Manual - Stephen Kieren 2002-04

Manual is no typical architectural monograph. It is a guidebook to how the successful Philadelphia firm KieranTimberlake builds their buildings. Manual reveals the architect's "trade secrets," opening the firm's files of details to show us how things are made. Anyone who has every looked at a building or a staircase or a shelf and wondered "how did they do that?" will find the answer in Manual. By disclosing their design strategies-illustrating them with photographs and detailed working drawings from twenty-nine built projects ranging from houses to schools, KieranTimberlake provides in this unique book a level of understanding not otherwise possible.
