Returning to the scene of her childhood, Thorn takes us beyond the bus shelters, the pub car parks and the weekly discos, to the parents who wanted so much for their children and the children who wanted none of it. With great wit and insight, Thorn reconsiders the Green Belt post-war dream so many artists have mocked, and yet so many artists have come from.

From 'Stop! In The Name Of Love' to 'How Sweet It Is To Be Loved by You,' they were the songwriting and production dream team responsible for some of the greatest songs of the twentieth century. In this compelling autobiography, brothers Eddie and Brian Holland share their story for the first time, starting with growing up in Detroit raised by a single mother and their grandmother, before shining a light on their early musical careers. After an awe-inspiring tenure they left Motown in 1968, continuing their successes at new labels and with new collaborators for years to come. **Up Jumped the Devil** Bruce Conforth 2019-06-04 Robert Johnson is the subject of the most famous myth about the blues: he allegedly sold his soul at the crossroads in exchange for his incredible talent, and this deal led to his death at age 27. But the actual story of his life remains unknown save for a few inaccurate anecdotes. *Up Jumped the Devil* is the result of over 50 years of research. Gayle Dean Wardlow has been interviewing people who knew Robert Johnson since the early 1960s, and he was the person who discovered Johnson's death certificate in 1967. Bruce Conforth began his study of Johnson's life and music in 1970 and made it his mission to fill in what was still unknown about him. In this definitive biography, the two authors relied on every interview, resource and document, most of it material no one has seen before. As a result, this book not only destroys every myth that ever surrounded Johnson, but also tells a human story of a real person. It is the first book about Johnson that documents his years in Memphis, details his trip to New York, uncovers where and when his wife Virginia died and the impact this had on him, fully portrays the other women Johnson was involved with, and tells exactly how and why he died and who gave him the poison that killed him. *Up Jumped the Devil* will astonish blues fans who thought they knew something about Johnson.

**The Heart Logs** John Gudmundson 2014-06-18 This memoir chronicles a tumultuous six month period in the life of the author, beginning with his sudden hospitalization due to endocarditis, an infection of the heart, and ending with his return to a normal life. The events and the people that connect the start to the finish are many and varied, sometimes tragic and oftentimes comedic. From the first afternoon in the emergency room, the author, a career software engineer, uses his curiosity in the modern medical system and its parallels and contrasts with his own industry to keep himself interested and focused on staying alive. The result is a rare technical take on our system by a medical outsider. The story is at once highly personal and inspiring without ignoring the technical details: what's involved in carrying out and undergoing modern treatments including an angiogram, MRI, renal dialysis, and heart surgery, from the points of view of both patient and medical staff. Above all, it is an intimate travelogue where the physical distances are small while the human distances are broad, and where the unflinching support of family, friends, community and medical system converge into a success story.

**Medical Heroes and Heretics** Wayne Martin 1977 Orthodox science -- particularly in the medical profession -- has for centuries resisted change. It traces back at least as far as Socrates who was done to death for corrupting youth with his innovative ideas. In recent times, practically all the great advances in medicine have been made against a powerfully entrenched orthodoxy. Wayne Martin's book is about some of the men involved -- then and now: Oliver Wendell Holmes, Sr., who made physicians wash their hands; Louis Pasteur, who postulated the connection between bacteria and certain diseases; Frederick Banting, who discovered insulin; Jonas Salk, who solved the mystery of polio, to mention but a few. These men all braved the wrath of the medical establishment of their day. Heretics they were, but Heroes they became. Similarly, today a group of brave pioneers are fighting the same fight. They are, says the author, the heroes of tomorrow: Ernst Krebs, Jr., Evan Shute, Dean Burk, Denis Burkitt, Virginia Livingston and a dozen others, all of whose careers and findings are described here by a man who has pursued his topic for the past ten years.

**Myth and Madness** Daniel Hryhorczuk 2016-12-13 During Ukraine's Revolution of Dignity in the winter of 2013-14, Dr. Natalka Slovyanka, a beautiful, young psychiatrist from Donbas, tries to cure her mysterious patient of his "philosophical intoxication." Telesyk is a storyteller who hears voices in the wind. His mind drifts between the immuring reality of the psikhushka and an imaginary world inhabited by witches, nymphs, and dragons. He engages the other patients in a fairy tale of the quest for a horse that eats burning embers and drinks fire, a myth that parallels Ukraine's search for its identity. Both patient and therapist embark on their own quests--Telesyk, to free himself from the prison of his mind and Natalka, to escape the dark secrets of her past. As different as East and West, they realize that they must unite to slay the family of dragons that are threatening their existence. *Myth and Madness* blends magical realism with historical events on the Maidan to tell the story of a nation's quest for its identity.

**I Will Survive** Gloria Gaynor 2014-03-11 I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

**This Searing Light, the Sun and Everything Else** Jon Savage 2019-04-02 The SUNDAY TIMES Top Ten Bestseller #1 Book of the Year, UNCUT #1 Book of the Year, ROUGH TRADE Book of the Year, MOJO Over the course of two albums and some legendary gigs, Joy Division became the most successful and exciting underground band of their generation. Then, on the brink of a tour to America, Ian Curtis took his own life. In This Searing Light, the Sun and Everything Else, Jon Savage has assembled three decades' worth of interviews with the principal players in the Joy Division story to create an intimate, candid and definitive account of the band. It is the story of how a group of young men can galvanise a generation of fans, artists and musicians with four chords and three-and-a-half minutes of music. And it is the story of how illness and inner demons can rob the world of a shamanic lead singer and visionary lyricist.

**Chart Throb** Ben Elton 2008-12-26 Chart Throb. The ultimate pop quest. Ninety five thousand hopefuls. Three judges. Just one winner. And that's Calvin Simms, the genius behind the show. Calvin always wins because Calvin writes the rules. But this year, as he sits smugly in judgement upon the mingers, clingers and blingers whom he has pre-selected in his carefully scripted 'search' for a star, he has no idea that the rules are changing. The 'real' is about to be put back into 'reality' television and Calvin and his fellow judges (the nation's favourite mum and the other bloke) are about to become ex-factors themselves. Ben Elton, author of Popcorn and Dead Famous returns to blistering comic satire with a savagely hilarious deconstruction of the world of modern television talent shows. Chart Throb. One winner. A whole bunch of losers.
