Rent and Its Discontents Neil Gray 2018 The 1915 Rent Strikes in Glasgow, along with similar campaigns across the UK, catalysed rent restrictions and eventually public housing as a right, with a legacy of progressive improvement in UK housing through the central decades of the 20th century. With the decimation of social housing and the resurgence of a profoundly exploitative private housing market, the contemporary political economy of housing now shares many distressing features with the situation one hundred years ago. Starting with a re-appraisal of the Rent Strikes, this book asks what housing campaigners can learn today from a proven organisational victory for the working class. A series of investigative accounts from scholar-activists and housing campaign groups across the UK charts the diverse aims, tactics and strategies of current urban resistance, seeking to make a vital contribution to the contemporary housing question in a time of crisis.

Multiculturalism in Practice Suzanne Audrey 2017-11-01 This title was first published in 2000. Patterns of racism and disadvantage vary throughout Britain, yet most British research continues to focus on data from England and Wales. This Scottish study allows distinctions to emerge which contribute to our understanding of the complex processes of discrimination and integration. Looking first at the history of Irish, Jewish and Italian migration to Scotland, attention is then focused on the Pakistani population. Whilst acknowledging the persistence of racism, the author uses original quantitative and qualitative data to examine the ways in which immigrants and their descendants assert their priorities. The book questions whether focusing on minority ethnic groups as victims of racism is the most effective strategy in undermining exclusionary practices.

The Blitz Companion Mark Clapson 2019-04-02 The Blitz Companion offers a unique overview of a century of aerial warfare, its impact on cities and the people who lived in them. It tells the story of aerial warfare from the earliest bombing raids and in World War 1 through to the London Blitz and Allied bombings of Europe and Japan. These are compared with more recent American air campaigns over Cambodia and Vietnam in the 1960s and 1970s, the NATO bombings during the Balkan Wars of the 1990s, and subsequent bombings in the aftermath of 9/11. Beginning with the premonitions and predictions of air warfare and its terrible consequences, the book focuses on air raids precautions, evacuation and preparations for total war, and resilience, both of citizens and of cities. The legacies of air raids, from reconstruction to commemoration, are also discussed. While a key theme of the book is the futility of many air campaigns, care is taken to situate them in their historical context. The Blitz Companion also includes a guide to documentary and visual resources for students and general readers. Uniquely accessible, comparative and broad in scope this book draws key conclusions about civilian experience in the twentieth century and what these might mean for military engagement and civil reconstruction processes once conflicts have been resolved.

Communists and British Society, 1920-1991 Kevin Morgan 2007 The revolutionary appeal of Communism in 20th-century Britain is analyzed in this examination of why Communist Party members joined, how they participated in the party's activities, and why, in many cases, they left the party. Archival resources, hundreds of interviews, and sociological analyses document the nature of left-wing activism in Britain from its earliest incarnations to the schisms of the 1980s. The role of Communism in British politics and society is illuminated by discussions of constructions of political authority; the role of gender, generation, and social class; and the significance of political space and mobility in recruitment.

Dissonant Identities Barry Shank 2011-05-01 Music of the bars and clubs of Austin, Texas has long been recognized as defining one of a dozen or more musical "scenes" across the country. In Dissonant Identities, Barry Shank, himself a musician who played and lived in the Texas capital, studies the history of its popular music, its cultural and economic context, and also the broader ramifications of that music as a signifying practice capable of transforming identities. While his focus is primarily on progressive country and rock, Shank also writes about traditional country, blues, rock, disco, ethnic, and folk musics. Using empirical detail and an expansive theoretical framework, he shows how Austin became the site for "a productive contestation between two forces: the fierce desire to remake oneself through musical practice, and the equally powerful struggle to affirm the value of that practice in the complexly structured late-capitalist marketplace."

The Missing Scotland Willie Sullivan 2014-10-15 The only reason to vote is if the vote represents power or change. I don't think it does. I fervently believe that we deserve more from our democratic system than the few derisory tit-bits tossed from the carousel of the mighty. RUSSELL BRAND From national and local elections to the debate on the independence referendum, a large part of Scotland is missing from our political and public debates. This book directly gives voice to the missing people of Scotland as Willie Sullivan (in association with the Electoral Reform Society) investigates why this part of Scotland is lost, asking the missing electorate to articulate why they find themselves so politically disengaged, what their take of mainstream Scotland is and what they feel is lacking, and finally exploring what they feel must be done in order change this for the better. A large part of Scotland is missing from our political and public debates, what kind of changes are needed for them to engage? GERRY HASSAN, Open Scotland Series Editor A lot of people in Scotland have no daily contact with democracy; they have no contact in their immediate personal environment with democracy. That is not just a jigsaw piece that is missing in Scottish democracy; it is a founding stone of democracy that is missing in Scotland. DEMOCRACY MAX Report

Not So Quiet... Helen Zenna Smith 1993-01-01 Praised by the Chicago Sun-Times for its "furious, indignant power," this story offers a rare, funny, bitter, and feminist look at war. First published in London in 1930, *Not So Quiet...* (on the Western Front) describes a group of British women ambulance drivers on the French front lines during World War I, surviving shell fire, cold, and their punishing commandant, "Mrs. Bitch." The novel takes the guise of an autobiography by Smith, pseudonym for Evadne Price. The novel's power comes from Smith's outrage at the senselessness of war, at her country's complacent patriotism, and her own daily contact with the suffering and the wounded.

Participating in crime Great Britain: Law Commission 2007-05-10 This is the second of two Commission reports which examine options for reform of the law relating to criminal liability for encouraging or assisting another person to commit an offence (the previous report 'Inchoate liability for assisting and encouraging crime' was published in July 2006 as Cm. 6878 (Law Com. no. 300, ISBN 9780101687829). This report focuses on the law of secondary liability and examines the problems with the law as it currently stands; the differences between inchoate liability and secondary liability; recommendations to introduce statutory schemes of secondary liability and of innocent agency and a new offence of causing the commission of a no fault offence; defences and exemptions; and extra-territorial jurisdiction. It includes the text of two draft bills: *Participating in Crime Bill* and *Participating in Crime (Jurisdiction, Procedure and Consequential Provisions) Bill*. Taken together, the recommendations contained in both reports seek to establish a system whereby inchoate and secondary liability will support and supplement each other in a way that is rational and fair.

Housing Finance Review 1995/96 Steve Wilcox 1995

British Asian fiction Sara Upstone 2013-07-19 This is the first text to focus solely on the writing of British writers of South Asian descent born or raised in Britain. Exploring the unique contribution of these writers, it positions their work within debates surrounding black British, diasporic, migrant, and postcolonial literature in order to foreground both the continuities and tensions embedded in their relationship to such terms, engaging in particular with the ways in which this 'new' generation has been denied the right to a distinctive theoretical framework through absorption into pre-existing frames of reference. Focusing on the diversity of contemporary British Asian experience, the book engages with themes including gender, national and religious identity, the reality of post-9/11 Britain, the post-ethnic self, urban belonging, generational difference and youth identities, as well as indicating how these writers manipulate genre and the novel form in support of their thematic concerns.

A History of Modern Britain Andrew Marr 2009-07-03 *A History of Modern Britain* by Andrew Marr confronts head-on the victory of shopping over politics. This edition also includes an extra chapter charting the course from Blair to Brexit. It tells the story of how the great political visions of New Jerusalem or a second Elizabethan Age, rival idealisms, came to be defeated by a culture of consumerism, celebrity and self-gratification. In each decade, political leaders think they know what they are doing, but find themselves confounded. Every time, the British people turn out to be stropier and harder to herd than predicted. Throughout, Britain is a country on the edge - first of invasion, then of bankruptcy, then on the vulnerable front line of the Cold War and later in the forefront of the great opening up of capital and migration now reshaping the world. This history follows all the political and economic stories, but deals too with comedy, cars, the war against homosexuals, Sixties anarchists, oil-men and punks, Margaret Thatcher's wonderful good luck, political lies and the true heroes of British theatre.

The Strongest Weapon Notburga Tilt 1972

Birds and Forestry Mark Avery 2010-10-30 In this book, an ornithologist and a forester have combined their skills to try and tease out the real facts

behind the various arguments on forestry. The conflict between forestry and nature conservation has become a major environmental issue in Britain in the 1980s. The planting of large tracts of land with exotic conifers and the resulting disturbance of existing plant and animal communities has polarized the debate, each camp believing that it has the most rational view. But the interactions involved are complex. Which bird species are really threatened? How can we judge the relative value of bird species ousted by plantations and the new species which colonize them? How can the need for forest products be reconciled with the demands of conservationists? This fascinating book tackles these issues in a forthright manner. It represents a significant step towards achieving the sort of prudent land planning that will really improve our beleaguered countryside. Jacket painting by Philip Snow. Foreword by David Bellamy.

Women and the Labour Movement in Scotland, 1850-1914 Eleanor Gordon 1991 A study of working women in Scotland in the late 1900s, this book uncovers the patterns of employment, involvement in and relationship to trade unions, and the forms of workplace resistance and struggles in which these women engaged. Focusing particularly on women working in Dundee's jute industry, Gordon integrates labor and gender history, which challenges many assumptions about the organizational apathy of women workers and the inevitable division between workplace and domestic ideologies. This book makes an important contribution to current historiographical debate over the sexual division of labor, working-class consciousness, domestic ideologies, and to the history of women in Scotland.

The Hong Kong Letters Gill Shaddick 2019-03-29 In the late sixties when the Beatles are top of the charts and Twiggy is hitting the catwalk, Gill embarks on a life-changing journey to Hong Kong. Mao's revolution is at its height. Vietnam has become America's longest war with no end in sight. But it's at an ad agency under insane direction where Gill finds her battles and learns to stand her ground. In this spirited memoir, where Mad Men meets Han Suyin's A Many-Splendoured Thing, Gill recreates a Hong Kong of the imagination. Attractive and naïve, wined and dined by Hong Kong's elite, she gravitates towards camaraderie outside the world of advertising and money, and adventure follows. A weekend sail goes awry when a yacht with her on board strays into the waters of Communist China. A full-scale sea and air search mounted from Hong Kong can find no trace. Yet Gill is very much alive. With her friends, she is reciting from Mao's Little Red Book with no idea what fate awaits her or how long she will be held. The Hong Kong Letters is part memoir, part travelogue. Gill introduces us to characters that fiction couldn't have invented any better and transports the reader to another time and place, a reminder that anyone can fit the experiences of a lifetime into two short years.

A History of Catholic Education and Schooling in Scotland Stephen J. McKinney 2019-05-23 This book analyses the development of Catholic schooling in Scotland over the course of the nineteenth and twentieth centuries. Scholarship of this period tends to be dominated by discussions of the 1872 and 1918 Education (Scotland) Acts: while these crucial acts are certainly not neglected in this volume, the editors and contributors also examine the key figures and events that shaped Catholic education and Catholic schools in Scotland. Focusing on such diverse themes as lay female teachers and non-formal learning, this volume illuminates many under-researched and neglected aspects of Catholic schooling in Scotland. This wide-ranging edited collection will illuminate fresh historical insights that do not focus exclusively on Catholic schooling, but are also relevant to the wider Scottish educational community. It will appeal to students and scholars of Catholic schooling, schooling in Scotland, as well as Christian schooling more generally.
