50 Walks in Essex - Katerina Roberts 2002

Explore the beauty of Essex with this slim-line pocket-sized walking guide with a range of walks to suit the casual walker and the hiker (between three and eight miles in length). 30 walks are fully annotated with places to visit on the way with each one highlighting a particular feature, including wildlife, history and the countryside. Ten extensions are provided also to reveal shortcuts or more challenging possibilities. There are also 10 non-mapped routes that provide simple linear walks such as nature trails or canal towpaths.

Essex Walks - Brian Conduit 2001-03-19

The Essex landscape gently undulates, with the hilliest country is in the north and west, near the Herfordshire and Cambridgeshire borders. On the marshes of Essex, for example, there is a genuine feeling of solitude that is hard to find anywhere else in southern England. Colchester, the oldest recorded town in Britain, is featured in one of the walks, and there are routes through Epping and Hatfield forests, which contain some of the finest surviving fragments of England's medieval forests. The Essex-Suffolk border is Constable Country, and walkers are guided through Dedham Vale, passing Flatford Mill and Willy Lott's Cottage.

50 Walks in Essex - 2009

Walking in Essex - Peter Aylmer 2019-04-15

This guidebook describes 25 coastal and inland day walks covering the whole of the county of Essex, stretching from the Lea Valley in the west and the Thames in the south over to the North Sea and up to the River Stour in the north. Walks range from 4 to 18 miles and are mostly circular. Also included is a description of the

Essex Way which crosses the county in 11 stages from Manor Park, on the fringes of London, to the port of Harwich - a distance of 96 miles. The walks are suitable for all abilities and there are shorter alternatives for many of the longer routes. With a huge variety of scenery and walking landscapes, Essex surprises and delights in equal measure. It boasts a 350-mile coastline (which, away from the busy seaside resorts, is barely known), numerous estuaries and river valleys, great and ancient forests, and more green lanes than any other English county except Dorset. Each walk is described step-by-step, illustrated with OS map extracts and packed with historical, and geological information about the landscape the route passes through.

50 Walks on the Essex Coast - Peter Caton
2016-11-28

A walking guide describing 50 walks along the Essex coast, the longest coastline of any English county. Peter Caton discovered the wonderful Essex coastline as he narrated his journey along its whole length, writing *Essex Coast Walk* (Matador, 2009). He now describes walks covering the entire publicly accessible coast, helping others to follow in his footsteps. Detailed route instructions are provided, along with high-quality maps, while background information and colour photos add context and interest.

Following rivers, creeks and open sea, on paths,

tracks and promenades, often with circuits completed across countryside, the walking and views are varied. There is much history and wildlife to be seen as the walker discovers picturesque villages, smugglers' haunts, nature reserves and little-known gems along the coast. Walks range from 2 to 15 miles, with most having different length options, plus the possibility of linking adjoining routes. Produced in full colour, *50 Walks on the Essex Coast* is an invitation for serious ramblers, or those looking for just an afternoon stroll, to discover the hidden magic of the Essex coast.

into this fascinating county and is the companion book to Essex Coast Walk by the same author. Peter Caton explores all 162 miles of Suffolk's unique coastline, describing the route for fellow walkers, with an engaging narrative that tells of the beauty, history and wildlife of this mysterious and varied coast. The reader is taken up and down Suffolk's remote creeks and rivers, past sandy beaches and huge expanses of shingle, through nature reserves, seaside resorts and tiny villages. We learn of the county's abundant wildlife, not just through its famous bird populations but also of equally interesting and less celebrated creatures, and how habitats are managed to balance the needs of nature and mankind. Throughout his journey, Peter uncovers many mysteries and considers the stories behind legends of Anne Boleyn, invading Germans, a half-man half-fish character, UFOs, Crazy Mary and bells tolling beneath the sea. He visits Suffolk's only island and takes a boat trip to investigate the secret world of Orford Ness.

More than 100 colour and black & white photos illustrate the story of the walk and the beauty and atmosphere of county's remarkable coast. With maps at the start of each chapter, this is a book for those who enjoy a short stroll, a longer ramble or simply wish to follow the coast from the comfort of an armchair.
