

Sexual Subject Screen Reader In Sexuality

Straight Sex - Lynne Segal
2015-01-27

Is heterosexual sex inherently damaging to women? Is it possible for women to enjoy sensuality and pleasure with men that does not increase male power? Lynne Segal's unflinching examination of feminist thinking on sexuality over the past twenty-five years tackles these questions head on. Only two decades ago, politically aware women often declared themselves both sexual liberationists and feminists - their right to sexual fulfillment symbolized their right to selfhood. However, the most positive women's writing on female sexuality in recent years has come primarily from the lesbian community. Segal addresses the silence of heterosexual feminists on questions of sex and love and

notes the shift toward sexual conservatism. She looks at the trends that followed Sixties radicalism: sex as a subversive activity, the "liberated orgasm," sex advice literature, gender uncertainties, Queer politics, antipornography campaigns, and the rise of the moral right.

Moves from Beethoven to Buffy to examine the blurred nexus of elite and popular culture in the twenty-first century.

Framed! - Lucy Bolton 2007
Broaching the notion of the 'frame' from a variety of analytic perspectives, and employing a range of approaches, this collection of articles engages with contemporary debates on text and image relations, literary reception and translation, narratology and cinematographic technique. The various contributions to this collection provide new readings in their respective fields, and share a common

concern with exploring the productive and problematic notion of the 'frame' and of 'framing' in a wide variety of cultural media in French Studies. This interdisciplinary analysis of literary and theoretical texts, visual art and film allows for fruitful connections to be made at the level of analysis of themes and of methodology. It thus provides material that is of interest both to specialists in these fields, and also to those seeking a more general introduction to each area. This collection of articles is selected from the proceedings of the 'Framed! in French Studies' workshop, held at the Institut Français in London in February 2006.

The Sexual Health of Men - Laura Serrant-Green
2018-04-19

This challenging critique explores the current constraints and opportunities for addressing and promoting the sexual health of men. It redresses the balance between society's traditional views and

expectations of men's sexual health, compared to the sexual health of women. The wide-ranging approach critically considers all aspects of sexual health, including historic developments, social considerations, personal issues and political climates.

Authoritative and evidence-based, "The Sexual Health of Men" brings together experts from the fields of sexual health research, education and practice. It is highly recommended for health and social care professionals, including nurses, doctors, social workers, health advisers and sexual health service providers. Health researchers, and policy makers and shapers will find the research of great interest, as will all those concerned about the sexual health and well-being in men.

After Raymond Williams -

Hywel Dix 2013-09-15

After Raymond Williams:

Cultural Materialism and the Break-Up of Britain has two broad aims. The first is to re-examine the concept of cultural materialism, the term used by Raymond Williams to describe his theory of how writing and other cultural forms relate to general social and historical processes. Using this theory, the second objective is to explore the material ways in which contemporary British writing participates in one particular political process - that of the break-up of Britain. The general trajectory of the book is a matter of superseding Williams: the early chapters are devoted to extrapolating Williams's materialist theory of cultural forms, while later chapters are concerned with applying this theoretical material to a series of readings of books and films produced in the years since his death in 1988. This volume provides a

detailed account of some of the writing produced in Scotland and Wales in the years surrounding political devolution, and also considers the ways in which different subcultural communities use fiction to renegotiate their relationships with the British whole.

The Sexual Subject - Screen 1992

Brings together indispensable writings on sexuality which have appeared in Screen, posing new conjunctions and making connections in one volume between debates which have spanned the last two decades in film theory. The Sexual Subject brings together writing on sexuality which has appeared in Screen over the past two decades. It reflects the journal's continuing engagement with questions of sexuality and signification in the cinema, an engagement which has had a profound influence on the development of the academic study of film and on alternative film and video. The collection opens with Laura Mulvey's classic "Visual

Pleasure and Narrative Cinema" with its conjunction of semiotics and psychoanalysis, the critical approach which is most closely associated with Screen's rise to international prominence. The Reader then goes on to explore the particular questions and debates which that conjunction provoked: arguments around pornography and the representation of the body; questions of the representation of femininity and masculinity, of the female spectator, and of the social subject. Many of the writings in this Reader have become indispensable texts within the study of film. The purpose of the Reader is not only to make the articles available to a wider readership, and to a new generation, but also to pose new conjunctions, making connections in one volume between debates and inquiries which spanned two crucial decades of film theory. The Sexual Subject is intended not only for all those with a particular interest in film and film theory, but for anyone with a serious

commitment to cultural theory, theories of representation, and questions of sexuality and gender.

The Psychology Of Gender And Sexuality - Wendy

Stainton Rogers 2001-01-16

". . . a particularly well-wrought and intelligent book. It provides an extensive introduction to traditional psychological approaches, while acknowledging their weaknesses, and in a judicious

and detailed review the authors take us through a fascinating survey of the constructionist and discursive modes of enquiry and what they reveal about sex and gender. This will make not only an excellent textbook, but is good reading as well." - Rom Harre, Linacre College, Oxford and Georgetown University * To what extent are gender and sexuality 'programmed in the genes' and to what extent are they acquired through learning and from culture? * What is wrong with traditional ways in which psychology has addressed these topics and what better alternatives are there? * What do these new approaches have to offer us in understanding our own gender and sexuality, our life experiences and our relationships? Gender and sexuality permeate our lives and have a profound influence on who we are and what we feel, think and do. This book provides a fundamental and wide-ranging introduction to different psychological approaches to this field. It

reviews both traditional and current theorization, reflecting the contradictory approaches that try to explain how gender and sexuality are acquired, their impact on identity, and their influence on life-styles, life-opportunities and life-choices. The Psychology of Gender and Sexuality is unique in providing a comprehensive introduction to both gender and sexuality. Using examples that are highly relevant to today's generation of students, it encourages the reader to explore the implications of the various theoretical approaches for men and women and their relationships with each other. This is a lively and readable textbook for general introductory courses and an ideal starting point for more advanced specialist courses on these topics.

The Sexual Subject - 1992

Out Takes - Ellis Hanson 1999
Brings together the work of both film scholars and queer theorists to advance a more sophisticated notion of queer film criticism.

Extra-Ordinary Men - Nicola Rehling 2010-06-21

This book analyzes popular cinematic representations of normative masculinity, exploring the idea that its positioning as the 'ordinary' identity is a source of not only ideological and political strength but also considerable anxiety. Rehling offers lucid accounts of contemporary theoretical debates on masculinity, whiteness, gender, race, and sexuality in popular cinema, and detailed readings of films as diverse as *Fight Club*, *Boys Don't Cry*, and *The Matrix*.

The New Heroines in Film and Television - Helena

Bassil-Morozow 2023-06-29

This thought-provoking volume offers an overview of contemporary representations of prominent female characters as they appear in an array of moving-image narratives from a Jungian and post-Jungian perspective. Applying a theoretical frame that is richly informed by the Jungian and post-Jungian concepts of persona, individuation, and

archetypes, works including Fleabag (2016-2019), Ladybird (2017), and The Queen's Gambit (2020) as well as Disney productions such as Brave (2012), Moana (2016), and Frozen (2013), are contextualized and discussed alongside their non-screen precedents and contemporaries, including myths, fairy tales, and works of literature, to closely examine new patterns of the female journey. This book identifies how young female characters rebel against the female persona of previous eras through the trickster, the shadow, and other archetypes, comparing the contemporary female protagonist with her predecessors to assess the new paths, roles, and milestones available to her. Examining the construction of the female persona across time periods and mediums in an accessibly written yet academic style, this book is the first of its kind. With a fulsome account of the progressive developments in entertainment media and Jungian thought, this book is

essential reading for students and scholars of film, as well as anyone with an interest in analytical psychology and wider feminist issues in contemporary culture.

Immortal, Invisible - Tamsin Wilton 2003-09-02

Immortal, Invisible: Lesbians and the Moving Image is the first collection to bring together leading film-makers, academics and activists to discuss films by, for and about lesbians and queer women. The contributors debate the practice of lesbian and queer film-making, from the queer cinema of Monika Treut to the work of lesbian film-makers Andrea Weiss and Greta Schiller. They explore the pleasures and problems of lesbian spectatorship, both in mainstream Hollywood films including Aliens and Red Sonja, and in independent cinema from She Must be Seeing Things to Salmonberries and Desert Hearts. The authors tackle tricky questions: can a film such as Strictly Ballroom be both pleurably camp and heterosexist? Is it ok to drool

over dyke icons like Sigourney Weaver and kd lang? What makes a film lesbian, or queer, or even post-queer? What about showing sex on screen? And why do lesbian screen romances hardly ever have happy endings? *Immortal, Invisible* is splendidly illustrated with a selection of images from film and television texts.

Screening the Marquis de Sade
- Lindsay Anne Hallam
2014-01-10

Since their publication, the works of the Marquis de Sade have challenged the reading public with a philosophy of relentless physical transgression. This is the first book-length academic study by a single author that applies the philosophy of the Marquis de Sade to the analysis of a wide array of film texts. By employing Sade's controversial body-oriented philosophy within film analysis, this book provides a new understanding of notions of pain, pleasure, and the representation of the transgressive body in film. Whereas many analyses have

used theory to excuse and thus dilute the power of sexual and violent images, the author has here sought to examine cinematic representations of human relations as unflinchingly as Sade did in his novels.

Masculinity in Fiction and Film
- Brian Baker 2006-04-09

This book looks at a wide range of fiction and film texts, from the 1950s to the present, in order to analyse the ways in which masculinity has been represented in popular culture in Britain and the United States. It covers numerous genres, including spy fiction, science fiction, the Western and police thrillers. Each chapter focuses on key forms of masculinity found in each genre, such as the 'double agent', the 'rogue cop' and the 'citizen-soldier'. Brian Baker takes a broad, contextual approach, placing a detailed discussion of key texts and issues concerning masculinity in their historical and cultural context. Written in a clear, accessible way, it explores the changing representation of

men over the last fifty years.

New Austrian Film - Robert von Dassanowsky 2011-04-30
Out of a film culture originally starved of funds have emerged rich and eclectic works by filmmakers that are now achieving the international recognition that they deserve: Barbara Albert, Michael Haneke, Ulrich Seidl, and Stefan Ruzowitzky, to give four examples. This comprehensive critical anthology, by leading scholars of Austrian film, is intended to introduce and make accessible this much under-represented phenomenon. Although the book covers the full development of the Austrian new wave it focuses on the

period that has brought it global attention: 1998 to the present. **New Austrian Film** is the only book currently available on this topic and will be an essential reference work for academics, students and filmmakers, interested in modern Austrian film.

Masculinity - Peter Lehman 2013-02-01

Lehman brings together new work on masculinity in film by established film scholars, new academics, performance artists, and cultural critics. The essays analyze trends from the role of gay men in saving heterosexuality to the emergence of new queer cinema.
