Television Show Trends, 2016-2020 - Yvonne D. Leach 2023-11-20

What do Euphoria, Normal People, Atlanta, Ramy, Vida, I May Destroy You, Stranger Things, and Lovecraft Country have in common? In the 2016-2020 time period they were created, these TV shows exemplified one (or more) of four noteworthy trends: authenticity, diversity, sexual candor, and retrospection. This is the first book to examine live action, fictional television shows produced within a five-year period through the lens of the trends that they epitomize. For each show, the following is discussed: the significance of the platform and the format; the intentions of the creators and showrunners; pertinent background information; similar shows and precedents; the storytelling approach; the cinematic form; and finally, how the show is emblematic of that particular trend. Since trends have the possibility of becoming part of the mainstream, they are important to identify as they emerge, especially for viewers who have a keen interest in narrative television shows.

Contemporary Social Problems in the UK - Selwyn Stanley 2022-09-30

Social problems are endemic to all societies. The UK is no exception and is grappling with a plethora of issues including poverty, family breakdown, domestic violence, teenage pregnancy, child abuse and neglect, youth offending, alcohol and drug misuse, mental health issues, homelessness, and ethnic and religious discrimination. These problems have huge implications for the individual, the family unit and society at large and take their toll on health, wellbeing, and community resources. They place an enormous amount of strain on government finances and the welfare state, and add to the burden on social institutions, such as the National Health Service and the social work and criminal justice systems. Contemporary Social Problems in the UK explores a wide range of social problems in the UK. Each social problem has been explored using a range of psychosocial theories to generate an understanding of various causal factors and to examine the linkages between different social problems. Government policy and legislation, remedial measures, preventive approaches, and strategies of intervention are also considered for each social problem that has been dealt with. Each chapter deals with a particular social problem and has been penned by an expert in that topic. The endeavour has been to provide a multi-dimensional overview of the social problem in a manner that is engaging and easy to read. The end-of-chapter content includes supplementary reading, useful topic related websites besides a quiz and individual / group activities to generate discussion and stimulate learning. This informative yet accessible textbook will be an invaluable resource for instructors and students in the social sciences as well as professionals who work with people who experience some of these problems.

Competing Masculinities in the British Netflix Series "Sex Education" - Lea-Christin Klaas 2023-11-13

Seminar paper from the year 2020 in the subject Gender Studies, grade: 2,0, University of Dortmund (Institut für Anglistik und Amerikanistik), course: British Proseminar, language: English, abstract: This paper deals with the competing masculinities in the British Netflix series "Sex Education". Especially the characters Otis Milburn, Adam Groff and Eric Effiong are taken into consideration. Otis is the typical lovable goof, whereas Adam is more likely to fulfill the stereotype of being a "real man", because of his tendency of being violent. It turns out that Adam's aggression is caused by him being insecure. Eric is also especially interesting to look at, since he serves several contrary stereotypes. He is a black, homosexual young male that is raised as a second generation immigrant in a traditionally catholic household and is often confronted with homophobia and racism. Eric turns out to be a modern gentleman. Each character's typical behavior patterns will be described and clarified by examples and interpreted in the context of masculinities.

I'm Special - Ryan O'Connell 2015-06-02

NOW a NETFLIX series entitled Special from Executive Producer JIM PARSONS starring RYAN O'CONNELL as himself. From the beloved blogger turned voice of an online generation, an unforgettable and hilarious memoir-meets-manifesto exploring what it means to be a millennial gay man living with cerebral palsy, which VICE calls "a younger, gay version of Mary Karr's Lit." People are obsessed with Ryan O'Connell's blogs. With tens of thousands reading his pieces on Thought Catalog and Vice, watching his videos on YouTube, and hanging on to each and every #dark tweet, Ryan has established himself as a unique young voice who's not afraid to dole out some real talk. He's that candid, snarky friend you consult when you fear you're spending too much time falling down virtual k-holes stalking your ex on Facebook or when you've made the all-too-common mistake of befriending a psycho while wasted at last night's party and need to find a way to get rid of them the next morning. But Ryan didn't always have the answers to these modern-day dilemmas. Growing up gay and disabled with cerebral palsy, he constantly felt like he was one step behind everybody else. Then the rude curveball known as your twenties happened and things got even more confusing. Ryan spent years as a Millennial cliché: he had dead-end internships; dabbled in unemployment; worked in his pajamas as a blogger; communicated mostly via text; looked for love online; spent hundreds on "necessary" items, like candles, while claiming to have no money; and even descended into aimless pill-popping. But through extensive trial and error, Ryan eventually figured out how to take his life from bleak to chic and began limping towards adulthood. Sharp and entertaining, I'm Special will educate twentysomethings (or other adolescents-at-heart) on what NOT to do if they ever want to become happy fully functioning grown-ups with a 401k and a dog.

All I Ever Wanted - Kathy Valentine 2020-04-09

At twenty-one, Kathy Valentine was at the Whisky in Los Angeles when she met a guitarist from a fledgling band called the Go-Go's—and the band needed a bassist. The Go-Go's became the first multi-platinum-selling, all-female band to play instruments themselves, write their own songs, and have a number one album. Their debut, *Beauty and the Beat*, spent six weeks at the top of the Billboard 200 and featured the hit songs "We Got the Beat" and "Our Lips Are Sealed." The record's success brought the pressures of a relentless workload and schedule culminating in a wild, hazy, substance-fueled tour that took the band from the club circuit to arenas, where fans, promoters, and crew were more than ready to keep the party going. For Valentine, the band's success was the fulfillment of a lifelong dream—but it's only part of her story. *All I Ever Wanted* traces the path that took her from her childhood in Texas—where she all but raised herself—to the height of rock 'n' roll stardom, devastation after the collapse of the band that had come to define her, and the quest to regain her sense of self after its end. Valentine also speaks candidly about the lasting effects of parental betrayal, abortion, rape, and her struggles with drugs and alcohol—and the music that saved her every step of the way. Populated with vivid portraits of Valentine's interactions during the 1980s with musicians and actors from the Police and Rod Stewart to John Belushi and Rob Lowe, *All I Ever Wanted* is a deeply personal reflection on a life spent in music.

Inventing English - Seth Lerer 2015-08-25

A history of English from the age of Beowulf to the rap of Eminem, "written with real authority, enthusiasm and love for our unruly and exquisite language" (The Washington Post). Many have written about the evolution of grammar, pronunciation, and vocabulary, but only Seth Lerer situates these developments within the larger history of English, America, and literature. This edition of his "remarkable linguistic investigation" (Booklist) features a new chapter on the influence of biblical translation and an epilogue on the relationship of English speech to writing. A unique blend of historical and personal narrative, both "erudite and accessible" (The Globe and Mail), *Inventing English* is the surprising tale of a language that is as dynamic as the people to whom it belongs. "Lerer is not just a scholar; he's also a fan of English—his passion is evident on every page of this examination of how our language came to sound—and look—as it does and how words came to have their current meanings...the book percolates with creative energy and will please anyone intrigued by how our richly variegated language came to be."—Publishers Weekly (starred review)

Producing British Television Drama - Ruth McElroy 2019-06-04

This book presents a compelling case for a paradigmatic shift in the analysis of television drama production that recentres questions of power, control and sustainability. Television drama production has become an increasingly lucrative global export business as drama as a form enjoys increased prestige. However, this book argues that the growing emphasis on international markets and global players such as Netflix and Amazon Prime neglects the realities of commissioning and making television drama in specific national and regional contexts. Drawing on extensive empirical research, *Producing British Television Drama* demonstrates the centrality of public service broadcasters in serving audiences and sustaining the commercial independent sector in a digital age. It attends closely to three elements—the role of place in the production of content; the experiences of those working in the sector; and the interventions from cultural intermediaries in articulating and ascribing value to television drama. With chapters examining the evolution of British TV drama, as well as what might be in store in its future, this book offers invaluable insights into the UK as a major supplier of and market for television drama.

Television's Spatial Capital - Myles McNutt 2021-12-30

This book launches a comprehensive detailing of the dramatic expansion of the geography of television production into new cities, states, provinces, and countries, and how those responsible for shaping the "landscape" of television have been forced to adapt, taking established strategies for engaging with space and place through mediated representation and renegotiating them to account for the new map of television production. Modeling media studies research that considers the intersection of production, textuality, distribution, and reception, Myles McNutt identifies how the expansion of where television is produced has intersected with the kinds of places represented on television, and how shifts in the production, distribution, and consumption of television content have shifted the burden of representing cities and countries both locally and internationally. Through a combination of industry interviews, textual analysis, and in-depth consideration of industry and audience discourse, the book argues that where television takes place matters more today than it ever has, but that the current system of spatial capital

remains constrained by traditional industry logics that limit the depth of engagement with place identity even as the expectation of authenticity grows significantly. Representing a cross section of media industry studies, television studies, and cultural geography, this book will appeal to scholars and students within multiple areas of media studies, including production studies and audience studies, in addition to television studies broadly.

Touchy Subject - Lauren Bialystok 2022-12-23

"In the United States, sex education is more than just an uncomfortable rite of passage, it's an amorphous curriculum that varies widely based on the politics, experience, resources, and biases of the people teaching it. Most often, it's a train wreck, overemphasizing or underemphasizing STIs, teen pregnancy, abstinence, and consent. In *Touchy Subject*, philosopher Lauren Bialystok and historian Lisa M. F. Andersen make the case for thoughtful sex education, explaining why it's worth fighting for and which kind most deserves our fight, despite all the inconveniences and compromises along the way. They argue that democratic and humanistic aims can be used to provide the tools to reason about the content and form of sex education. In practice, this amounts to a curriculum that meets what are currently considered highly comprehensive standards, incorporates ethics and civics education, and substantially modifies some aspects of teacher training and school design; it also assigns different responsibilities to different actors inside and outside schools, and it responds to the salient features of young people's evolving worlds, including the inequities that put some students at much higher risk of sexual harm than others. Throughout their inquiry, the authors show the reader how sex education has progressed and how the very concept of "progress" remains contestable"--
