Hang Zheng 2004-05-03

" La chambre jaune " est celle du légendaire  
empereur jaune Hoang Ti, le rédacteur présumé  
du 1er grand ouvrage d'acupuncture : le Nei

King. Les exercices de la " chambre jaune ",  
c'est-à-dire les méthodes sexuelles, sont une  
branche officielle de la médecine chinoise. Basés  
sur la théorie du Yin et du Yang et la  
connaissance des circuits énergétiques, ils ont  
pour but de nourrir notre " essence vitale ",  
accroître notre force, augmenter la longévité...  
Replaçant la sexualité dans le cadre général qui  
est le sien pour les taoïstes : art de santé et  
moyen d'atteindre l'harmonie naturelle, ce livre  
étudie de façon pratique les troubles de la  
sexualité et leurs remèdes, les méthodes pour  
cultiver l'énergie sexuelle, les positions  
bénéfiques...

*Beauvoir in Time* - Meryl Altman 2020

"Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today"--

**Keys to the 21st Century** - Jérôme Bindé 2001  
Since September 1997, UNESCO's Analysis and Forecasting Office has been arranging a series of "Twenty-First Century Talks," each of which brings together two or three leading scientists, intellectuals, creators or decision-makers from all parts of the world. The Office also organized the first "Twenty-First Century Dialogues" in September 1998, in which 60 international participants took part in discussions on the general theme of "Will the Twenty-First Century Take Place?" This text represents an anthology of the contributions made to these future-oriented discussions, up to the ninth session of the "Talks" held in June 1999. Topics include

**Chinese Symbolism and Art Motifs** - Charles Alfred Speed Williams 2006-04-15

This fourth revised edition of *Chinese Symbolism and Art Motifs*, first published in Shanghai in 1941, features an introduction by Dr. Terence Barrow, has been completely reset and now uses the Pinyin pronunciation of Chinese names and words. The Eight Immortals, the five elements, the dragon and the phoenix, yin and yang—representations of these important cultural symbols are pervasive in Chinese literature, art and architecture. Without an understanding of their significance, much Chinese history, folklore and culture can't be fully appreciated. In this comprehensive handbook, C.A.S. Williams offers concise

explanations—and over 400 illustrations—of these essential symbols and motifs. Arranged alphabetically for easy access, the book not only explains essential cultural symbols, accompanied by their Chinese characters, but also contains many articles on Chinese beliefs, customs, arts and crafts, food, agriculture, and medicine. This book has become a standard reference volume for students of China and Chinese culture. For those who are visiting China, *Chinese Symbolism and Art Motifs* is an indispensable guide to the Middle Kingdom's artistic and architectural wonders. For the general reader, it is a valuable compendium of fascinating sinological lore.
