Everybody has got to die, but I have always believed an exception would be made in my case." -William Saroyan, Pulitzer Prize-winning author Famous authors, like everybody else, know that one day they will die.

Final Chapters tells the fascinating stories of more than one hundred writers' encounters with death—and their attitudes toward the Grim Reaper: fear, uncertainty, or acceptance. Francis Bacon wrote, "It is as natural to die as to be born," while Socrates told the judges who condemned him, "And now we go our ways, I to die and you to live. Which is better is known to God alone." Death often came in startling ways for these well-known writers. The playwright Aeschylus was conked by a turtle falling from the sky. Christopher Marlowe was stabbed in a barroom brawl. Molière collapsed while playing the role of a hypochondriac in one of his plays. Edgar Allan Poe was found semicomatose in someone else's clothes shortly before he died. Sherwood Anderson was felled by a toothpick in a martini. Did Dylan Thomas really die of eighteen straight whiskeys? And was it a bottle cap or murder that did in Tennessee Williams? If these authors have lessons for us, the best may be that of Marcus Aurelius: "Death smiles at us all; all we can do is smile back."

German bomb that destroyed his Clapham home. Climb down the dingy steps from London Bridge to the Thames Path below and imagine how it felt to be Nancy trying to save Oliver Twist, only to then meet her own violent death. Drink in the same pub where Bram Stoker listened to the ghost stories that inspired Dracula, the plush drinking house where Noel Coward performed, and the bars and cafes frequented by modern writers. This is the first literature guide to London to be fully illustrated throughout with beautiful color photographs. It can be used as a guidebook on a physical journey through London, or as a treasury of fascinating, often obscure tales and information for book lovers to read wherever they are.

**Curiosities of Literature** John Sutherland 2010-10-31 How much heavier was Thackeray's brain than Walt Whitman's? Which novels do American soldiers read? When did cigarettes start making an appearance in English literature? And, while we're about it, who wrote the first Western, is there any link between asthma and literary genius, and what really happened on Dorothea's wedding night in Middlemarch? In *Curiosities of Literature*, John Sutherland contemplates the full import of questions such as these, and attempts a few answers in a series of essays that are both witty and eclectic. His approach is also unashamedly discursive. An account of the fast-working Mickey Spillane, for example, leads to a consideration of the substances, both legal and illegal, that authors have employed to boost their creative energies. An essay on good and bad handwriting points out in passing that Thackeray could write the Lord's Prayer on the back of a stamp. As for Mary Shelley, a brief recital of the circumstances in which she wrote *Frankenstein* stops off to consider what impact the miserable summer weather of 1816 had on the future path of English literature. Of course, it is debatable whether knowledge of these arcane topics adds to the wisdom of nations, but it does highlight the random pleasures to be found in

reading literature and reading about it. As John Sutherland rightly asks, 'Why else read?'

C'est à travers ces questions et beaucoup d'autres que l'auteur tente d'analyser les principales facultés de l'esprit : perception, raisonnement, relations sociales, humour, art, religion, philosophie, etc. Un ouvrage qui reste clair et accessible malgré son contenu spécialisé. the quizmaster to end all quizmasters' DAVID QUANTICK davidquantick.com This is a literary quiz book with a difference. Rather than basic sets of questions, The Book Lover's Quiz Book mirrors the format of Gary's live quizzes, at the Betsey Trotwood in London and elsewhere. So, there are lots of multiple-choice questions, some amusing answers, clever red herrings, little-known facts about authors and some of the much-loved Say What You See picture round. Also, there are fixed and variable rounds - fixed ones include 'Blankety Books' (one word missing from the title - always with a theme), 'Literary Links and lists' (what connects/next in the list etc.) and '2 of a Kind' (name the character and the author that share the same initials). The changeable rounds keep the quizzes fresh and include 'What the Dickens?' (real or made-up Dickens names), 'RomeNo or JuliYess' (real or made-up Shakespearian insults) and 'Book Bingo!' (identify the correct number). There are also more standard rounds such as 'First Lines', 'Working Titles' and 'Banned Books'. The aim of all Gary's quizzes, and this book, is that people should have fun and be able to guess (if they don't know) as much as possible.

Branding with Powerful Stories Greg Stone 2018-12-07 Whether you are branding your company, your product, your service, or yourself, learn to boost the power of your story and convey a compelling message in any setting by incorporating villains, victims, and heroes. Compelling stories exalt, motivate, and acculturate every worker in an enterprise. They also attract customers and media alike. Imagine an elderly man, snowed in, unable to shop for groceries until a supermarket comes to the rescue and delivers his food. The story of this company going out of its way to help a customer in need will resonate not only with consumers but also with employees. This book explains not just how to tell a captivating story, but also what elements—namely, villains, victims, and heroes—it should include in the first place. This approach is based on the notion that in business messaging,

the villains may just be your best friends. The "villains" are simply any problems that cause pain, discomfort, or extra expense for customers, who are in effect the "victims." As for the "heroes," they are best illustrated by the supermarket going beyond expectations. Who in business wouldn't want to emulate that company? If your products and services offer real solutions to customers' predicaments, there is nothing more powerful than communicating that message and making sure your potential customers remember it.
