The Transformation of Intimacy Anthony Giddens 2013-04-23

The sexual revolution: an evocative term, but what meaning can be given to it today? How does 'sexuality' come into being and what connections does it have with the changes that have affected personal life on a more general plane? In answering these questions, Anthony Giddens disputes many of the dominant interpretations of the role of sexuality in modern culture. The emergence of what the author calls plastic sexuality - sexuality freed from its intrinsic relation to reproduction - is analysed in terms of the long-term development of the modern social order and social influences of the last few decades. Giddens argues that the transformation of intimacy, in which women have played the major part, holds out the possibility of a radical democratization of the personal sphere. This book will appeal to a large general audience as well as being essential reading for students and professionals.

Facing the Dragon Robert L. Moore 2003 Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled "Jungian Psychology and Human Spirituality: Liberation from Tribalism in Religious Life," this book-length essay attacks the related problems of human evil, spiritual

narcissism, secularism and ritual, and grandiosity. Robert Moore dares to insist that we stop ignoring these issues and provides clear-sighted guidance for where to start and what to expect. Along the way, he pulls together many important threads from recent findings in theology, spirituality, and psychology and brings us to a point where we can conceive of embarking on a corrective course. Traditional doctrinal and historical interpretation both rely heavily on rational analysis. But from the disciples at Emmaus to the beginnings of the present century, it has been the impact of scripture upon the human heart that has changed human lives. In recent decades, this impact has been strengthened by advances in linguistic and literary theory, by such disparate influences as feminism, structuralism, Jungianism, deconstructionism, the analysis of archaic imagery and myth, the recovery of Gnostic texts, and finally an openness to pluralism, whether ethnic, geographic, religious, or interpretive. All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role. "If you would understand the deepest roots of terrorism, greed, and religious fanaticism, read *Facing the Dragon*. But be forewarned: you may find some offshoots in your own garden."-June Singer, Jungian analyst, author of *Boundaries of the Soul* Robert Moore, Phd was an internationally recognized psychotherapist and consultant in private practice in Chicago. He was considered one of the leading therapists specializing in psychotherapy with men because of his discovery of the Archetypal Dynamics of the Masculine Self (King, Warrior, Magician, Lover). He served as Distinguished Service Professor of Psychology, Psychoanalysis and Spirituality at the Graduate Center of the Chicago Theological Seminary, and has served as a Training Analyst at the C.G. Jung Institute of Chicago. He is Co-founder of the Chicago Center for Integrative Psychotherapy.

Reading Rilke's Orphic Identity Erika M. Nelson 2005 This study

of Rainer Maria Rilke (1875-1926) examines the poet's understanding of the malleable nature of identity, while addressing the question of Rilke's place in literary history. In line with contemporary literary theory which views the «self» as a societal «construction» and strategic narrative device, this study explores Rilke's preoccupations with identity in his work, as he investigates the disintegration of the subjective self in the modern world. Rilke's re-readings of the mythological figures of Orpheus and Narcissus in modern psychological terms, as well as in terms of traditional poetics, are keys not only to his poetics and his changing understanding of «self», but also to his evolving critique of society. This study tracks how Rilke's Orphic work disengages traditional patterns of perceptions, not only to challenge fidelity to history, but also to recover the power of traditional elements from that history to help articulate subjectivity in new terms.

Transformations of Circe Judith Yarnall 1994 Beginning with a detailed study of Homer's balance of negative and positive elements in the Circe-Odysseus myth, Judith Yarnall employs text and illustrations to demonstrate how Homer's Circe is connected with age-old traditions of goddess worship. She then examines how the image of a one-sided "witch," who first appeared in the commentary of Homer's allegorical interpreters, proved remarkably persistent, influencing Virgil and Ovid. Yarnall concludes with a discussion of work by Margaret Atwood and Eudora Welty in which the enchantress at last speaks in her own voice: that of a woman isolated by, but unashamed of, her power. *Library Journal* 1986

Threads, Knots, Tapestries Tess Castleman 2004 This book reveals the way our dreaming expresses and reflects our deep interpersonal and environmental interconnectivity. Drawing upon her decades of Jungian analytic practice, and many years of pioneering in dream groups, Castleman weaves a rich tapestry of dream threads which shows us how we are dreaming with and for each other. Her method is that of a storyteller telling the stories

of people, their dreams, the stories of shamans, the stories of individuals suffering from cancer, love entanglements, and most delightfully, stories which show how dreams are woven together with communal life in other cultures, as well as in our own.

Transforming Sexuality Ann Belford Ulanov 1994 For your most intimate and significant relationship with the opposite sex, look within yourself, to anima and animus, the archetypal symbols that define and celebrate the presence of the Feminine in men and the Masculine in women. The authors use their broad backgrounds in psychology, theology, philosophy, and the arts to follow the archetypes from clinical practice into a fascinating range of cultural manifestations, particularly in the world's great literature - from Dante to Pasternak - making this book the most wide-ranging study to date of these central concepts in Jungian psychology.

The Wounded Woman Linda Schierse Leonard 1982-01-01 This book is an invaluable key to self-understanding. Using examples from her own life and the lives of her clients, as well as from dreams, fairy tales, myths, films, and literature, Linda Schierse Leonard, a Jungian analyst, exposes the wound of the spirit that both men and women of our culture bear—a wound that is grounded in a poor relationship between masculine and feminine principles. Leonard speculates that when a father is wounded in his own psychological development, he is not able to give his daughter the care and guidance she needs. Inheriting this wound, she may find that her ability to express herself professionally, intellectually, sexually, and socially is impaired. On a broader scale, Leonard discusses how women compensate for cultural devaluation, resorting to passive submission (“the Eternal Girl”),

or a defensive imitation of the masculine (“the Armored Amazon”). The Wounded Woman shows that by understanding the father-daughter wound and working to transform it psychologically, it is possible to achieve a fruitful, caring relationship between men and women, between fathers and daughters, a relationship that honors both the mutuality and the uniqueness of the sexes.

Dreams of Love and Fateful Encounters Ethel S. Person
2007-04-02 This groundbreaking study has been widely hailed for its focus on a human emotion generally considered impervious to rational analysis: romantic, passionate love. Ethel Person views romantic love as a powerful agent of change, arguing that it is as central to human culture as it is to human existence. This new edition of *Dreams of Love and Fateful Encounters* emphasizes the relevance of passion not only to lovers but also to mental health professionals whose patients often enter treatment because of love-related issues -- from the inability to love or make a commitment to the perils of extramarital love to love sickness or loss of love. She forthrightly addresses not only the power of love to unlock the soul but also its inherent paradoxes and conflicts. Employing a philosophical perspective in order to understand the existential dilemmas posed by love, and a cultural perspective in order to understand its cultural variability, Dr. Person breaks with contemporary intellectual and philosophical dismissive assumptions about romantic love. She acknowledges love's vital importance and power, proposing that passion serves an important function not only for the individual but also for the culture while charging psychoanalysis with a reductionist emphasis on sexuality and psychopathology that has narrowed the focus of inquiry into love. Among the issues she discusses are: romantic love's sources in our early lives, its relationship to imagination and creativity, and its capacity to enable the lover to transcend the self how romantic love often demands a reordering of values and promotes personal growth by exposing the self to

new risks and possibilities the transformational potential of transference love in the therapy process flaws in the common misperception that women are more influenced by romantic love than men considerations of homosexual love, love across generations, and love triangles, focusing on the individual growth that can result from such relationships Citing accounts of love drawn from literature, film, and real life, Person focuses on the lover's internal soliloquy and external dialogue with the beloved that can develop over an individual's life. An uplifting resource for people experiencing failing or unorthodox romances, Dreams of Love and Fateful Encounters boldly takes on issues pertinent to lovers, to professionals who encounter patients for whom key conflicts revolve around romantic love, and to anyone who has struggled to understand the importance of romantic love in his or her own life.

On the Way to the Wedding Linda Schierse Leonard 2001-03-13

With deep understanding and practical wisdom, Linda Leonard writes about the longing for a true wedding, one that unites two beings in a sacred search for meaning in life. Exploring dreams, personal experiences, myths and fairy tales, and themes from films and literature, the author uncovers the inner obstacles to love and creativity as experienced by both men and women.

Meeting the Madwoman Linda Schierse Leonard 1994-03-01

The Madwoman is a powerful psychological and emotional energy that lives in us all—both men and women—and speaks to us all, inhabiting our dreams, our lives, our collective cultural memory. Ignored or suppressed, she becomes a force of self-destruction; acknowledged and understood, she becomes a source of creativity and power. In this remarkable and revolutionary book, Linda Schierse Leonard explores how we can overcome the inner turmoil of contemporary life—unexpressed rage, the buildup of guilt and anxiety—by harnessing this primal expression of our natural instincts. From Medea to Ophelia to Thelma and Louise, the paradox and patterns of “madness” are as old as time. But the chain can be broken; the Madwoman within each of us can and must be freed, openly expressed, and transformed into a source of constructive, creative energy. Leonard draws upon an extraordinary range of sources—ancient myths and fairy tales, films and literature, contemporary and historical women’s lives—to design a model of empowerment for women today. With its fresh perspectives and bold insights, *Meeting the Madwoman* is a provocative work of profound cultural significance, one whose ideas are sure to resonate for years to come. Praise for *Meeting the Madwoman* “A book loaded with practical insights that’s also fun to read . . . With refreshing originality, Leonard reverses some traditional perceptions.”—*New Woman* “A vigorous exploration . . . Throughout, Leonard writes passionately, seeing the Madwoman as an empowering symbol and the discovery

process as a spiritual exercise—a kind of purification and ultimate triumph of the feminine spirit.”—Kirkus Reviews

Witness to the Fire Linda Schierse Leonard 2001-06-05 In Witness to the Fire, Linda Schierse Leonard, Ph.D., explores the dark and fiery journey of transformation from the bondage of addiction to the freedom of recovery through creativity. A Jungian analyst, Leonard studies the relationship of creativity and addiction in the lives of writers such as Fyodor Dostoevsky, Eugene O'Neill, Jean Rhys, and Jack London, as well as the experiences of ordinary men and women. Leonard holds out the hope that anyone bound by addiction can reclaim the power that fuels dependency for a life of joy and creativity.

Running Into Myself Thea Euryphaessa 2010-04-05 While celebrating her 26th birthday, Thea listens on as her thirty-something friends discuss their lives. Their conversation leads her to realise she's been drifting through life and hasn't grown up. In addition, she can't tell where she ends and her mother begins. The realisation gradually takes its toll and several months later, she's diagnosed with depression. Refusing medication, she leaves her soul-constricting job and pursues a more meaningful path. Along the way she discovers spirituality - in particular, Japanese Energy healing - but with a fragile sense of Self, lacks the confidence and belief required to cross the threshold to a new life. Instead, she unquestioningly accepts others' views on life and slides back into a mundane existence. Three years later a terrifying nightmare provides another wake-up call. This time with no game plan, she sells her house, leaves her 9-5 job and embarks on a relationship that takes her to Santa Fe (US). Once there, she encounters several mentors who introduce her to Jungian psychology, Greek mythology, BodySoul work, fairytales, folk tales and alchemical symbolism. Soon after, overweight and unable to run more than a few metres at a time, she impulsively signs up for three marathons - New York, Rome and Athens - with the first only months away. What unfolds over the next

eighteen months is an inspiring rite of passage into conscious womanhood: an unintentional pilgrimage healing old wounds, and a revelatory experience with her deep Self. The book is a personal narrative accompanied by examinations of myth and depth psychology, in which life illuminates ancient tales and archetypes find form in modern experience.

Receiving Love Harville Hendrix 2004-10-05 This

groundbreaking book from the best-selling authors of *Getting the Love You Want* and coauthors of *Giving the Love that Heals* is the first to address the biggest unexplored issue facing couples today: Most of us are better at giving love than accepting it. We don't realize all the ways that our resistance to appreciation, praise, compliments, and accepting help from others hurts us and cripples our relationships. Many partners learn how to give love, but many more undermine their relationships by forgetting something that is equally important -- learning to receive it. According to the authors, the root of the problem is the self-rejection that began in childhood, when our parents and caretakers unintentionally failed to nurture or directly rejected traits, characteristics, or impulses when we were children. We end up rejecting in ourselves whatever our caretakers ignored or rejected in the course of our childhoods. When we become adults, this makes it impossible to let in the love we want and need, even when our partners offer it. As a result, we dismiss compliments, minimize gestures of affection, and create obstacles to true intimacy. In this book, Harville Hendrix and Helen LaKelly Hunt, co-creators of Imago Relationship Therapy, offer a definitive guide to breaking the shackles of self-rejection and embracing the love our partners offer. *Receiving Love* is a very personal book for Drs. Hendrix and Hunt, and much of their own journey is the inspiration for it. Drawing on their renowned expertise, the wide clinical experience of hundreds of Imago therapists, and their own personal experience, the authors are able to offer detailed guidance on how to conquer the problems that come from self-rejection and embrace the gifts that are abundant in every person's life, if only we knew how to accept them. With its

groundbreaking theory, challenging processes, and inspiring examples, this book holds the key to loving relationships that last.

This book addresses questions on how leadership is defined, exercised and communicated in contemporary society. *Feminine Leadership* will be of great interest to all leaders and professionals who wish to familiarize themselves with personal leadership development and learn how Jungian theory has been put into practice in this field.

Dreams Speak Therese Duckett 2011-03-16 Most people know that dreams occur predominantly during Rapid Eye Movement (REM) sleep, but less well known is the fact that REM sleep is important for psychological health as well as memory consolidation. Research now shows that it also contributes to what is called ""brain plasticity"", which is the ability of the brain to change itself. There are many levels of consciousness, including the five levels of consciousness that occur when we are asleep, as well as other states of awareness such as the

transitional states that occur between sleeping or waking, drug induced states of awareness, etc. Dreams can emerge, not only from different levels of the personal "unconscious" mind, but also from what is known as the "collective" or "universal unconscious mind". In this enlightening book, Therese Duckett shows how our dreams are important in helping us understand our lives and improve our health and wellbeing. Using a host of examples from her own casework, she outlines the most commo.

The Call to Create Linda Schierse Leonard 2000 "Linda Schierse Leonard explores the many parallels between the cycles, moods, and landscapes of nature that foster inspiration, renewal, and hope. Leonard shows how understanding these parallels helps us move through dark times so we can be ready to receive and actualize creativity in our lives." "Leonard encourages readers by showing that the obstacles preventing them from creating a better life are like those that artists confront, and that imagination can be born of frustration. By understanding how to cultivate the helpers within us - and by following the examples of well-known artists - we can develop and appreciate creativity in everything from our search for meaning to family and love relationships, from communications and business ventures to artistic endeavors."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
