**Sleazy Stories** - Aaron Sleazy  
2009-10-05

Aaron Sleazy is among the most infamous modern seducers of women. His unusually direct style gained him followers all around the globe. Due to his incredible boldness and complete disregard of social norms he has eventually reached a level of success that can only be described as surreal. Some people may consider him a despicable character, but men usually envy his abilities with women, while women wish more men were like him. This book chronicles Aaron Sleazy's development from a guy that got some female attention into a raunchy modern Don Juan. It contains his most memorable, his most entertaining, his

craziest, and his most bizarre adventures on his quest of picking up women. Sleazy Stories is a collection of not even one year's worth of experiences. Nonetheless, it contains more variety and absurdities than a lifetime's sexual history of probably 99.9 % of guys out there.

Have you ever dreamt of becoming an infallible seducer of women? This book tells you everything you need to know, courtesy of the world's only major female PUA (pick-up artist), Kezia Noble! Unknown until a couple of years ago, Kezia was approached by the organisers to attend a PUA class meeting. She gave it to the other attendees straight, not caring if she offended anyone; the men took it on the chin and took her constructive criticisms on board. Within days and weeks they were trying out her suggested techniques and starting to become more successful with women. Kezia returned to the

PUA classes and started to make a name for herself. Kezia Noble is the first woman to offer the aspiring pick-up artist advice on how to attract women from a woman's point of view. She now runs many classes and a workshop, and even produces corporate videos on the chemistry of attracting women. Now, in answer to requests from her students, Kezia has written a book on the 15 steps to becoming a master seducer - which will also prove an invaluable aid to men who cannot afford her classes, who work too far away or don't have enough time. The Noble Art of Seducing Women is the first and only sure-fire pick-up guide to be written by a woman. It has the potential to transform a lonely man into someone who need never be single again . . . unless, of course, he wants to be. Kezia Noble works with her students instead of belittling them. As a sensitive and intelligent young woman, she is becoming known as the best PUA in the business...

**Fundamentals of Female Dynamics** - Michael Knight 2016-03-08

A mature guide to attraction that is neither insulting to women nor to the intelligence of its readers. While written for a general audience, this text caters especially to those with technical backgrounds. Logically minded individuals, such as engineers and computer programmers, are generally among the most befuddled when it comes to attracting women. While attraction and seduction are more of an art than a science, this text breaks down and delineates the most critical and

fundamental concepts. Inside this book you will not find pick-up lines, routines, gimmicks, tricks or manipulative mind games. While other resources provide surface level advice, this book tackles attraction on a first principles basis. By understanding how attraction works on the deepest level, you will learn to address the causes of your issues rather than just how to cover up the symptoms. That is, you will learn to become an attractive man, not just how to act like one.

*Why Smart Men Marry Smart Women* - Christine B. Whelan  
2006-10-17

For years, it's been "common knowledge" that once a woman hits thirty, her chances of finding a husband diminish to the point of despair. That men are intimidated by a woman's career success, preferring docile helpmates to ambitious achievers. That women are biologically driven to seek a strong provider. That the higher a woman's IQ, the less likely she is to marry, let alone have babies...leaving single, successful women to ask

themselves: Are men intimidated by smart women? In *Why Smart Men Marry Smart Women*, Christine B. Whelan shatters the myth that high-achieving women are at a disadvantage in the marriage market. There's good news for the millions of American SWANS (Strong Women Achievers, No Spouse): that today's smart, successful women marry at the same rates as all other women -- and that more income and education may in fact increase a woman's chances of marriage. What's more, as Dr. Whelan shows through newly released U.S. Census data, a large-scale Harris Interactive survey commissioned especially for this book, plus extended interviews conducted in cities nationwide, this profound demographic shift shows every sign of progressing. That means that the "success penalty" that has endured for generations is, as soon as 2010, destined for the history books. Accomplished daughters, sisters, and friends (not to mention their mothers)

can finally stop worrying that the twin pinnacles of personal and professional happiness are inherently unattainable. In fact, smart men do marry SWANS. Ninety percent of high-achieving men surveyed want a woman who is as intelligent or more intelligent than they are. And two-thirds of men said they believed smart women make better mothers. Pairing cutting-edge research with sound advice, Dr. Whelan brings to mind what smart women everywhere have long known in their hearts: that the goal is not just to get married, but to have a good marriage, and to lead a fulfilled life.
