Shaping the Future Horst Hutter 2006 *Shaping the Future* maps out the ascetic practices of a Nietzschean way of life. Hutter argues that Nietzsche's doctrines are attempts and 'temptations' that aim to provoke his free-spirited readers into changing themselves by putting philosophy into practice in their lives.

Stoppard's Theatre John Fleming 2003-01-01 With a thirty-year run of award-winning, critically acclaimed, and commercially successful plays, from *Rosencrantz and Guildenstern Are Dead* (1967) to *The Invention of Love* (1997), Tom Stoppard is arguably the preeminent playwright in Britain today. His popularity also extends to the United States, where his plays have won three Tony awards and his screenplay for *Shakespeare in Love* won the 1998 Academy Award for Best Original Screenplay. John Fleming offers the first book-length assessment of Stoppard's work in nearly a decade. He takes an in-depth look at the three newest plays (*Arcadia*, *Indian Ink*, and *The Invention of Love*) and the recently revised versions of *Travesties* and *Hapgood*, as well as at four other major plays (*Rosencrantz, Jumpers, Night and Day*, and *The Real Thing*). Drawing on Stoppard's personal papers at the University of Texas Harry Ransom Humanities Research Center (HRHRC), Fleming also examines Stoppard's previously unknown play *Galileo*, as well as numerous unpublished scripts and variant texts of his published plays. Fleming also mines Stoppard's papers for a fuller, more detailed overview of the evolution of his plays. By considering Stoppard's personal views (from both his correspondence and interviews) and by examining his career from his earliest scripts and productions through his most recent, this book provides all that is essential for understanding and appreciating one of the most complex and distinctive playwrights of our time.

Talking Dirty on Sex and the City Beatriz Oria 2014 *Sex and the City* (1998-2004) was one of the most popular programs on HBO, spawned two successful feature films in 2008 and 2010, and continues to do well in syndication. This book explores how *Sex and the City* represents the conventions of romantic comedy in order to create a familiar fictional world of intimacy, gender identity, and interpersonal relationships. Rather than tackle debates about whether the show was revolutionary or conservative in its representation of gender, class, race, and female sexuality (which has already been covered by other books), the author discusses the show's complexity as a multi-faceted text which routinely provides a diversity of perspectives.

TV by Design Lynn Spigel 2008 From the Publisher: While critics have long disparaged commercial television as a vast wasteland, TV has surprising links to the urbane world of modern art that stretch back to the 1950s and '60s during that era, the rapid rise of commercial television coincided with dynamic new movements in the visual arts-a potent combination that precipitated a major shift in the way Americans experienced the world visually. TV by Design uncovers this captivating story of how modernism and network television converged and intertwined in their mutual ascent during the decades of the cold war. Whereas most histories of television focus on the way older forms of entertainment were recycled for the new medium, Lynn Spigel shows how TV was instrumental in introducing the public to the latest trends in art and design. Abstract expressionism, pop art, art cinema, modern architecture, and cutting-edge graphic design were all mined for staging techniques, scenic designs, and an ever-growing number of commercials. As a result, TV helped fuel the public craze for trendy modern products, such as tailfin cars

and boomerang coffee tables, that was vital to the burgeoning postwar economy. And along with influencing the look of television, many artists-including Eero Saarinen, Ben Shahn, Saul Bass, William Golden, and Richard Avedon-also participated in its creation as the networks put them to work designing everything from their corporate headquarters to their company cufflinks. Dizzy Gillespie, Ernie Kovacs, Duke Ellington, and Andy Warhol all stop by in this imaginative and winning account of the ways in which art, television, and commerce merged in the first decades of the TV age.

Jack Benny and the Golden Age of American Radio Comedy

Kathryn Fuller-Seeley 2017-10-17 "Jack Benny became one of the most influential entertainers of the 20th century--by being the top radio comedian, when the comics ruled radio, and radio was the most powerful and pervasive mass medium in the US. In 23 years of weekly radio broadcasts, by aiming all the insults at himself, Benny created Jack, the self-deprecating "Fall Guy" character. He indelibly shaped American humor as a space to enjoy the equal opportunities of easy camaraderie with his cast mates, and equal ego deflation. Benny was the master of comic timing, knowing just when to use silence to create suspense or to have a character leap into the dialogue to puncture Jack's pretensions. Jack Benny was also a canny entrepreneur, becoming one of the pioneering "showrunners" combining producer, writer and performer into one job. His modern style of radio humor eschewed stale jokes in favor informal repartee with comic hecklers like his valet

Rochester (played by Eddie Anderson) and Mary Livingstone his offstage wife. These quirky characters bouncing off each other in humorous situations created the situation comedy. In this career study, we learn how Jack Benny found ingenious ways to sell his sponsors' products in comic commercials beloved by listeners, and how he dealt with the challenges of race relations, rigid gender ideals and an insurgent new media industry (TV). Jack Benny created classic comedy for a rapidly changing American culture, providing laughter that buoyed radio listeners from 1932's depths of the Great Depression, through World War II to the mid-1950s"--Provided by publisher.

A Humorous Account of America's Past: 1945 to 2001

Richard T. Stanley 2011-04-27 In 1945, the United States was the most powerful nation in the world. But an Iron Curtain soon surrounded Eastern Europe, and by 1950, Americans were fighting in Korea. In 1952, I Like IKE! swept the nation, and the Fabulous Fifties began. GM sold the most cars, gas was 29 cents a gallon, and a new house cost \$9,000. In 1955, following President Eisenhowers mild heart attack, Americas favorite sick joke had Vice President Dick Nixon greeting Ike at the White House by saying, Welcome back. . . May I race you up the stairs? The Fabulous Fifties of Marilyn Monroe and Elvis Presley gave way to riots, Hippies, and The Beatles during the Radical Sixties.

Cult Television Sara Gwenllian-Jones 2004 A television series is tagged with the label "cult" by the media, advertisers, and network executives when it is considered edgy or offbeat, when it appeals to nostalgia, or when it is considered emblematic of a particular subculture. By these criteria, almost any series could be described as cult. Yet certain programs exert an uncanny power over their fans, encouraging them to immerse themselves within a fictional world. In Cult Television leading scholars examine such shows as The X-Files; The Avengers; Doctor Who, Babylon Five; Star Trek; Xena, Warrior Princess; and Buffy the Vampire Slayer to determine the defining characteristics of cult television and map the contours of this phenomenon within the larger scope of popular culture. Undead TV Lisa Parks 2007-10-12 When the final episode of *Buffy the Vampire Slayer* aired in 2003, fans mourned the death of the hit television series. Yet the show has lived on through syndication, global distribution, DVD release, and merchandising, as well as in the memories of its devoted viewers. *Buffy* stands out from much entertainment television by offering sharp, provocative commentaries on gender, sexuality, race, ethnicity, and youth. Yet it has also been central to changing trends in television production and reception. As a flagship show for two U.S. “netlets”—the WB and UPN—*Buffy* helped usher in the “post-network” era, and as the inspiration for an active fan base, it helped drive the proliferation of Web-based fan engagement. In *Undead TV*, media studies scholars tackle the *Buffy* phenomenon and its many afterlives in popular culture, the television industry, the Internet, and academic criticism. Contributors engage with critical issues such as stardom, gender identity, spectatorship, fandom, and intertextuality. Collectively, they reveal how a vampire television series set in a sunny California suburb managed to provide some of the most biting social commentaries on the air while exposing the darker side of American life. By offering detailed engagements with Sarah Michelle Gellar’s celebrity image, science-fiction fanzines, international and “youth” audiences, *Buffy* tie-in books, and Angel’s body, *Undead TV* shows how this prime-time drama became a prominent marker of industrial, social, and cultural change. The Show Must Go On Douglas Snauffer 2015-03-10 A powerful, behind-the-scenes look at some of America's all-time favorite television programs during their darkest hours, this study examines how various hit series have absorbed the death of a lead actor during production. Although each television program eventually resumed production, the lead actor's death in each case had a profound impact on the surviving cast and crew and the future of the show itself. Individual chapters explore the events surrounding the deaths of Freddie Prinze (Chico and the Man), John Ritter (8 Simple Rules for Dating My Teenage Daughter), Redd Foxx (The Royal Family), Nicholas Colasanto (Cheers), Phil Hartman (NewsRadio), and many others. Their stories are told through first-hand accounts by those who knew them best, including many of the most talented actors, producers, writers, and directors in television over the past forty years.

The Sex Appeal of the Inorganic Mario Perniola 2022-06-02 In *The Sex Appeal of the Inorganic*, Mario Perniola puts forth the radical argument that we are shifting away from organic sexuality, based on desire and pleasure, and moving towards a more neutral inorganic and artificial sexuality, a sexuality always available but indifferent to beauty, age or form. Perniola takes the reader on a tour of Western philosophy, from Descartes, Kant and Hegel to Heidegger, Wittgenstein and Sartre, to reframe our understanding of personal experience and the aesthetic world around us. In order to realize the sex appeal of the inorganic Perniola argues that we must become 'things that feel', we must think ourselves closer to the inorganic, creating an alliance between senses and things. Examples from contemporary culture that, for Perniola, are emblems of the sex appeal of the inorganic, include progressive rock music, fashion, deconstructive architecture and the novels of Georges Perec.

She discusses what it means to raise strong daughters made in the image of God and covers the various aspects of strength--confidence, interdependence, voice, and self-image.

How to Watch Television, Second Edition Ethan Thompson
2020-03-31 A new edition that brings the ways we watch and think about television up to the present We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it "good" or "bad." Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. How to Watch Television, Second Edition brings together forty original essays—more than half of which are new to this edition—from today's leading scholars on television culture, who write about the programs they care (and think) the most about. Each essay focuses on a single television show, demonstrating one way to read the program and, through it, our media culture. From fashioning blackness in *Empire* to representation in *Orange Is the New Black* and from the role of the reboot in *Gilmore Girls* to the function of changing political atmospheres in *Roseanne*, these essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast, streaming, and cable. Sex Appeal Paul Abramson 2010-02-02 An epidemic of sexually-transmitted infections and sexual violence is upon us. Political interests are overriding sexual freedom in the name of morality. Marriages are just as likely to fail as they are to succeed. Why, in a time of unprecedented personal liberties and medical knowledge, are so many Americans so uncertain about what constitutes ethical sexual behavior? *Sex Appeal* is neither a moralistic screed nor a self-indulgent guide to sexual utopia. Instead, it charts a thoughtful course between extremes to present six ethical principles for sexual health and happiness: do no harm, celebrate sex, be careful, know yourself, speak up and speak out, and throw no stones. *Sex Appeal* elaborates upon each of these principles, asserting that sex can be fun, safe, and life-enhancing if approached in the right spirit and with the information necessary to make wise sexual choices. Providing clear guidelines for individuals seeking answers to their own personal questions about sex, the book also connects these questions to larger issues, such as how we as a society can reduce levels of sexual harm and sexually-transmitted infections, and how everyday individual choices can support this effort. Persuasive and eminently readable, *Sex Appeal* offers a welcome dose of clarity and common sense to today's most pressing sexual issues.

The Twilight of the Gothic? In doing so, it investigates the extent to which the post-Twilight paranormal romance really does represent a break from older traditions of Gothic fiction – and just what it is about the genre that has made it so extraordinarily divisive, captivating millions of readers whilst simultaneously infuriating and repelling so many others.

Primetime 1966-1967 Thom "Beefstew" Shubilla 2022-04-26
The year 1966 was when many TV viewers all over America discovered the wonders of "in living color." The 1966-1967 primetime television lineup was remarkable not only for the legendary shows that aired, but also because it was the first season in which every show on primetime, across all three major networks, was broadcast entirely in color. Celebrating this iconic year of television, this book covers every scripted episodic show that aired on the ABC, CBS, and NBC networks during the 1966-1967 season in primetime. It includes longtime favorites such as *Batman*, *Bonanza*, *Voyage to the Bottom of the Sea*, and *The Lucy Show* and the notable shows that premiered that year such as *Star Trek*, *The Monkees*, *Green Hornet*, *Mission: Impossible*, *It's About Time*, and the color revival of *Dragnet*. Organized by genre, each entry examines a show from conception to cancellation (and sometimes beyond), ratings, critical and fan reactions, and the show's use of color.

Cassidy offers the first thorough analysis of daytime television's earliest and most significant women's genres, appraising from a feminist perspective what women watched before soap opera rose to prominence. After providing a comprehensive history of the early days of women's programming across the nation, Cassidy offers a critical discussion of the formats, programs, and celebrities that launched daytime TV in America—Kate Smith's variety show and the famed singer's unsuccessful transition from patriotic radio star to 1950s TV idol; the "charm boys" Garry Moore, Arthur Godfrey, and Art Linkletter, whose programs honored women's participation but in the process established the dominance of male hosts on TV; and the "misery shows" Strike It Rich and Glamour Girl and the controversy, both critical and legal, they stirred up. Cassidy then turns to NBC's Home show, starring the urbane Arlene Francis, who infused the homemaking format with Manhattan sophistication, and the ambitious daily anthology drama Matinee Theater, which strove to differentiate itself from soap opera and become a national theater of the air. She concludes with an analysis of four popular audience participation shows of the era—the runaway hit Queen for a Day; Ralph Edwards's daytime show of surprises, It Could Be You; Who Do You Trust?, starring a youthful Johnny Carson; and The Big Payoff, featuring Bess Myerson, the country's first Jewish Miss America. Cassidy's close feminist reading of these shows clearly demonstrates how daytime TV mirrored the cultural pressures, inconsistencies, and ambiguities of the postwar era.

The Greatest Cult Television Shows of All Time Christopher J. Olson 2020-05-29 Reaching back to the beginnings of television, *The Greatest Cult Television Shows* offers readers a fun and accessible look at the 100 most significant cult television series of all time, compiled in a single resource that includes valuable information on the shows and their creators. While they generally lack mainstream appeal, cult television shows develop devout followings over time and exert some sort of impact on a given community, society, culture, or even media industry. Cult television shows have been around since at least the 1960s, with *Star Trek* perhaps the most famous of that era. However, the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s, and now, with the plethora of streaming options available, more shows can be added to this categorization. Reaching back to the beginnings of television, the book includes such groundbreaking series as *The Twilight Zone* and *The Prisoner* alongside more contemporary examples like *Crazy Ex-Girlfriend* and *Hannibal*. The authors provide production history for each series and discuss their relevance to global pop culture. To provide a more global approach to the topic, the authors also consider several non-American cult TV series, including British, Canadian, and Japanese shows. Thus, *Monty Python's Flying Circus* appears alongside *Sailor Moon* and *Degrassi Junior High*. Additionally, to move beyond the conception of "cult" as a primarily white, heteronormative, fanboy obsession, the book contains shows that speak to a variety of cult audiences and experiences, such as *Queer as Folk* and *Charmed*. With detailed arguments for why these shows deserve to be considered the greatest of all time, Olson and Reinhard provide ideas for discussion and debate on cult television. Each entry in this book

demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them.
