

Sex In Antiquity Exploring Gender And Sexuality In The Ancient World

Sex in Antiquity - Mark Masterson 2018-01-24

Looking at sex and sexuality from a variety of historical, sociological and theoretical perspectives, as represented in a variety of media, *Sex in Antiquity* represents a vibrant picture of the discipline of ancient gender and sexuality studies, showcasing the work of leading international scholars as well as that of emerging talents and new voices. Sexuality and gender in the ancient world is an area of research that has grown quickly with often sudden shifts in focus and theoretical standpoints. This volume contextualizes these shifts while putting in place new ideas and avenues of exploration that further develop this lively field. This broad study also includes studies of gender and sexuality in the Ancient Near East which not only provide rich consideration of those areas but also provide a comparative perspective not often found in such collections. *Sex in Antiquity* is a major contribution to the field of ancient gender and sexuality studies.

Before Sexuality - David M. Halperin 1990

A dream in which a man has sex with his mother may promise him political or commercial success--according to dream interpreters of late antiquity, who, unlike modern Western analysts, would not necessarily have drawn conclusions from the dream about the dreamer's sexual psychology. Evidence of such shifts in perspective is leading scholars to reconsider in a variety of creative ways the history of sexuality. In these fifteen original essays, eminent cultural historians and classicists not only discuss sex, but demonstrate how norms, practices, and even the very definitions of what counts as sexual activity have varied significantly over time. Ancient Greece offers abundant evidence for a radically

different set of sexual standards and behaviors from ours. Sex in ancient Hellenic culture assumed a variety of social and political meanings, whereas the modern development of a sex-centered model of personality now leads us to view sex as the key to understanding the individual. Drawing on both the Anglo-American tradition of cultural anthropology and the French tradition of *les sciences humaines*, these essays explore the iconography, politics, ethics, poetry, and medical practices that made sex in ancient Greece not a paradise of liberation but an exotic locale hardly recognizable to visitors from the modern world. In addition to the editors, the contributors to this volume are Peter Brown, Anne Carson, Françoise Frontisi-Ducroux, Maud W. Gleason, Ann Ellis Hanson, François Lissarrague, Nicole Loraux, Maurice Olender, S.R.F. Price, James Redfield, Giulia Sissa, and Jean-Pierre Vernant.

Among Women - Nancy Sorkin Rabinowitz 2009-06-03

Women's and men's worlds were largely separate in ancient Mediterranean societies, and, in consequence, many women's deepest personal relationships were with other women. Yet relatively little scholarly or popular attention has focused on women's relationships in antiquity, in contrast to recent interest in the relationships between men in ancient Greece and Rome. The essays in this book seek to close this gap by exploring a wide variety of textual and archaeological evidence for women's homosocial and homoerotic relationships from prehistoric Greece to fifth-century CE Egypt. Drawing on developments in feminist theory, gay and lesbian studies, and queer theory, as well as traditional textual and art historical methods, the contributors to this volume examine representations of women's lives with other women, their

friendships, and sexual subjectivity. They present new interpretations of the evidence offered by the literary works of Sappho, Ovid, and Lucian; Bronze Age frescoes and Greek vase painting, funerary reliefs, and other artistic representations; and Egyptian legal documents.

[Bisexuality in the Ancient World](#) - Eva Cantarella 1992

Reconstructs the homosexual cultures of ancient Greece and Rome and provides a history of bisexuality in the Classical Age

[Slavery and Sexuality in Classical Antiquity](#) - Deborah Kamen 2021-06-29

Slavery and sexuality in the ancient world are well researched on their own, yet rarely have they been examined together. Chapters address a wealth of art, literature, and drama to explore a wide range of issues, including gendered power dynamics, sexual violence in slave revolts, same-sex relations between free and enslaved people, and the agency of assault victims.

Sexing the World - Anthony Corbeill 2020-03-31

From the moment a child in ancient Rome began to speak Latin, the surrounding world became populated with objects possessing grammatical gender—masculine eyes (*oculi*), feminine trees (*arborea*), neuter bodies (*corpora*). *Sexing the World* surveys the many ways in which grammatical gender enabled Latin speakers to organize aspects of their society into sexual categories, and how this identification of grammatical gender with biological sex affected Roman perceptions of Latin poetry, divine power, and the human hermaphrodite. Beginning with the ancient grammarians, Anthony Corbeill examines how these scholars used the gender of nouns to identify the sex of the object being signified, regardless of whether that object was animate or inanimate. This informed the Roman poets who, for a time, changed at whim the grammatical gender for words as seemingly lifeless as "dust" (*pulvis*) or "tree bark" (*cortex*). Corbeill then applies the idea of fluid grammatical gender to the basic tenets of Roman religion and state politics. He looks at how the ancients tended to construct Rome's earliest divinities as related male and female pairs, a tendency that waned in later periods. An analogous change characterized the dual-sexed hermaphrodite, whose sacred and political significance declined as the republican government

became an autocracy. Throughout, Corbeill shows that the fluid boundaries of sex and gender became increasingly fixed into opposing and exclusive categories. *Sexing the World* contributes to our understanding of the power of language to shape human perception.

Sexual Ambivalence - Luc Brisson 2002-03-28

Analysis of sexual ambivalence in antiquity, which was both deeply threatening to the social order and profoundly attractive.

Prostitutes and Courtesans in the Ancient World - Christopher A. Faraone 2008-03-14

Prostitutes and Courtesans in the Ancient World explores the implications of sex-for-pay across a broad span of time, from ancient Mesopotamia to the early Christian period. In ancient times, although they were socially marginal, prostitutes connected with almost every aspect of daily life. They sat in brothels and walked the streets; they paid taxes and set up dedications in religious sanctuaries; they appeared as characters—sometimes admirable, sometimes despicable—on the comic stage and in the law courts; they lived lavishly, consorting with famous poets and politicians; and they participated in otherwise all-male banquets and drinking parties, where they aroused jealousy among their anxious lovers. The chapters in this volume examine a wide variety of genres and sources, from legal and religious tracts to the genres of lyric poetry, love elegy, and comic drama to the graffiti scrawled on the walls of ancient Pompeii. These essays reflect the variety and vitality of the debates engendered by the last three decades of research by confronting the ambiguous terms for prostitution in ancient languages, the difficulty of distinguishing the prostitute from the woman who is merely promiscuous or adulterous, the question of whether sacred or temple prostitution actually existed in the ancient Near East and Greece, and the political and social implications of literary representations of prostitutes and courtesans.

[Sex in Antiquity](#) - Mark Masterson 2018-02-05

Looking at sex and sexuality from a variety of historical, sociological and theoretical perspectives, as represented in a variety of media, *Sex in Antiquity* represents a vibrant picture of the discipline of ancient gender

and sexuality studies, showcasing the work of leading international scholars as well as that of emerging talents and new voices. Sexuality and gender in the ancient world is an area of research that has grown quickly with often sudden shifts in focus and theoretical standpoints. This volume contextualises these shifts while putting in place new ideas and avenues of exploration that further develop this lively field or set of disciplines. This broad study also includes studies of gender and sexuality in the Ancient Near East which not only provide rich consideration of those areas but also provide a comparative perspective not often found in such collections. Sex in Antiquity is a major contribution to the field of ancient gender and sexuality studies.

[Studying Gender in Classical Antiquity](#) - Lin Foxhall 2013-05-09

This book investigates how varying practices of gender shaped people's lives and experiences across the societies of ancient Greece and Rome. Exploring how gender was linked with other socio-political characteristics such as wealth, status, age and life-stage, as well as with individual choices, in the very different world of classical antiquity is fascinating in its own right. But later perceptions of ancient literature and art have profoundly influenced the development of gendered ideologies and hierarchies in the West, and influenced the study of gender itself. Questioning how best to untangle and interpret difficult sources is a key aim. This book exploits a wide range of archaeological, material cultural, visual, spatial, demographic, epigraphical and literary evidence to consider households, families, life-cycles and the engendering of time, legal and political institutions, beliefs about bodies, sex and sexuality, gender and space, the economic implications of gendered practices, and gender in religion and magic.

Between Byzantine Men - Mark Masterson 2022-06-17

The presence and importance of same-sex desire between men in the Byzantine Empire has been understudied. While John Boswell and others tried to open a conversation about desire between Byzantine men decades ago, the field reverted to emphasis on prohibition and an inability to read the evidence of same-sex desire between men in the sources. *Between Byzantine Men: Desire, Homosociality, and*

Brotherhood in the Medieval Empire challenges and transforms this situation by placing at centre stage Byzantine men's desiring relations with one another. This book foregrounds desire between men in and around the imperial court of the 900s. Analysis of Greek sources (many untranslated until now) and of material culture reveals a situation both more liberal than the medieval West and important for its rite of brother-making (adelphopoiesis), which was a precursor to today's same-sex marriage. This book transforms our understanding of Byzantine elite men's culture and is an important addition to the history of sex and desire between men. *Between Byzantine Men* will appeal to scholars and general readers who are interested in Byzantine History, Society, and Culture, the History of Masculinity, and the History of Sexuality.

Roman Sexualities - Judith P. Hallett 2020-10-06

This collection of essays seeks to establish Roman constructions of sexuality and gender difference as a distinct area of research, complementing work already done on Greece to give a fuller picture of ancient sexuality. By applying feminist critical tools to forms of public discourse, including literature, history, law, medicine, and political oratory, the essays explore the hierarchy of power reflected so strongly in most Roman sexual relations, where noblemen acted as the penetrators and women, boys, and slaves the penetrated. In many cases, the authors show how these roles could be inverted--in ways that revealed citizens' anxieties during the days of the early Empire, when traditional power structures seemed threatened. In the essays, Jonathan Walters defines the impenetrable male body as the ideational norm; Holt Parker and Catharine Edwards treat literary and legal models of male sexual deviance; Anthony Corbeill unpacks political charges of immoral behavior at banquets, while Marilyn B. Skinner, Ellen Oliensis, and David Fredrick trace linkages between social status and the gender role of the male speaker in Roman lyric and elegy; Amy Richlin interrogates popular medical belief about the female body; Sandra R. Joshel examines the semiotics of empire underlying the historiographic portrayal of the empress Messalina; Judith P. Hallett and Pamela Gordon critique Roman caricatures of the woman-desiring woman; and Alison Keith discovers

subversive allusions to the tragedy of Dido in the elegist Sulpicia's self-depiction as a woman in love.

Un-Roman Sex - Tatiana Ivleva 2020-04-23

Un-Roman Sex explores how gender and sex were perceived and represented outside the Mediterranean core of the Roman Empire. The volume critically explores the gender constructs and sexual behaviours in the provinces and frontiers in light of recent studies of Roman erotic experience and flux gender identities. At its core, it challenges the unproblematised extension of the traditional Romano-Hellenistic model to the provinces and frontiers. Did sexual relations and gender identities undergo processes of "provincialisation" or "barbarisation" similar to other well-known aspects of cultural negotiation and syncretism in provincial and border regions, for example in art and religion? The 11 chapters that make up the volume explore these issues from a variety of angles, providing a balanced and rounded view through use of literary, epigraphic, and archaeological evidence. Accordingly, the contributions represent new and emerging ideas on the subject of sex, gender, and sexuality in the Roman provinces. As such, Un-Roman Sex will be of interest to higher-level undergraduates and graduates/academics studying the Roman empire, gender, and sexuality in the ancient world and at the Roman frontiers.

From Shame to Sin - Kyle Harper 2013-06-01

The transformation of the Roman world from polytheistic to Christian is one of the most sweeping ideological changes of premodern history. At the center was sex. Kyle Harper examines how Christianity changed the ethics of sexual behavior from shame to sin, and shows how the roots of modern sexuality are grounded in an ancient religious revolution.

Sex in Antiquity - Mark Masterson 2018-02-05

Looking at sex and sexuality from a variety of historical, sociological and theoretical perspectives, as represented in a variety of media, Sex in Antiquity represents a vibrant picture of the discipline of ancient gender and sexuality studies, showcasing the work of leading international scholars as well as that of emerging talents and new voices. Sexuality and gender in the ancient world is an area of research that has grown

quickly with often sudden shifts in focus and theoretical standpoints. This volume contextualises these shifts while putting in place new ideas and avenues of exploration that further develop this lively field or set of disciplines. This broad study also includes studies of gender and sexuality in the Ancient Near East which not only provide rich consideration of those areas but also provide a comparative perspective not often found in such collections. Sex in Antiquity is a major contribution to the field of ancient gender and sexuality studies.

Sexuality and Gender in the Classical World - Laura K. McClure 2008-04-15

This volume provides essays that represent a range of perspectives on women, gender and sexuality in the ancient world, tracing the debates from the late 1960s to the late 1990s.

Ancient Sex - Ruby Blondell 2015

Elucidates some of the ways that ancient Greek and Roman texts and visual arts articulate a culturally specific discourse about sexual matters.

Exploring Gender Diversity in the Ancient World - Allison Surtees 2020-02-03

Explores how binary gender and behaviours of gender were actively challenged in classical antiquity Provides a focus on gender on its own terms and outside the context of sex and sexuality Offers an interdisciplinary approach, appealing to Classicists, Ancient Historians, and Archaeologists, as well as audiences working outside the ancient world, in Gender Studies, Transgender Studies, LGBTQ+ Studies, Anthropology, and Women's Studies Covers a broad time period (6th c. BCE - 3rd c. CE) and addresses both textual evidence and material culture (vases, sculpture, wall painting) Provides history of gender identities and behaviours previously ignored or suppressed by disciplinary practices Gender identity and expression in ancient cultures are questioned in these 15 essays in light of our new understandings of sex and gender. Using contemporary theory and methodologies this book opens up a new history of gender diversity from the ancient world to our own, encouraging us to reconsider those very understandings of sex and gender identity. New analyses of ancient Greek and Roman culture that

reveal a history of gender diverse individuals that has not been recognised until recently. Taking an interdisciplinary approach these essays will appeal to classicists, ancient historians, archaeologists as well as those working in gender studies, transgender studies, LGBTQ+ studies, anthropology and women's studies.

Roman Homosexuality - Craig A. Williams 1999-06-10

This book provides a thoroughly documented discussion of ancient Roman ideologies of masculinity and sexuality with a focus on ancient representations of sexual experience between males. It gathers a wide range of evidence from the second century B.C. to the second century A.D.--above all from such literary texts as courtroom speeches, love poetry, philosophy, epigram, and history, but also graffiti and other inscriptions as well as artistic artifacts--and uses that evidence to reconstruct the contexts within which Roman texts were created and had their meaning. The book takes as its starting point the thesis that in order to understand the Roman material, we must make the effort to set aside any preconceptions we might have regarding sexuality, masculinity, and effeminacy. Williams' book argues in detail that for the writers and readers of Roman texts, the important distinctions were drawn not between homosexual and heterosexual, but between free and slave, dominant and subordinate, masculin and effeminate as conceived in specifically Roman terms. Other important questions addressed by this

book include the differences between Roman and Greek practices and ideologies; the influence exerted by distinctively Roman ideals of austerity; the ways in which deviations from the norms of masculine sexual practice were negotiated both in the arena of public discourse and in real men's lives; the relationship between the rhetoric of "nature" and representations of sexual practices; and the extent to which same-sex marriages were publicly accepted.

Sexuality in Greek and Roman Culture - Marilyn B. Skinner
2013-07-23

This agenda-setting text has been fully revised in its second edition, with coverage extended into the Christian era. It remains the most comprehensive and engaging introduction to the sexual cultures of ancient Greece and Rome. Covers a wide range of subjects, including Greek pederasty and the symposium, ancient prostitution, representations of women in Greece and Rome, and the public regulation of sexual behavior Expanded coverage extends to the advent of Christianity, includes added illustrations, and offers student-friendly pedagogical features Text boxes supply intriguing information about tangential topics Gives a thorough overview of current literature while encouraging further reading and discussion Conveys the complexity of ancient attitudes towards sexuality and gender and the modern debates they have engendered
