People increasingly want to support businesses that operate with a moral code; businesses they know, like and trust. The global trend for 'conscious' business has become increasingly important with the palpable shift away from companies, organisations or governments that act unethically. 'Humanistic businesses' are people-focused and conscious of their obligations towards offering value and building positive relationships with all of their stakeholders. This is the first practical book to reveal how to create a humanistic business, which promises higher profit, greater staff retention and more satisfied customers. This book shows how humanistic businesses become leaders by creating and promoting trust and authenticity and become popular with loyal staff and clients by designing a unique user experience. It explains why ethical companies are succeeding as they create an environment that customers want to be in, staff members want to work in, and suppliers want to be engaged with. Doing the right thing has never been more profitable.

The Social Soul - Robert Napoli 2022-03-16

The Millennial and GenZ generations understand social media. They have grown up in an age of hyperconnectivity, but many don't do a great job at understanding or blending their social presence effectively as a tool to show who they are, their why, their value, and the impact they can create as job candidates or as business owners. I call this our Social Soul. It's how we show our true authentic selves online with intentionality. It shows an individual's love and passion for what they do, and the value they offer to their various networks of friends, current and potential colleagues, prospective partners, managers, direct reports, or investors. For entrepreneurs, the most effective way to use social selling isn't obvious, even if they have come of age in a hyperconnected world. This book will educate and inspire readers to take action on the most powerful and useful social networks to date. You will learn through thoughtful examples applicable to future platforms that can be used to better connect in pursuit of entertainment, clients, networking, and business success in a way that translates across cultural borders.

Awaken the Magic Within - Joe Swinger 2018-03-13

Awaken the Magic Within helps business leaders listen to that voice inside, showing them that it's brilliant and it matters, in both work and personal situations. It is a simple read; yet, it has dramatic impact on a business's bottom line, as well as an employee's value to the company. A business must make money or it isn't a business—it is a hobby. The old way of making a profit in business no longer serves the company, the shareholder, or the employee. In Awaken the Magic Within, motivational transformation specialist Joe Swinger addresses a transformative leadership style called Self-Mastery Leadership, the application of which produces rewarding results for business leaders in their multiple work situations with employees, within C-level suites, and in their families and love relationships. Whether someone longs to exchange the label "employee" for "entrepreneur," be more authentic in their personal and professional relationships, or upgrade their entire life on a grand scale, it all begins with self-mastery. Joe Swinger allows business leaders and entrepreneurs alike to give themselves permission to live the gift they truly are, enter their own journey, and become more authentic as they Awaken the Magic Within.

Win-Win Influence - Roger Ellerton 2012-06

You can get anything in the world that you want, if you help somebody else get something they want. -Zig Zigler Whether you are a parent, son/daughter, friend, employee, manager or salesperson, you are constantly influencing others to accept you, your ideas, products or services. Those who masterfully present themselves and their ideas in a win-win manner, get ahead. Those who do not, may reap short-term gains and eventually fail in their objective. Influence is critical in leadership, negotiation, teamwork, sales, resolving family issues and getting others to buy into your ideas. Follow and practice the concepts, tips and processes described in this book and improve your influence results with anyone in a manner that achieves a win-win outcome. The emphasis is on expanding your influence skills and results in everyday situations. For example, through this book, you will learn how to: Enhance your personal and business relationships. Create the career you want. Become a stronger negotiator. Enjoy the family life you desire. Create healthy work environments. Be who you choose to be. Whether you realize it or not, you are constantly influencing other people's thoughts. You do this through your actions as well as your inactions. One of the best, if not the best, communication models is neuro-linguistic programming (NLP), which forms a fundamental part of this book. How important is the ability to influence others? No matter whether you are a businessperson, teacher, parent, stay-at-home spouse, employee or manager, dealing with people is probably the most important activity you undertake throughout the course of your day. A number of years ago, research sponsored by the Carnegie Foundation for the Advancement of Teaching and later confirmed at the Carnegie Institute of Technology discovered that even in engineering, about 15 percent of one's financial success is due to one's technical knowledge and about 85 percent is due to interpersonal skills. If you are ready to be the difference that makes the difference in creating better results in your life, grab a copy and let's get started
