Everything Is Negotiable - Meg Myers Morgan 2018-12-04

Surprising ways we limit ourselves and our happiness, and how to challenge the internalized wisdom and circular thinking that holds us back. As women, many of us are stuck in feedback loops about how to be successful and happy: striving to "have it all" at work and at home, letting ourselves be pressured into giving every part of our lives 100% until we're completely burnt-out, imagining only a strictly linear life path (college, job, marriage, kids), and accepting limitations without question. Yet the truth is, this book argues, most of the conventional wisdom about driving our life choices is total baloney. In *Everything Is Negotiable*, Meg Myers Morgan deconstructs preconceived notions about adulthood, parenthood, and career paths that have us limiting ourselves. Instead of following that linear plan, for example, she urges readers to take action now for what we want -- limitations be damned. With wit and verve, Morgan also tells us to forget trying to "have it all," as the cliché phrase goes -- it'll never happen. And, Morgan argues, don't bother trying to give 100% -- we simply can't give anything 100% attention, ever! Instead, this book teaches us to navigate life's necessary trade-offs free of the baggage of our own expectations. Chock full of strategies for where and when to give our limited energy, what to demand from our careers, and how to make better choices, *Everything Is Negotiable* is for women ready to seize the lives they really want.

LOVE BIBLE SERIES 1: LIFE CONTRACT (Vol. 1) - CHRIS WEI CHEN 2021-01-16

Believe the cosmic rule that no one is sent by God to you without a reason. Why on earth it is he or she who met me and turn my life upside down? Why the one in trillion chances rested on him or her to give me such a shocking wave of love/life lesson? The reason why we have the sixth sense intuition as human beings are because our souls had read the script of our current life before incarnation took place. We just forgot all the details. It is not unusual that we get strong premonitions before major life events happen. It is also not surprising when we feel hidden turns always lurking somewhere without any logic facilitation. If we feel needy to this world, then we owe the world something. If we feel needy to someone, then we owe this person something. The needy tendency is an inborn thing, the so-called "Love at First Sight". Or it could be acquired, the so-called "Emotional Entanglement". Being Needy shows what we owe the outside because it keeps draining energy from us not what the outside owes us Mankind is often confused between the two. To learn more, just look into LIFE CONTRACT and give me your feedback, the 2nd series will be coming up soon.

Loving Creation - Gary Chartier 2022-09-27

Is it true that all we need is love? Does love capture the essence of Christian ethics? Does a love-centered ethic need to be impartial in a way that leaves no room at ground-level for relationships and projects? What is the place of well-being in an ethic of love? Loving Creation: The Task of Moral Life seeks to answer these questions by showing how a love-ethic and an ethic of creation are not at odds but rather reinforce each other. Gary Chartier articulates a love-centered creation ethic--or a creation-centered love-ethic--and applies it to such issues as sex, economic life, love for enemies, and political order. In the book, Chartier offers a powerful alternative both to natural-law theories that seem to lose sight of the welfare of actual people and to the accounts of Christian love that embrace an alienating impartiality. He develops an understanding of Christian love as focused on creation that can contribute effectively to enriching both social practices and personal

lives. Loving Creation is unabashedly theological. But the theological considerations it adduces are ones that will allow Christians to engage in the public sphere with adherents of other religious traditions and of none. It is a contribution not only to theological understanding but also to personal moral reflection, to church practice, and to Christian participation in public life.

Value Capture Selling - Jean-Claude Larreche 2023-10-25

"The sales book of the decade" —Selling Power magazine Value Capture Selling is the first book to directly address one of the most destructive shortcomings in sales organizations today. Author JC Larreche's approach is so innovative that Selling Power magazine named it "The sales book of the decade." For years, sales professionals have focused on creating value for their customers—the first phase in selling. However, in today's fast-moving world of business, that is just not enough. Under increased financial pressure, businesses today are being pushed to move to an emphasis on the second phase of selling: the capture of corporate value. However, as all-too-many business leaders are finding out to their great dismay, sales professionals have not been trained in the techniques for the capture of corporate value, and they are at the mercy of very well-trained and tough professional buyers. Value Capture Selling is the first book to address this gap. It is specifically designed to provide sales professionals—both veteran and new alike—with a complete roadmap for making the transition from value selling to value-capture selling, including: Why the creation of corporate value—short, medium, and long term—is essential for the firm and its internal and external partners How to master the key drivers of corporate value: profitability, market share, and customer satisfaction How to prepare for value capture How to frame strategies and tactics for value capture How to close deals for higher corporate value capture Value-capture selling is the current challenge for corporations and sales professionals everywhere—making the transition from a revenue objective to a focus on corporate value. This requires a fundamental shift from a strong belief that bigger is better to a new creed that richer is better. It is what JC Larreche, professor emeritus at INSEAD and an expert on sustainable value creation, calls the 3rd Sales Transformation. In a future marked by escalating financial pressures, the significance of value capture will only grow, and in Value Capture Selling, JC Larreche provides sales

professionals everywhere with the tools they need to become masters at this new art! Praise for Value Capture Selling: 'Most sales forces focus only on revenue, not value capture. Larreche's book can help you make the necessary transition. If you are in Sales, read it because the data revolution is increasing scrutiny from Finance and others in your firm about how selling efforts build or destroy enterprise value. And if you are a C-Suite executive, read it carefully, because selling affects core elements of value creation.' Frank Cespedes, Harvard Business School, author of *Aligning Strategy and Sales* and *Sales Management That Works* 'Value Capture Selling is a very compelling and complete work that illustrates well the challenges of the transition from product value to corporate value—both for the customer and for the supplier. JC Larreche lays out a powerful framework for any sales professional anywhere to win in this new world of selling!' Laurent Beraza, Director - UK, Germany, France - Microsoft Solutions Support Sales 'Value Capture Selling gives us the powerful insights required to capture more value for our company while keeping the customer at the center—right where they belong.' Anna Campagna, Sr. Director Global Sales, HEINEKEN

How to Make a Guy Realize He Is in Love with You in 10 Days -

Maria Ortigoza 2016-09-26

Is there a guy in your life who you know cares about you yet has not committed yet "officially?" By officially, I mean calling you formally as his girlfriend and admitting that he is totally in love with you. Are you frustrated with dating and can't seem to meet a quality guy? Do you long to have a good guy in your life who will be more than happy to call you his girlfriend? Has it been a while since you had someone special in your life? Do you long to call someone your boyfriend and in turn be a girlfriend to a quality guy? Did you somehow mess up, lost your man and want another chance to make things right? Is there a guy you really dig who somehow lost interest, not because he does not like you, but because you pushed him away yourself, then regretted it? Did you somehow hurt his ego, his feelings or wanted out yourself due to your own insecurities and fear? Did you want to move too fast with the relationship, gave him an ultimatum and it backfired? ...These are some of the questions that this book addresses in a "how to" manner and hoping to serve as a guide to help you get by if it gets rough a little bit. We all want LOVE. It is a universal need whether or not we admit it. We want someone to care about us. We want someone to accept us for who we are. We want someone to run to when the going gets tough and to be our refuge. We want to be held. We want to be appreciated. We want to be valued. We want to be loved back. Love is complex. We try our best to be logical and pragmatic about it, but a lot of times, it does not make sense. We just have to do our best each step of the way. NEVER EVER lose faith nor stop believing in LOVE! Because LOVE is IT!!! Here is to meeting the "ONE!.." ..And hoping these "LOVE TACTICS" help you get there...!
